## ZIEGLER mfm 3410

Digital Multifunction Instrument

## Application :

**Ziegler mfm 3410** measures important electrical parameters in single phase, 3 phase 4 Wire and 3 phase 3 Wire Network & replaces the multiple analog panel meters. It measures electrical parameters like AC Voltage, AC Current, Frequency, kVA, Neutral Current (for 4 Wire only), Total System Current Demand, Total System Maximum Current Demand, Total System kVA Demand and Maximum Total System kVA Demand.

## Product Features:

### Number of parameters measured: up to 18

The instrument measures 18 electrical parameters of 3 Phase network.

### High Accuracy

Better than 0.5 % for Voltage ,Current and kVA

### On site programmable PT/CT ratios

It is possible to program primary of external potential Transformer (PT), primary of external Current Transformer (CT) on site via front panel keys by entering into Programming mode.

### User selectable CT Secondary 5A/1A

The secondary of external Current Transformer (CT) can be programmed on site to either 5A or 1A using front panel keys.

### User selectable 3 phase 3W or 4W

User can program on site the network connection as either 3 Phase 3 Wire or 4 Wire using front panel keys.

### Low back depth

The instrument has very low back depth (behind the panel) of less than 80 mm.

### True RMS measurement

The instrument measures distorted waveform up to 15th Harmonic.

### Neutral Current Measurement (for 4 Wire only)

The instrument measures neutral current in 3 Phase 4 wire unbalanced load network.

### Total System Current Demand &

### Total System Maximum Current Demand

The instrument measures system current demand and Maximum System Current demand. The demand time can be programmed on site from 8, 15, 20 and 30 minutes using front panel keys.

### Total System kVA Demand &

### Maximum Total System kVA Demand

The instrument measures system kVA Demand and Maximum System kVA demand. The demand time can be programmed on site from 8, 15,20 and 30 minutes using front panel keys.

### System kVA

The instrument measures the system kVA of a single phase ,3 Phase 3 wire or 4 Wire system.

### High brightness 3 line 4 digits LED display

Simultaneous display of 3 Parameters. The 4th additional digit for each parameter gives better resolution and high accuracy.

### Simple operation with easy to use front keys

There are two push button keys (Up & down) on front panel for easy operation

### Back scrolling of Parameter screens

Using the "down" key, it is possible to scroll back to the previous screen while searching the desired parameter screen.

### Enclosure Protection for dust & water

conforms to IP 54 (for front face) as per IEC60529

### EMC Compatibility

Compliance to International standard IEC 61326

## Technical Specifications

### Input Voltage

Nominal input voltage (AC RMS)	Phase –Neutral 57.7 - 277V L-N , Line-Line 100 - 480V L-L
Max continuous input voltage	120% of rated value

### Input Current

Nominal input current	1 or 5A AC RMS (programmable on site)
System CT primary values	Std. values up to 4kA (1 or 5 Amp )
Max continuous input current	120% of rated value

### Auxiliary Supply

AC Auxiliary Supply	110 V AC -15% / +20% / 230 V AC -15% / +20% / 380 VAC-15% / +20
AC Auxiliary supply frequency range	45 to 66 Hz
AC /DC Auxiliary Supply	100 – 250 VAC /DC +/- 10%
DC Auxiliary Supply	12 – 48 V DC +/- 10%

### VA Burden

Nominal input voltage burden	< 0.2 VA approx. per phase
Nominal input current burden	< 0.6 VA approx. per phase
AC Supply burden	4 VA

### Overload Withstand

Voltage	2 x rated value for 1 second, repeated 10 times at 10 second intervals
Current	20x rated value for 1 second, repeated 5 times at 5 min

### Operating Measuring Ranges

Voltage	5... 120% of rated value
Current	5 ... 120% of rated value
Frequency	40...70 Hz

**Reference conditions for Accuracy**

Reference temperature	23°C +/- 2°C
Input waveform	Sinusoidal (distortion factor 0.005)
Input frequency	50 or 60 Hz +/- 2%
Auxiliary supply voltage	Rated Value +/- 1%
Auxiliary supply frequency	Rated Value +/- 1%

**Accuracy**

Voltage	±0.5% of range (50... 100% of rated value)
Current	±0.5% of range (10... 100% of rated value)
Frequency	0.15% of mid frequency
System Apparent Power (VA)	±0.5% of range (10... 100% of rated value)
Neutral Current (for 4 Wire only)	±4% of range (10... 100% of rated value)

**Influence of Variations**

Temperature coefficient : (for rated value range of use (0...50°C))	0.025%/°C for Voltage (50... 120% of rated value) and 0.05%/°C for Current (10... 120% of rated value)
---	--

**Display update rate**

Response time to step input 1 sec approx.

**Applicable Standards**

EMC	IEC 61326
Immunity	IEC 61000-4-3, 10V/m min – Level 3 industrial low level

**Safety**

IP for water & dust	IEC60529
Pollution degree:	2
Installation category:	III
High Voltage Test	2.2 kV AC, 50Hz for 1 minute between all electrical circuits

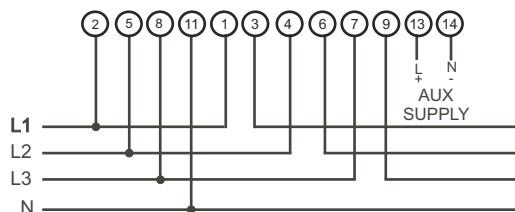

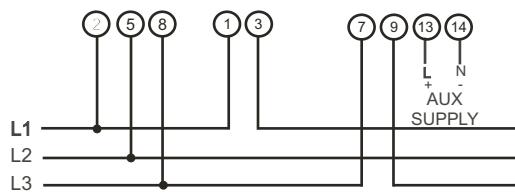

**Environmental**

Operating temperature	-10 to +55°C
Storage temperature	-20 to +65°C
Relative humidity	0... 90% non condensing
Warm up time	Minimum 3 minute
Shock	15g in 3 planes
Vibration	10... 55 Hz, 0.15mm amplitude
Enclosure	IP54 (front face only)

**Electrical Connections****For 3 Phase 4 Wire Unbalanced Load****For 3 Phase 3 Wire Unbalanced Load**

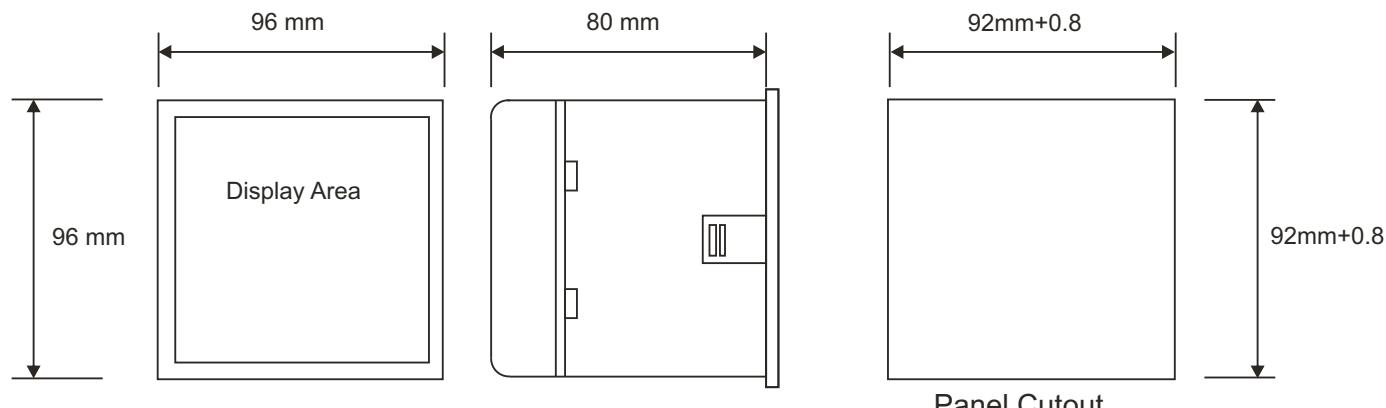

## Electrical Connections

### For 1 Phase 2 Wire

It is recommended that the wires used for connections to the instrument should have lugs soldered at the end. That is, the connections should be made with Lugged wires for secure connections. The Maximum diameter of the lug should be 7.0 mm and maximum thickness 3.5 mm. Permissible cross section of the connection wires: <= 4.0 mm<sup>2</sup> single wire or 2 × 2.5 mm<sup>2</sup> fine wire

## Dimensions

## Ordering information

	Ordering Code Ziegler mfm 3410
<b>System Type (Connection network)</b>	
3 Phase (programmable as 4 Wire or 3 Wire on site)	3
1 Phase	1
<b>Input Voltage</b>	
110V L-L (63.5V L-N)	110
230V L-L (133V L-N)	230
415V L-L (239.6V L-N)	415
440V L-L (254V L-N)	440
<b>AC Auxiliary Supply Voltage</b>	
110 V AC -15% / +20%	L
230 V AC -15% / +20%	M
380 VAC-15% / +20 %	H
<b>AC/DC Auxiliary Supply Voltage</b>	
100 – 250V AC/Dc +/- 10%	AD
12 – 48V DC +/- 10%	D

## Order Code Example

Ziegler mfm 3410 – 3 – 230 – M

Ziegler mfm 3410, 3 phase (programmable onsite as 4 wire or 3 Wire) , 230L-L nominal voltage, 230 V AC auxiliary supply.  
(No need to specify CT secondary as 5 A or 1 A is programmable on site .)
