Use the direct line to OBO Customer Service! We are available on our Service Hotline on +49 (0)2373 891 500 from 7.30 a.m. to 5.00 p.m. for any questions to do with the OBO complete product range for electrical installations. The newly structured OBO Customer Service can offer you the full service:

- Competent contacts from your region
- All the information on the OBO product range
- Knowledgeable advice on special application topics
- Quick, direct access to all the technical data of the OBO products – we also want to provide the best in customer relations!

OBO EGS seminars: First-hand knowledge

With a comprehensive programme of training courses and seminars on the subject of device systems, OBO is able to support its customers with specialist knowledge from a single source. Alongside the basic theoretical principles, the programme also deals with practical implementation in everyday applications. Special calculation and application examples round off the comprehensive programme of knowledge transfer.

Invitations to tender, product information and datasheets

We can make life easier for you: With our comprehensive selection of materials designed for practical applications, which provide you with effective support with the planning and calculation of a project. These include:

- Invitations to tender
- Product information
- Information sheets
- Datasheets

These documents are continually updated and can be downloaded at no charge at any time from the Internet download area at www-obode.de.

Invitations to tender on the Internet at www.ausschreiben.de

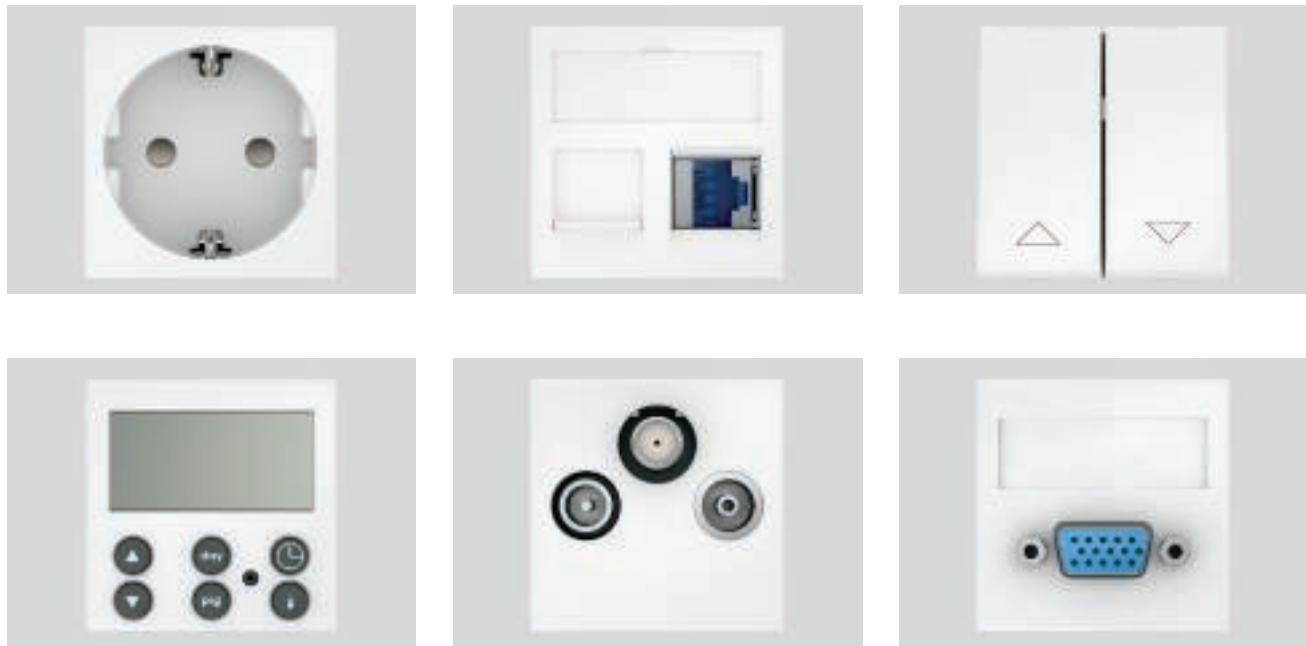

More than 10,000 entries from the KTS, BSS, TBS, LFS, EGS and UFS ranges can be called up free of charge. Regular updates and expansions means that you always have a comprehensive overview of the OBO products. All the current file formats (PDF, DOC, GAEB, HTML, TEXT, XML, ÖNORM) are available.

The principle of Modul 45®

One for all.

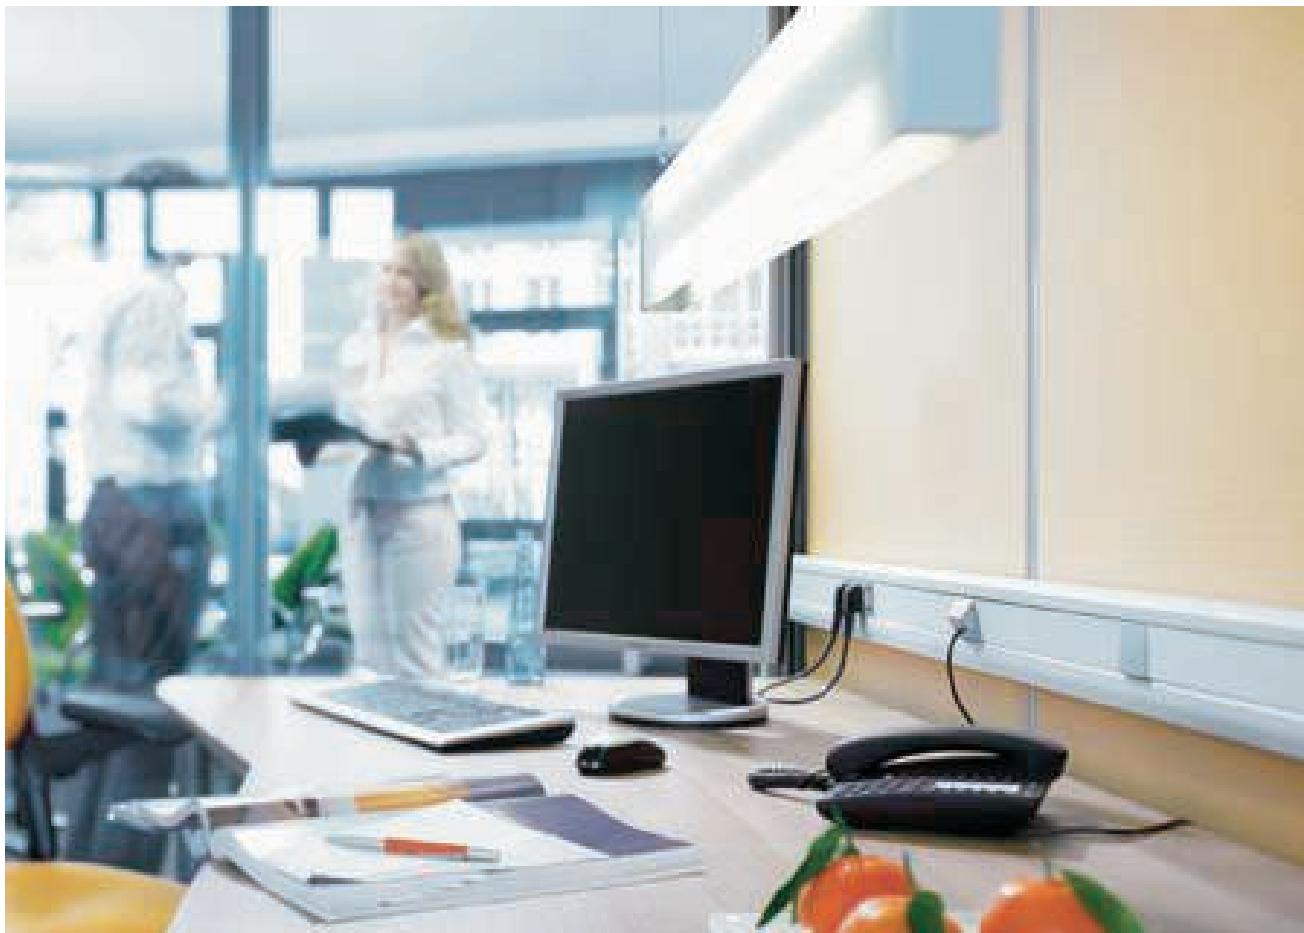

The new simplicity

Each building requires an individual solution for electrical installations. The Modul 45 series from OBO means that it is always possible to find a functional and aesthetically pleasing solution. Modul 45 can be installed universally in device installation ducts, in underfloor systems, in installation column systems and also in concealed and cavity wall applications. Using adapters and installation accessory sockets, Modul 45 devices can also be used in LFS systems with an 80 mm cover. When combined with ducts and cover frames, this produces a system in which everything is matched – and which can be adapted to new conditions at any time using just a few actions. Switches, sockets and data technology simply have to be snapped in. Device mounting has never been quicker or simpler.

The advantages of Modul 45 at a glance:

- Modular structure
- Quick and easy planning
- Easy mounting
- High efficiency due to time and cost savings
- Wide range of application options
- Space savings
- Easy exchangeability
- Flexible adaptability
- Attractive design

What costs or time effects can be achieved using the Modul 45® system?

The quick and low-cost type of installation.

Time to save money

The Modul 45 system speeds up work in each project phase, and thus makes it cheaper. Thanks to the standardised installation dimensions and the wealth of components and accessories, you can use this system for almost any application. This speeds up planning – a decisive competitive advantage, when rapid action is required. You can also reduce your warehouse and logistics costs, because you will need fewer different systems from different manufacturers. The locking system ensures that installations and changes at a later date can be completed quickly.

Time savings through plug & play

With the new Modul 45connect socket system, OBO is offering the most time-saving, simple and safe type of electrical installation. An adapter for the GST18i connector system is simply locked onto the socket allowing quick connection and forwarding of the power supply with VL extension cables. This means that there is no need for lengthy work steps when connecting sockets, such as removing cable insulation, connecting cables and mounting strain relief.

A principle which makes the grade

Today, besides function and design, installation and mounting times are key quality characteristics of a product. The Modul 45 system simplifies installation and thus reduces mounting times. Compared with standard installation types, the cost of installation, expansion and replacement of accessories is considerably lower. The decisive advantage: switches, sockets and the like are simply snapped into the system environment by hand – and the perfect, attractive and practical installation is already complete.

In which OBO system environments is the Modul 45® system used?

Rapid 80 device installation ducts

Absolutely easy mounting, a modular system structure and practical materials are all characteristics of the device installation ducts made of plastic, sheet steel or aluminum. Modul 45 technology can also be installed using device mounting boxes and cover frames.

Installation column

Energy couldn't flow better: The ISS installation column systems from OBO allow free positioning of supply points near workplaces. When equipped with Modul 45 devices, a flexible future is always installed.

Rapid 45 device installation ducts

Simple mounting, perfect appearance: The Rapid 45 device installation duct can be used universally. It can be installed as a dado and skirting board duct and offers plenty of space for plenty of cables. Switches, sockets and the like are snapped into the duct profile by hand.

Concealed and cavity wall systems

Modul 45 devices are becoming ever more popular. With its new solutions and products, OBO is rising to meet the increasing demand for practical components. For example concealed and cavity wall solutions produce new opportunities for installations.

Underfloor systems

OBO underfloor systems can offer easy, safe access to power supplies, internal and external data networks and telecommunication systems. Hidden cable ducts are particularly elegant. The Modul 45-compatible product series contain solutions for all floor types and areas of application.

Power supply unit

All good things come from above: The extremely robust power supply unit, which is suitable for industrial use, is suspended from the ceiling. It can be equipped with Modul 45 accessories and offers power, data technology and compressed air connections. Pre-equipped and pre-wired units are available.

Which is the ideal installation system for the Modul 45® system?

The "Dream Team": Rapid 45 and Modul 45 system.

Made for each other: Rapid 45 and the Modul 45 system

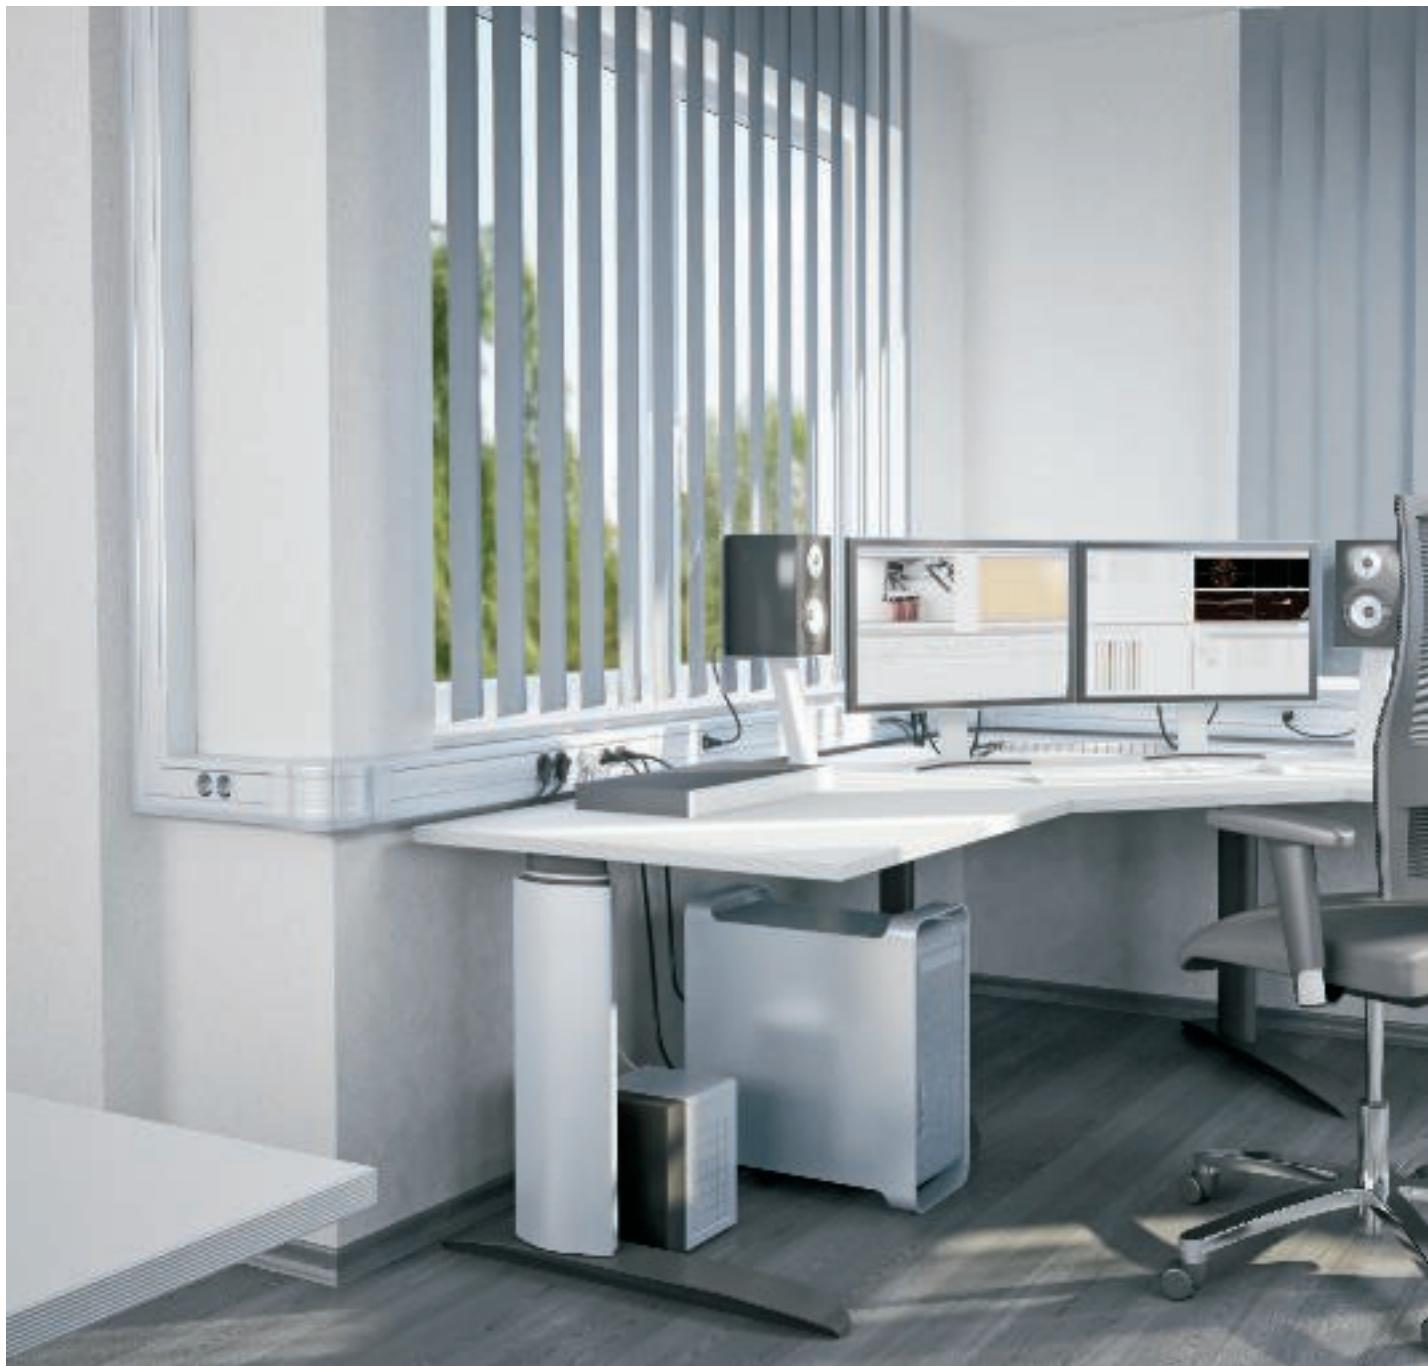

The Rapid 45 device installation ducts and installation columns with 45 mm system opening were developed especially for the devices of the Modul 45 system: The perfect interplay of modern, sleek design and contemporary economic installation. No additional components such as accessory mounting boxes, adapters or cover frames are required for mounting. The devices are clicked directly into the system opening, thus forming an unbeatable double act.

Noticeable: GEK Device installation duct Rapid 45

A characteristic feature of Rapid 45 is the imposing shape with slanting top edges. Thanks to its anodised surface, the Rapid 45 aluminium duct can be integrated easily in offices with high-quality fittings. It is available in two sizes, as mono and duoducts.

Very sleek

An ISS 45 mm system opening with a diameter of just 70 mm, the aluminium profile of the ISS Modul 45 system is irresistible. On the front side, there is an opening for direct installation of the switching and connection accessories of the Modul 45 system. An aluminium cover provides complete cover. This is what permits its extremely slender design.

The Modul 45 sockets offer every comfort required for economic contemporary electrical installations. Starting with the integrated screwless terminals, allowing tool-less mounting, through the compact design with the tried-and-trusted locking fastening up to a range of variants, offering the right solution for every system environment. The multiple sockets, 2x and 3x, are particularly economic and time-saving during installation. The lengthy wiring process of individual

sockets, as required for standard installations, is no longer necessary.

- Hungary

Safety power supply
To restrict special power circuits in industrial buildings, the sockets are available in the colours orange, green and red. This means that, for example in a laboratory, all the requirements of DIN VDE 100 Part 710 can be met.

All data subject to change.

Mounting aid for Modul 45® sockets

Device connection

The electrical connection is made using integrated screwless terminals, designed for rigid cables with a cross-section of 1.5–2.5 mm². Flexible wire ends must be equipped with a plug connector.

Use of strain relief

The strain relief is attached to the front side on the fastening grooves. The strain on cables of a diameter of up to 10 mm is relieved correctly.

Use of coded sockets

Coded sockets are used to restrict special power circuits. The sockets possess additional mechanical coding, preventing the insertion of standard connectors.

Using the encoding pin

The encoding pin makes it possible to insert a connector into an encoded socket. The encoding pin is placed on the connector and stuck fast.

The new Modul 45connect socket system is the logical step to make electrical installations even faster and safer. A socket can be mounted and connected with just a few actions. Adapters with the GST18i connector system are simply locked onto the socket and connection can begin, for example using the known VL connection cables. With the right adapter, arrangement of multiple sockets is no problem either. Efficient installation times and safe and simple in-

stallation means that the new sockets are a particularly economic addition to the OBO Modul 45 product range.

Planning aids, Modul 45connect® systems, sockets and installation accessories

What is Modul 45connect®? 16

What advantages does the Modul 45connect® system have? 17

In which areas can the Modul 45connect® system be used? 18

Mounting aids for Modul 45connect® sockets 19

Mounted at high speed

Time is money! This statement reflects the fact that installation and mounting time is becoming ever more important in the decision for or against a product. The new Modul 45connect socket system from OBO Bettermann is taking this principle up and can offer new and innovative opportunities with regard to speed, safety and flexibility.

The new socket concept

The Modul 45connect sockets, with their simplified installation and optimised and reduced mounting work, are waiting just for you. With them, you need not do without the known benefits of the Modul 45 products. The plug connections of the new sockets are located on the front side and are thus particularly suited to applications in device installation trunking or service poles. Besides the standard fixed wiring up to a cable cross-section of 2.5 mm², the new arrangement of the plug connections allows simple attachment of connection adapters. For country-specific use, protective contact sockets and sockets with an earthing pin are available in double and triple versions with a 33° connection direction.

Connection adapters

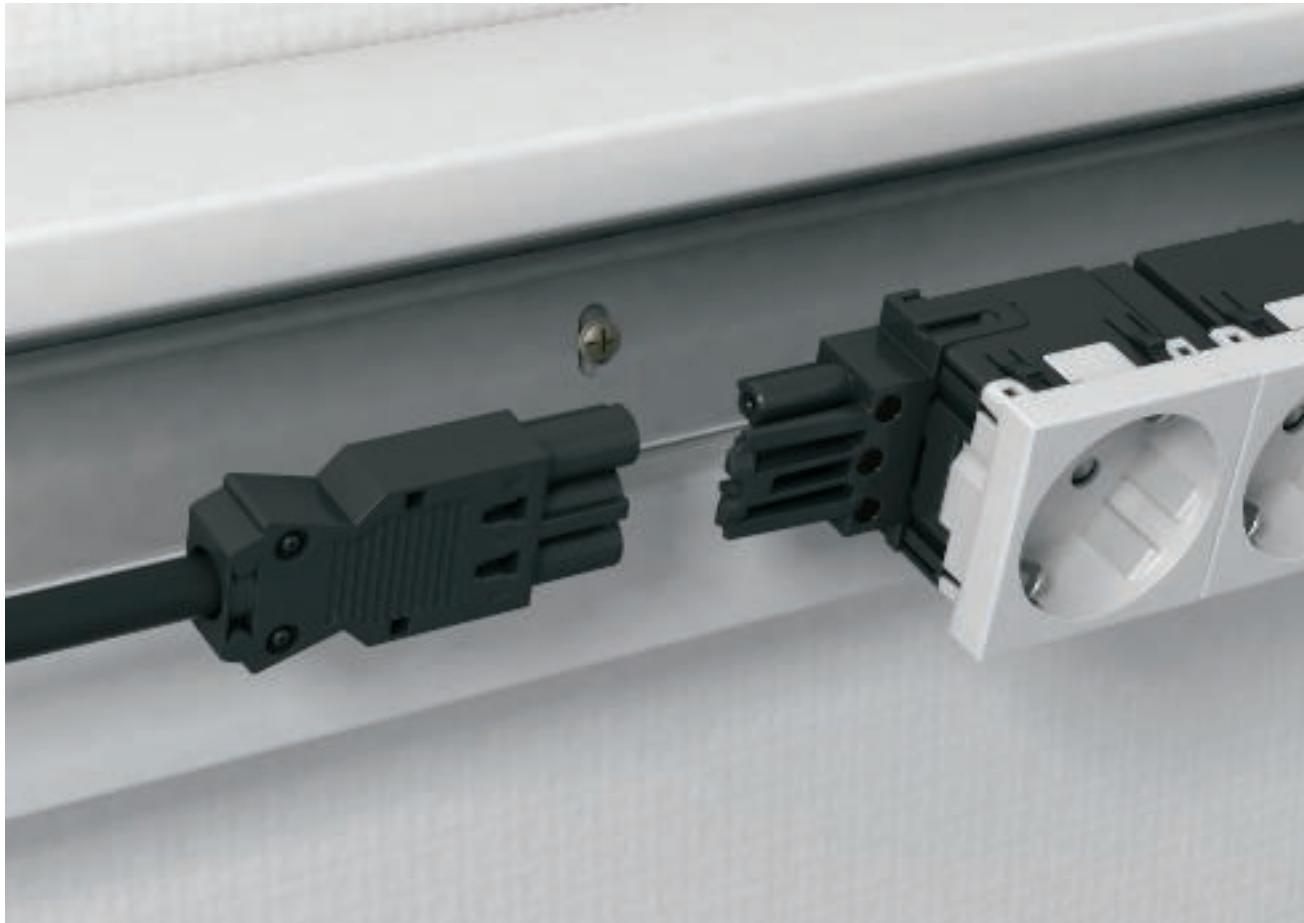

All the connection adapters for the

Modul 45connect system are equipped with the tried-and-trusted GST18i connector system and use connector and socket adapters to offer a standardised connection and forwarding option for power supplies using the known VL extension cables. To ensure visual differentiation between circuits, all the connection adapters and connection cables are available in the colours white and black.

Connection adapter

An additional new function is the connection of sockets using the plug connector for the Modul 45connect system. It is possible to create multi-socket combinations (up to 6x combinations) without the need for additional wiring.

What advantages does the Modul 45connect® system have?

Planning aids, Modul 45connect

Quick installation

The Modul 45connect sockets, together with the connection adapters, can reduce mounting times considerably, compared to standard socket installations. Time-intensive work steps when connecting sockets, such as removing the insulation from cables, connecting wires and mounting strain reliefs, are no longer necessary. The socket connection can be made in a few actions without the use of tools.

adapter can be connected. The Modul 45connect socket system ensures that unpleasantness, and subsequent damage caused by faulty wiring, are a thing of the past.

Flexible and secure for the future

Should reconstruction take place in the system at a later date, only the plug connections need to be disconnected and then the system can be adapted to the new circumstances without any problems.

Touch protection included

If sockets with connection adapters or connectors are used for electrical installations, then there is no need for an additional protective housing. Modul 45connect guarantees comprehensive touch protection according to the VDE requirements.

More safety

When the adapter is used, it is almost impossible to swap the connection sides. Each box has a socket and a plug connection side, to which only a matching

In which areas can the Modul 45connect® system be used?

Cable routing systems with 45 mm system opening

The whole of the new Modul 45connect socket system really comes into its own in cable routing systems with a 45 mm system opening. The sockets can be locked directly into the system opening and thus offer the greatest ease of installation. Socket connection and forwarding to the next socket is carried out using straight connector and socket adapters. Sockets can be arranged (up to 6x combinations) easily and quickly in a few actions using the connector for Modul 45connect.

Cable routing systems with 80 mm system opening

Accessories are installed in cable routing systems with an 80 mm system opening using the module support 71MT3/45. The module support is open in the downwards direction and offers sufficient space for straight connection adapters with the GST18i connector system. Besides power connections, forwarding to the next socket is also extremely easy. An additional benefit: The compact structure and low installation depth of the Modul 45connect sockets mean that there is a lot more installation space for additional cables.

Device installation systems for raised floors and open, screed-flush duct systems

The Modul 45connect system makes device installation in the raised floor system environment and in open, screed-flush duct systems even easier and safer. Accessories are installed using the MT3/45 and MT4/45 module supports. Sockets are connected using a U-shaped adapter, which was designed especially for underfloor use. When the U-shaped adapter is mounted, the connection point for the extension cable is located beneath the socket. Socket combinations such as 1 x 4x or 2 x 2x can be created quickly and simply using Modul 45.

Mounting aid for Modul 45connect® sockets

Conventional device connection

The electrical connection is made using integrated screwless terminals, designed for rigid cables with a cross-section of 1.5–2.5 mm². Flexible wire ends must be equipped with a plug connector.

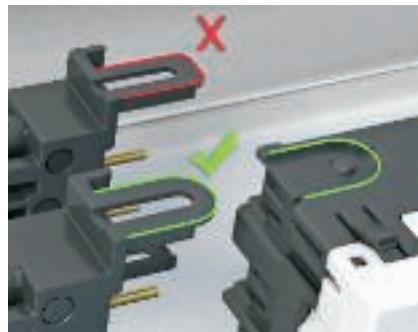

Use of strain relief

The strain relief is attached to the front side on the fastening grooves. The strain on cables of a diameter of up to 10 mm is relieved correctly.

Device connection with connection adapter

The boxes possess two connection sides, which are designated the plug and socket side. Mechanical encoding is used to limit the connection options of the adapters to one side per type.

Coding of the connector connection side

Before mounting the connector section adapter, check that the coding agrees with the socket. Each socket has a connector connection side.

Connection adapter, straight, connector

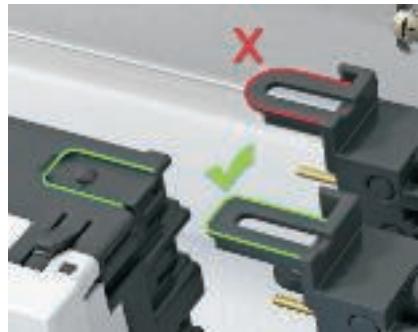

Insert the connection adapter (connector part adapter) into the plug side of the box and lock it in place.

Connection adapter, socket

Insert the connection adapter into the socket side of the first box and lock it in place. The next socket can be inserted and locked when the protective flap is removed.

Note: Socket combinations with two connection adapters at most are permitted.

Coding of the socket connection side

Before mounting the socket section adapter, check that the coding agrees with the socket. Each socket has a socket connection side.

Connection adapter, straight, socket part

Insert the connection adapter (socket part adapter) into the socket side of the box and lock it in place.

Device installation in Rapid 80 / ISS

Devices are installed in the Rapid 80 duct system and in ISS service poles using the mounting support, type 71MT2 45 or 71MT3 45.

Connection adapter, GST18

The connection adapter VB-G GST18.. permits the arrangement of sockets in the Rapid 80 duct system and in ISS service poles.

Connection adapter, U-shaped, connector part

Insert the connection adapter (U-shaped connector part adapter) into the plug side of the box and lock it in place.

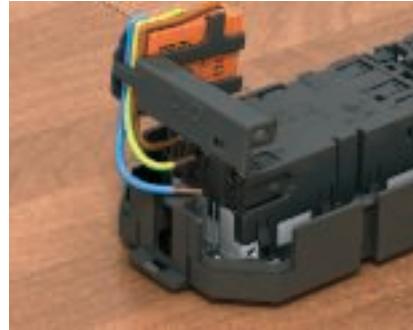

Device installation in underfloor systems

In underfloor systems, devices are installed using the module support, type MT3 45 or MT4 45.

Mounting of surge protection module

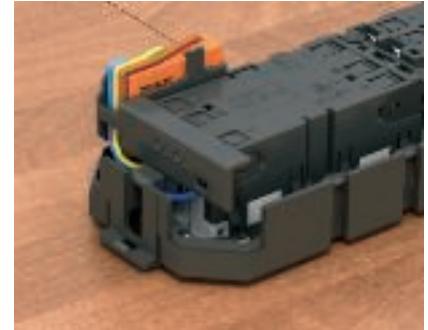

Attach the surge protection module to the support with the labelled side inwards.

Connection of ÜSS module

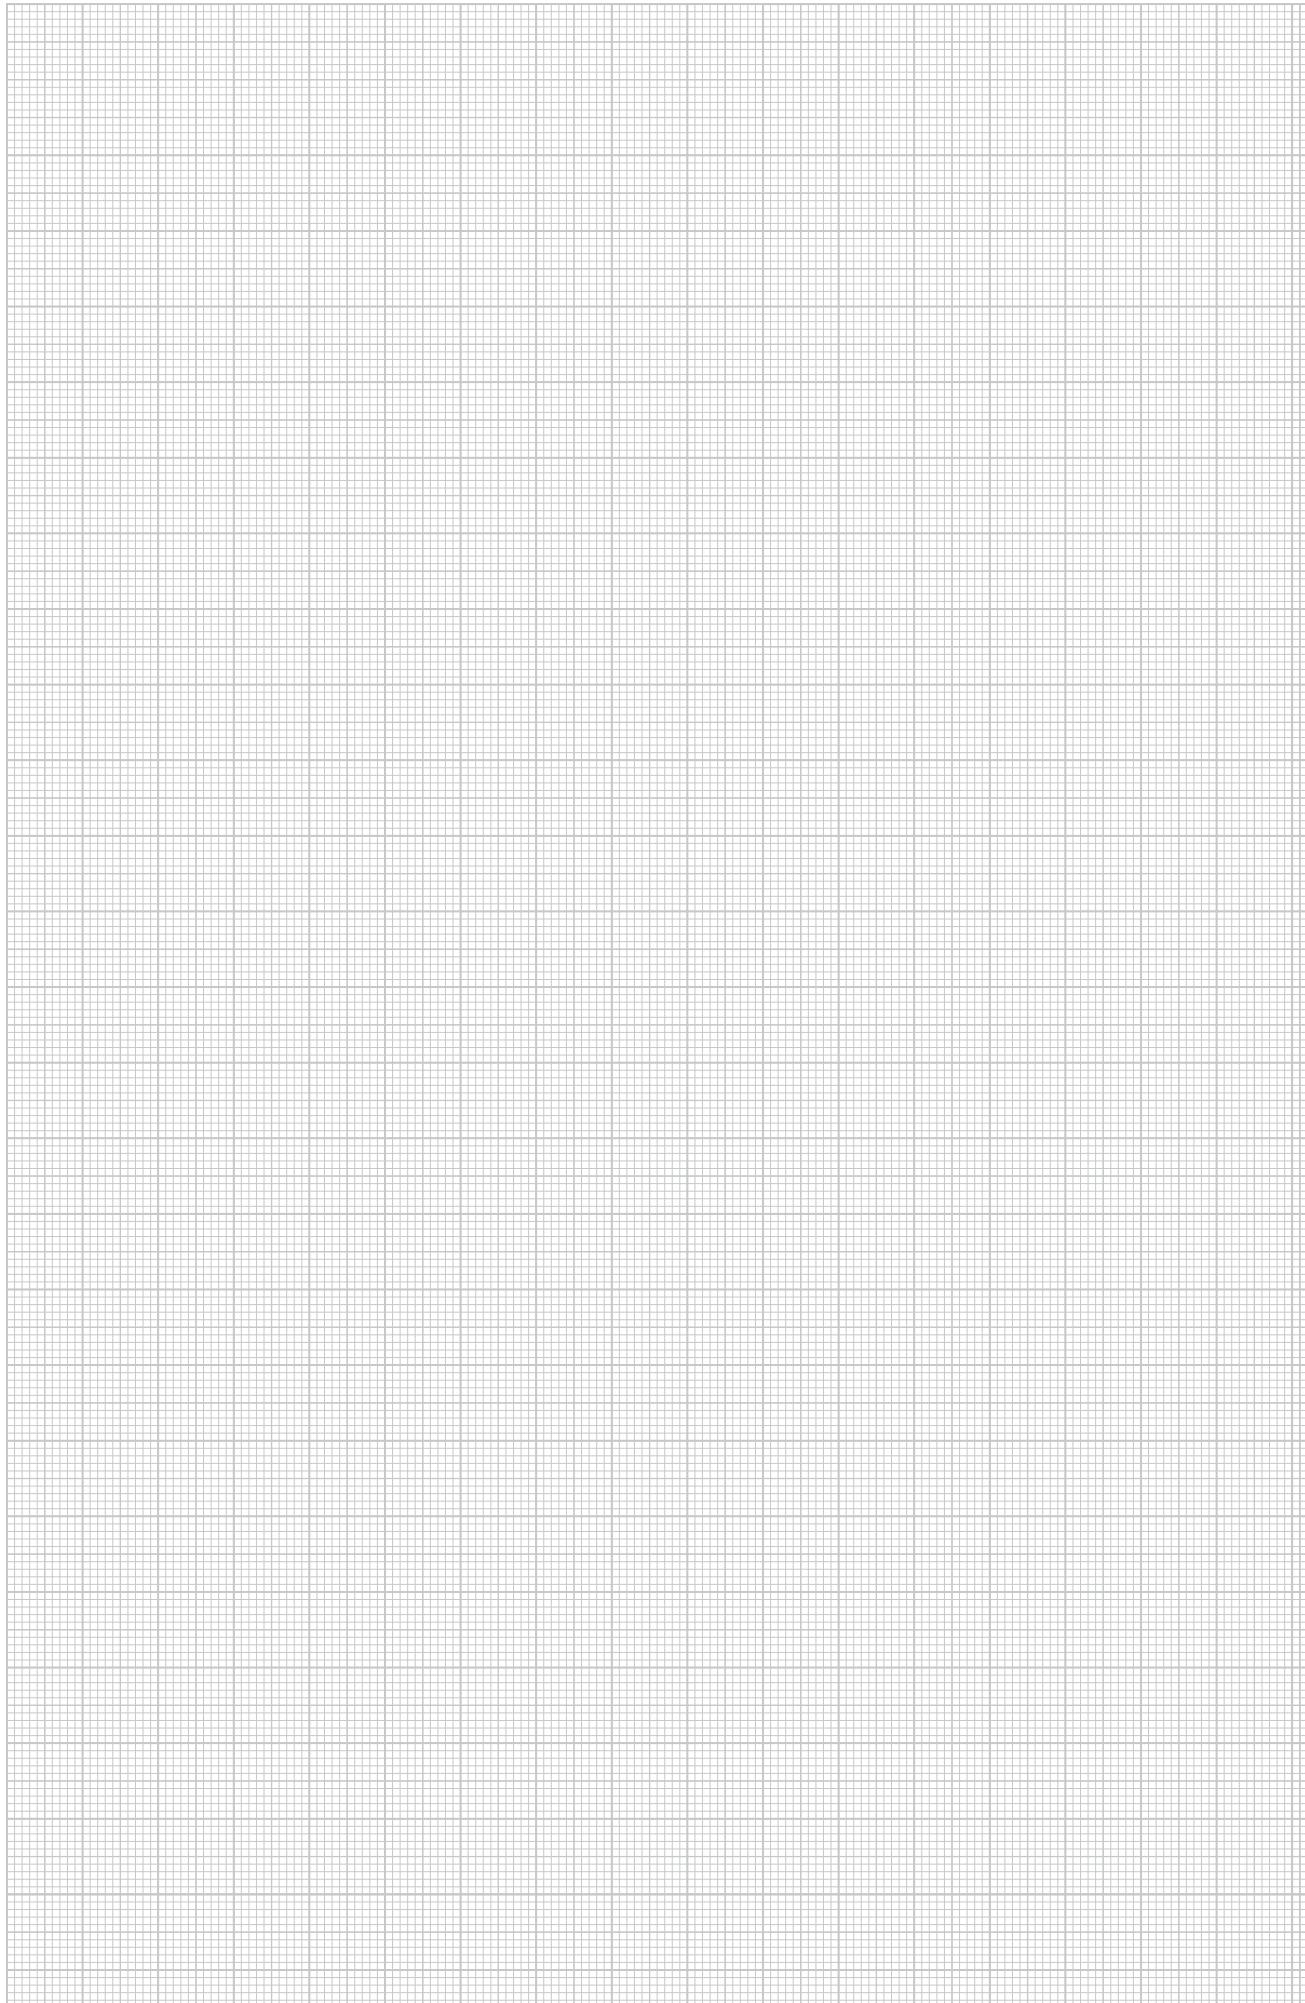

Connect the surge protection module to the socket.

Note: Ensure correct polarity.

Finished mounting of ÜSS modules

Lock the module support on the socket.

Whether you're switching light sources, controlling building systems or connecting telephones and antennas, the devices of the Modul 45 system make it possible. Besides a complete selection of switches and buttons in $\frac{1}{2}$ and 1 module width, the Modul 45 system can also offer electronic accessories, such as surge protection and a wide range of other products, to make everyday living and work, at home or in the office, simpler, more convenient and safer.

Planning aids, Modul 45® systems, switching and connection accessories

Electronic switching devices for Modul 45® 24

Mounting aids for Modul 45® switching and connection accessories 26

Electronic switching devices for Modul 45®

Electronics included

Whether at home or in the office: The electronic switching accessories for Modul 45 offer every comfort to make life simpler. OBO can offer intelligent solutions to control and regulate building systems, without the need to do without the known benefits of the Modul 45 system. Whether a timer, roller blind timer switch, motion detector or room thermostat – all the accessories are available in the compact Modul 45 design.

The electronic switching devices are offered as a system with a modular structure. A relay base and a top with the required function are always required for device installation. The system is based on two relay bases and four tops for the different functions.

Timer

The timer is used in conjunction with the RE-UW and RE-U2K relay bases. The timer can be used to switch consumers on and off automatically using switching times or manually. In addition, it is possible to carry out a switching operation using the extensions of the relay base.

- Optional manual or automatic operation
- Minimum switching time: 1 minute
- Daily/weekly programming
- 24 switching times programmable
- If there is a power failure, then the programming remains intact for 30 minutes.

Room thermostat

The room thermostat is used in combination with the RE-UW relay base. It is used to control the circulation pump of a heating system. Control takes place automatically using switching times or manual switch-on and off. In addition, it is possible to carry out a switching operation using the extension of the relay base.

- Optional manual or automatic operation
- Daily/weekly programming
- 24 switching times programmable
- Day, night and frost protection level settable
- Time and room temperature can be set at any time
- 6 control speeds (RP value) settable
- If there is a power failure, then the programming remains intact for 30 minutes.

Roller blind weekly timer

The roller blind weekly timer is used in conjunction with the RE-U2K relay base. With the roller blind weekly timer, it is possible to control a roller blind, Venetian blind or awning either automatically or manually. In addition, it is possible to carry out a switching operation using two extensions of the relay base.

- Optional manual or automatic operation
- Settable run time
- Daily/weekly programming
- 24 switching times programmable
- If there is a power failure, then the programming remains intact for 30 minutes.

Motion detector

The motion detector is used in combination with the RE-UW relay base. It detects the movement of people and the daylight value. The lighting is switched on when a movement is detected and the daylight value stays under the pre-set light value. The lighting remains switched on for the time during which motion is detected. If no further motion is detected, then switch-off takes place after the switch-off time has elapsed. The switch-off time can be set on the motion detector. The lighting can be switched on and off manually on the device. In addition, it is possible to carry out a switching operation using the extension of the relay base.

- Can be operated manually
- Detection range 8 m
- Angular coverage horizontal 180°

Device connection, switches/buttons

The electrical connection is made using integrated screwless terminals, designed for rigid cables with a cross-section of 1.5–2.5 mm². Flexible wire ends must be equipped with a plug connector.

Mounting LED element

Insert the LED element on the rear side of the switch into the intended opening and lock it in.

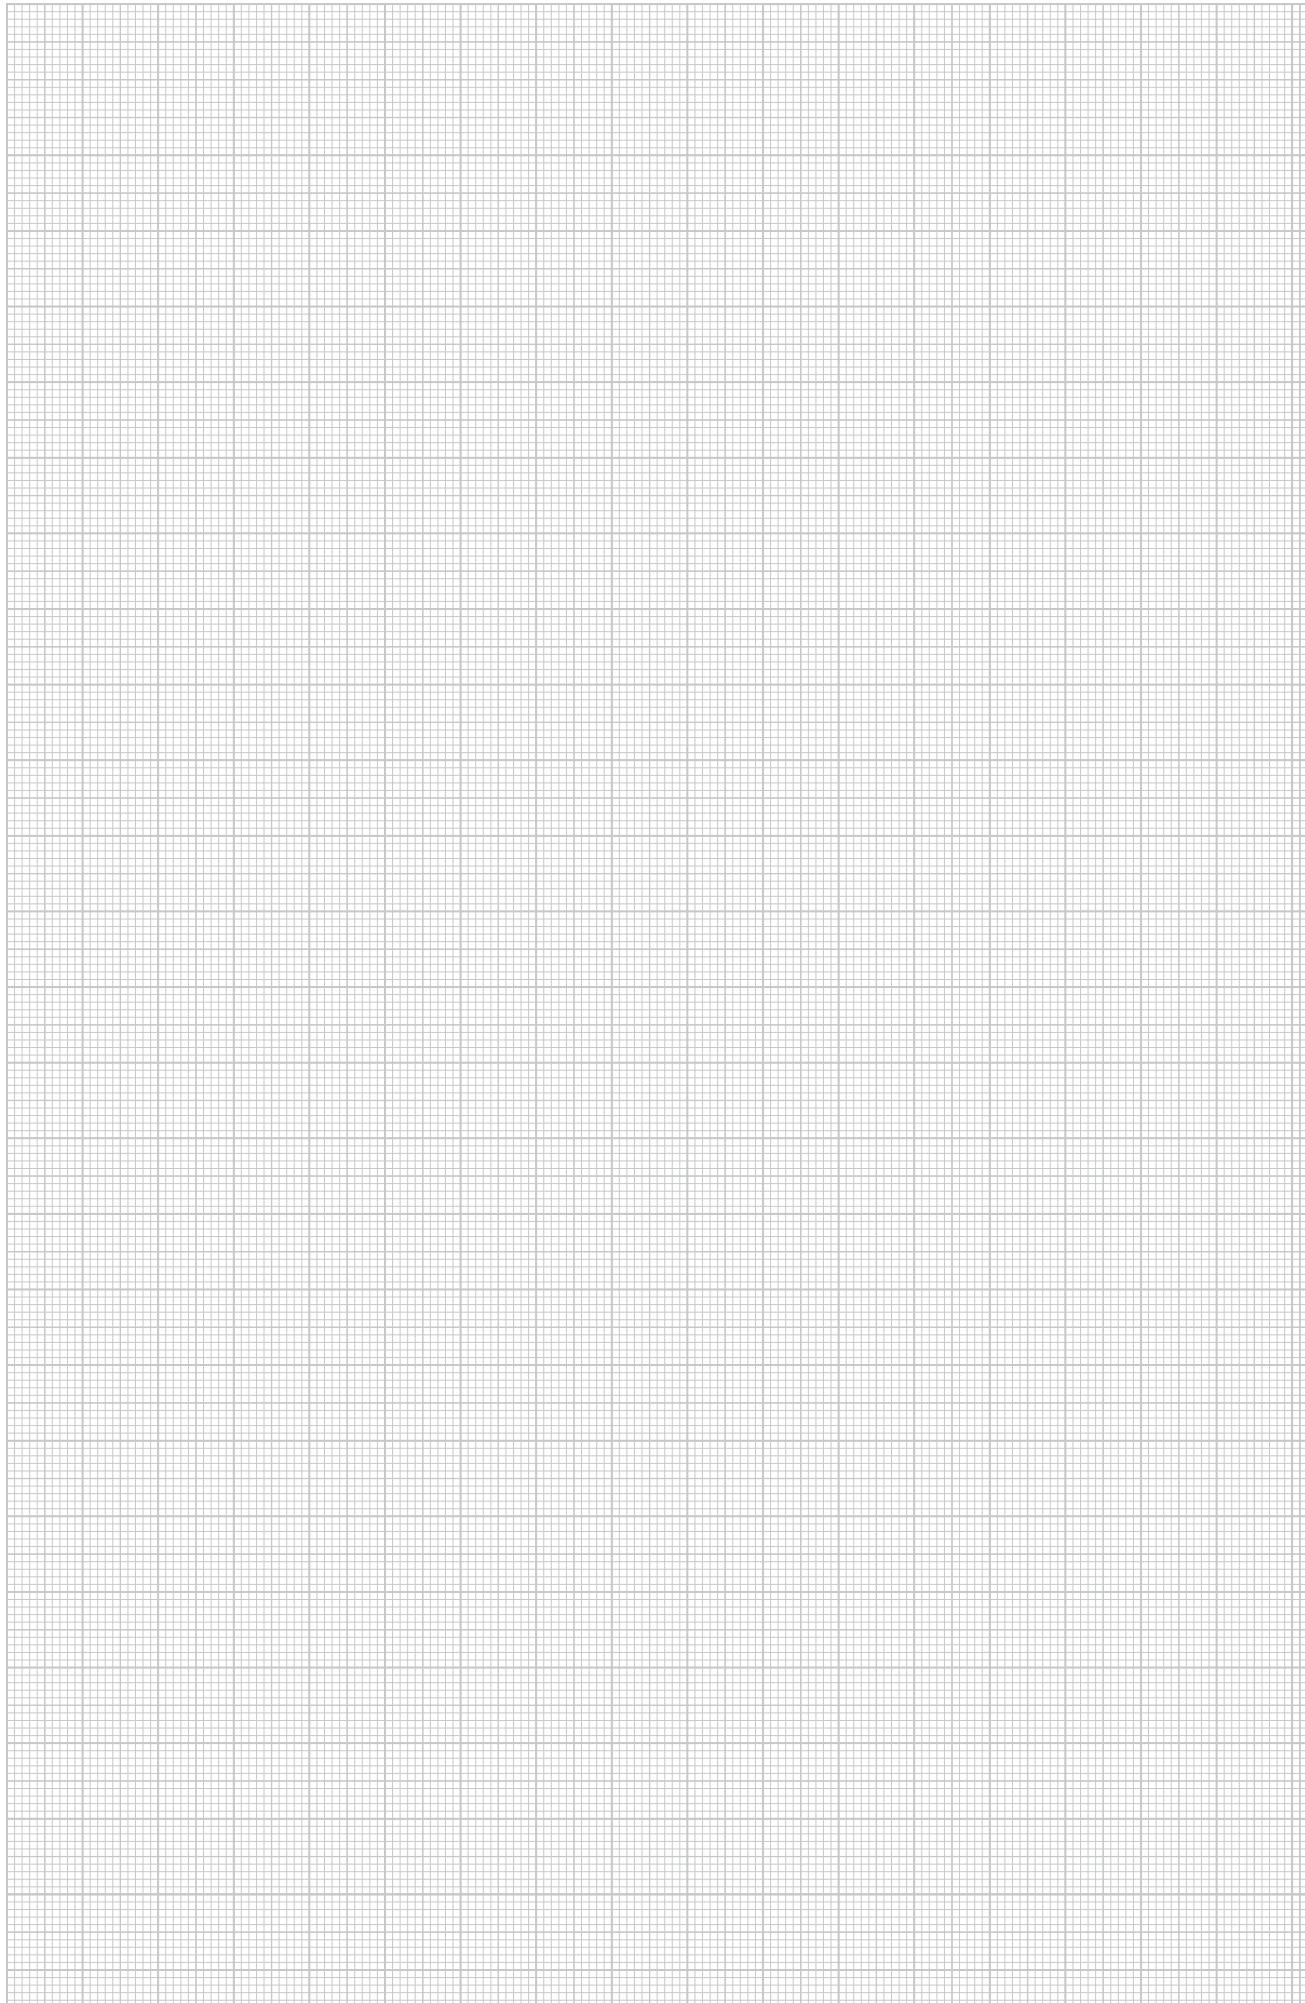

Switch installation, rotated through 90°

For vertical switch installation in service poles with 45 mm system opening, the adapter of type AD-90G M45 is also required. The adapter is inserted from below in the pole profile into the locking fastening of the switch and then engaged.

Device connection, electronic accessories

The electrical connection is made using integrated screw terminals, designed for rigid and flexible cables with a cross-section of 2.5 mm². The intended top, e.g. a room thermostat as shown, is attached to the relay insert.

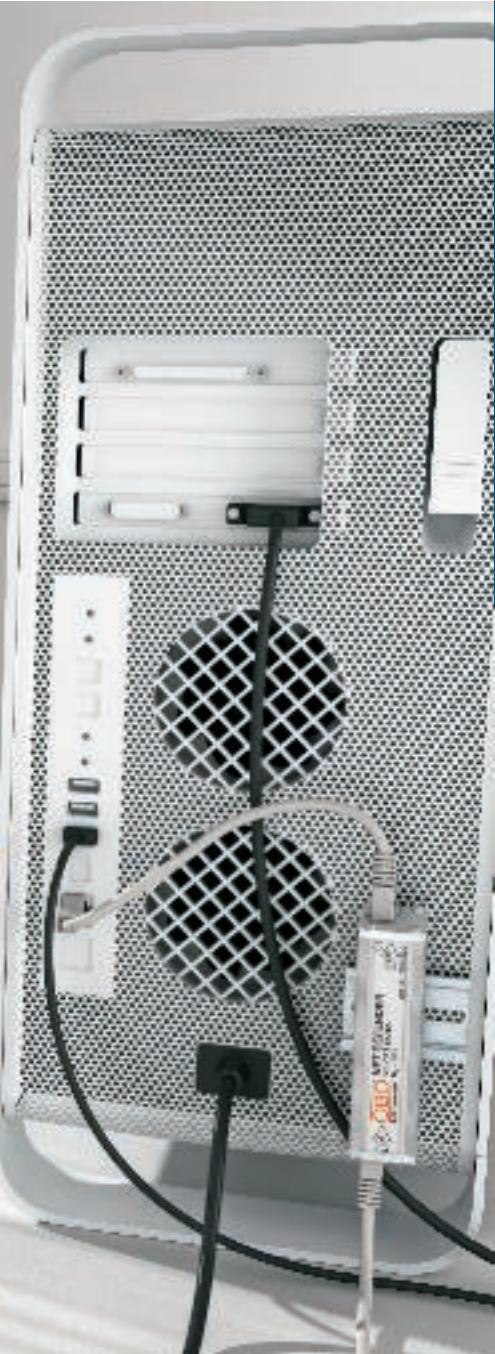

Today, we cannot picture offices without data networks. A high level of flexibility is required for device installation. Thus the combination of connection modules and the Modul 45 data technology support is the right choice. All the connection modules for copper and fibre optic cabling can be installed in the Modul 45 support. A comprehensive range of Modul 45 data technology supports is available for the installation of connection modules of various data technolo-

gy manufacturers.

Perfect interplay

Change becomes everyday

Networks are coming together in modern offices. OBO solutions enable you to simply integrate highly sensitive PC electronics and communication devices into standard switch installations. The result is an aesthetic system, with the data technology being harmoniously matched to the Modul 45 product range.

OBO data technology connection modules offer the maximum of installation comfort and are the right choice if you want reliability and safety. The Cat. 5e connection modules are suited to both speech and data applications and are suitable for transmission frequencies of up to 100 MHz. The Cat. 6 connection modules are suited to speech and rapid data applications and are suitable for transmission frequencies of up to 250

MHz. The Cat. 6A connection modules are designed for 10 gigabit Ethernet (10GBASE-T) and for future high speed applications of up to 500 MHz.

Flexible

No matter which connection modules you use: For all the modules, there is a suitable Modul 45® data technology support. Cat. 5e and Cat. 6 connection modules are accepted by the data technology support, type RM. The Cat. 6A connection modules are equipped with the standard Keystone fastening system and fit in Type C data technology supports.

Ready for the future

When carrying out system restructuring work, only the connection modules need be replaced with the appropriate Modul 45® data technology support.

Guarantees

When you carry out an installation

with the OBO (R&M) components, we give a five-year guarantee on the products, a twenty-year guarantee for the system and a lifetime guarantee for the applications.

Universal data technology support for Modul 45®

Planning aids, Modul 45 data technology

Universal support suitable for all applications

OBO offers two universally usable data technology supports for device installation with data modules: with straight connection direction and with slanting outlet. Both supports possess system fastening on all four sides and can thus be used in the wall trunking or in an installation column. The data outlets are always arranged horizontally. Connection cables can be attached simply and safely and do not impede each other.

Safety

Integrated dust protection flaps cover the modules when unused and protect them against dust and other outside influences. When in use, the flaps are pushed up, and they close again automatically when the connection cable is removed.

Labelling panel

Both supports are supplied with labelling panels with a transparent cover. The labelling panel is de-

signed for strip labels of up to 12 mm width.

Flexible use

The data technology support consists of two components which are combined under a single order number. The base support assumes the function of installation in the system environment whilst the system-specific module support accepts the data modules. Each data technology support can accept up to two data modules. Both versions of the Universal data technology support are available for standard data modules.

Mounting aid, data technology connection modules Cat. 5e and Cat. 6

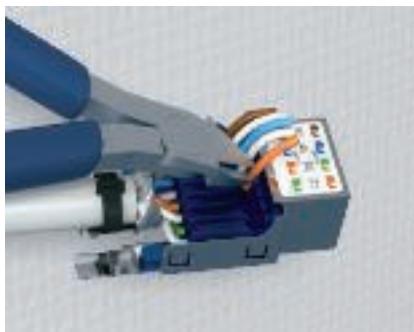

Device connection – cable preparation
Remove the outer jacket of the data technology cable and, if necessary, the insulation to a length of 50 mm.

Device connection – strain relief
Attach the cable to the cable seat and relieve the strain using the enclosed cable ties. With shielded cables, ensure that the contacting strap is connected to the shield.

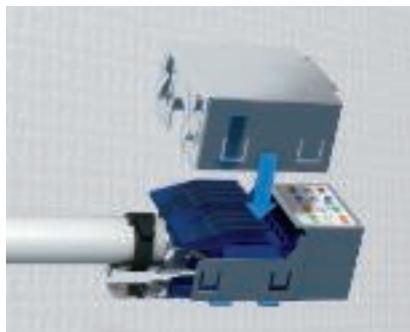

Device connection – cable sorting
Attach the individual wires according to the connection table and fix the using the contacting terminal.

Device connection – shorted cable excess
Cut off the excess cable length with cutters.

Device connection – cable attachment
Place the contacting bracket on the connection module and lock it in place. The cable is connected.

Device connection - Mounting shield hood
The shield hood is placed on the connection module from the top and engaged. The shield hood is only used for shielded connection modules.

Device installation in data technology support
Insert the complete data technology connection module into the data technology support from behind. For this, insert the support plate of the connection module into the seat and lock it in place.

Device installation in system environment
Simply lock the data technology support into the system environment. The locking fastening is suitable for horizontal and vertical device installation.

Mounting of Snap-In fastening frame
Attach the Snap-In fastening frame to the connection module from the front and lock it in place. The Snap-In fastening frame allows the installation of the data technology modules in underfloor systems using a mounting support or support plate with a mounting opening 19.3 x 14.8 mm (Type C).

Mounting aid, data technology connection modules Cat. 6A

Device connection - cable preparation
Remove the outer jacket of the data technology cable and, if necessary, the insulation to a length of 50 mm.

Device connection - strain relief
Lay the cable in the switch body and connect the cable seat. Then relieve the strain using the enclosed cable ties. With shielded cables, ensure that the contacting strap is connected to the shield.

Device connection – cable sorting
Sort the individual wires according to the connection table and fix using the fixing terminal.

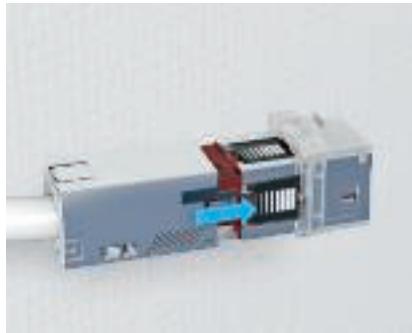

Device connection - assemble module
Assemble the switching and socket bodies and lock them in place. Mark the two components to aid mounting.

Device connection - cable attachment
Place the contacting flaps on the socket body and engage them. On contacting, the cable overlengths are cut off by additional cutting terminals and should be removed.

Device connection - mounting fastening frame
Attach the Keystone fastening frame to the connection module from the front and lock it in place.

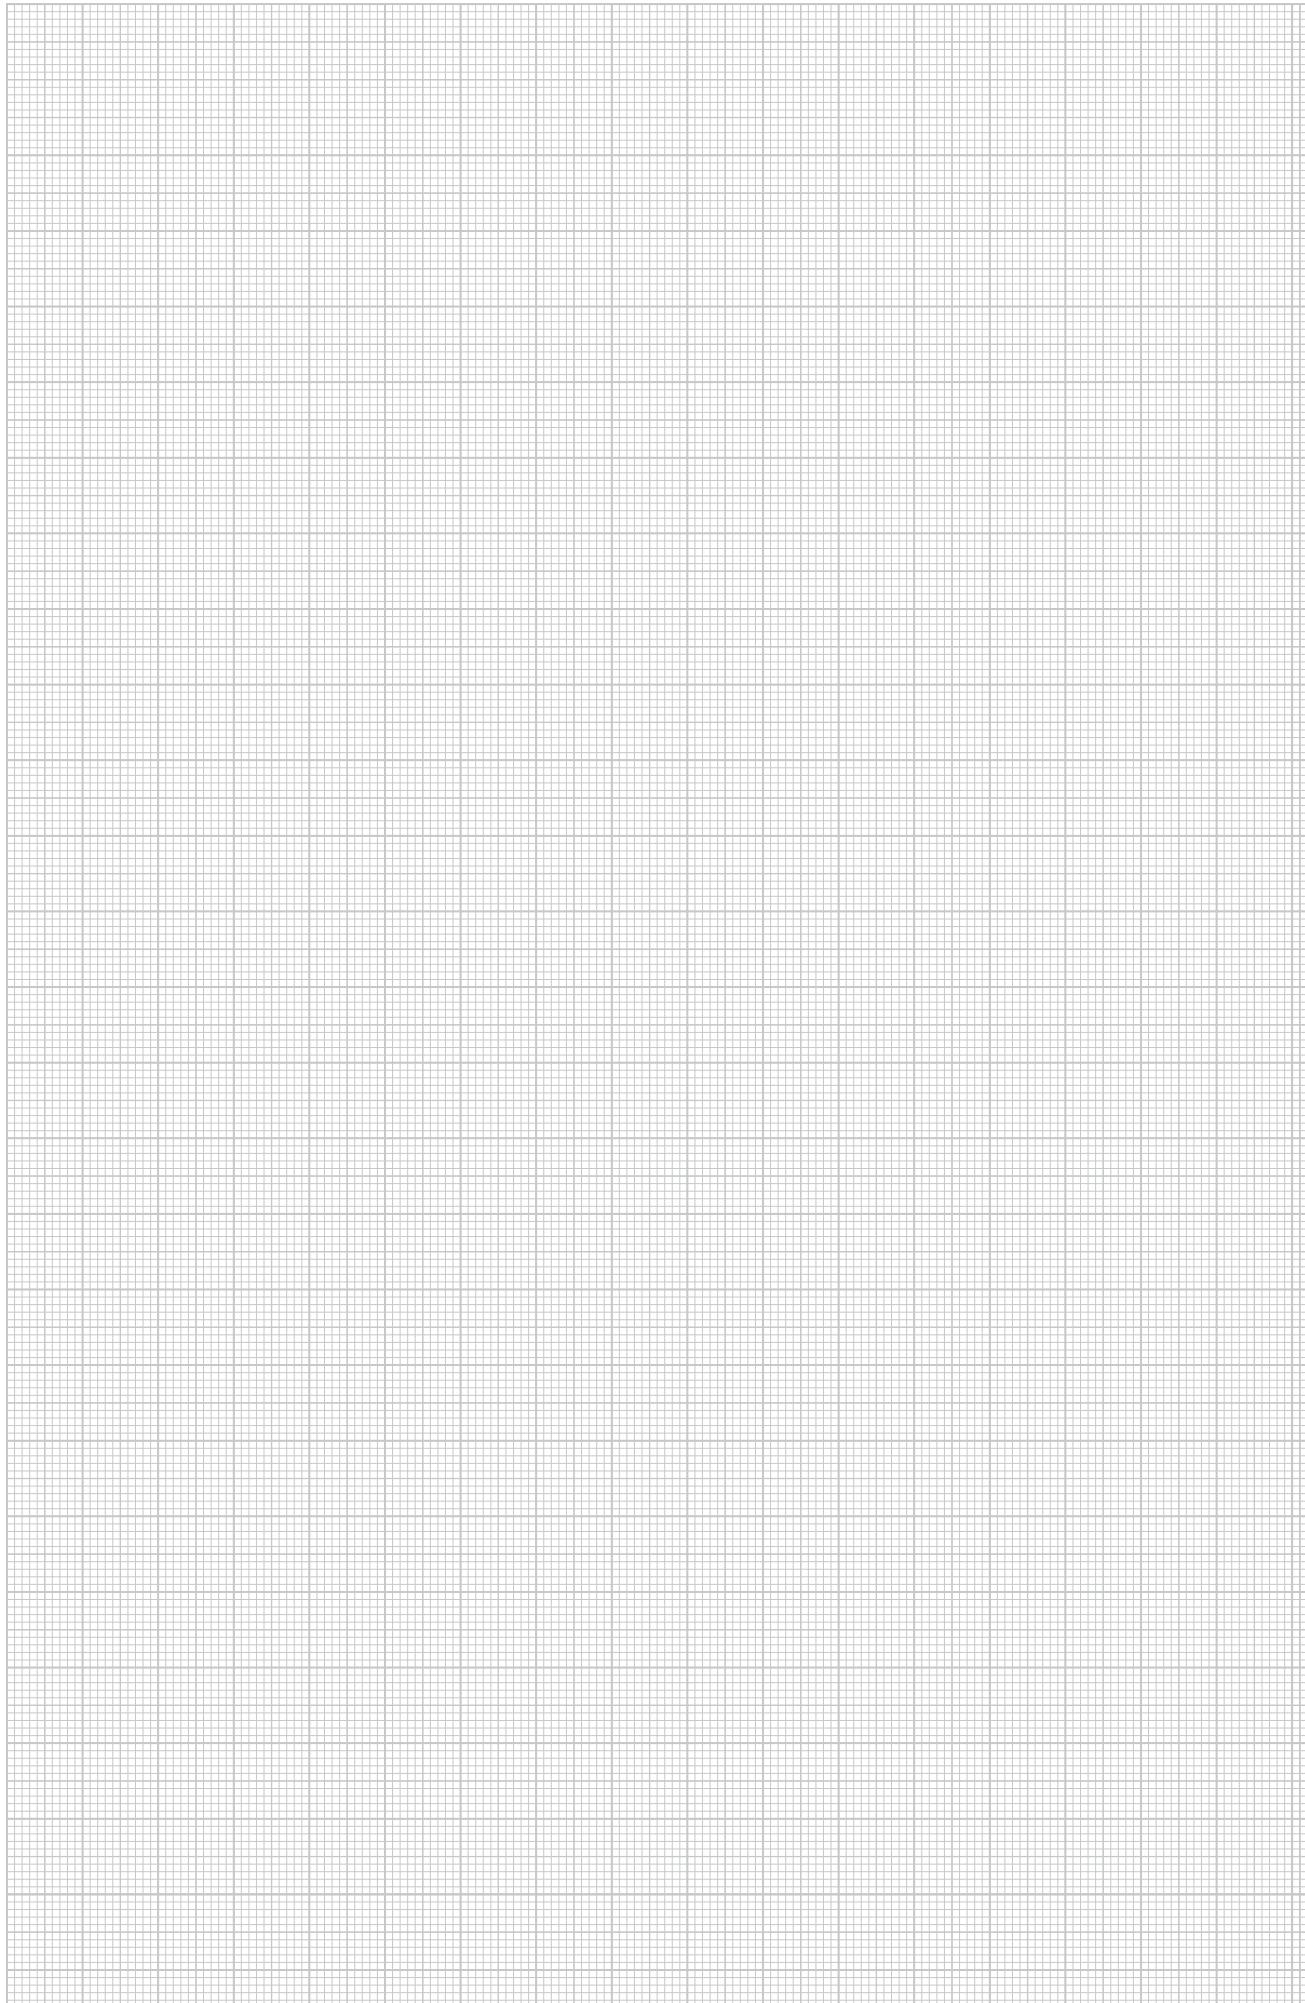

Device connection - lock on shield housing
The shield housing is placed on the connection module from the rear and engaged. The shield housing is only used for shielded connection modules.

Device installation in data technology support
Insert the complete data technology connection module into the Type C data technology support from behind and engage it.

Device installation in system environment
Simply lock the data technology support into the system environment. The locking fastening is suitable for horizontal and vertical device installation.

Tidy integration of multimedia connections into the Modul 45® system environment

Planning aids, Modul 45 multimedia system

Planning aids, Modul 45 multimedia system

Connection solutions:

- Soldered connection (for Cinch, mini jack, XLR)
- Screw connection (for VGA, DSub9, HDMI, DVI, USB)
- 1:1 coupling (for Cinch, BNC)
- Connection cable (for VGA, DSub9, HDMI, DVI, USB)

With the multimedia connection system, computer, video and audio connections can be installed in the different OBO system environments. Whether under floors or in a device installation duct, the Modul 45® support plate permits simple and quick mounting.

Tidily mounted connections without cables laying around

High-quality Modul 45® connection panels in the normal standard colours ensure perfect appearance.

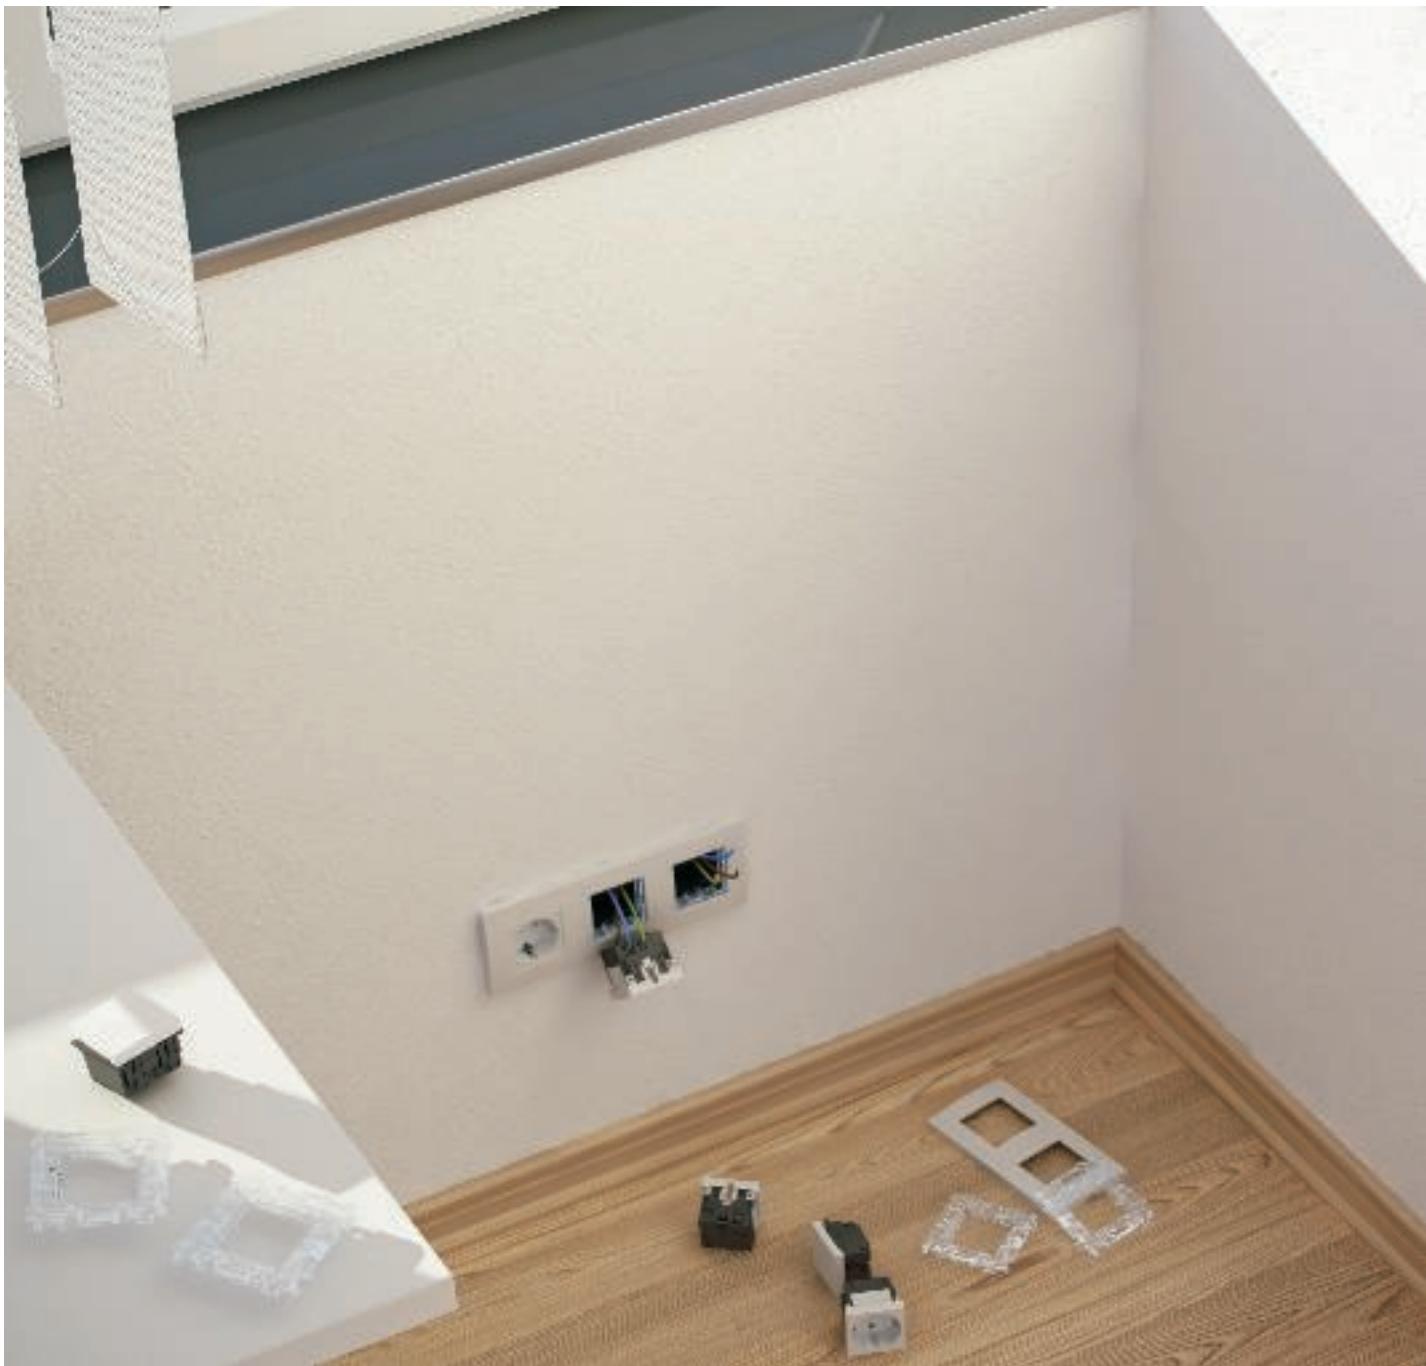

For all standard multimedia applications

The system permits the integration

of all standard systems: VGA, DSub9, HDMI, DVI, USB, mini jack, BNC, Cinch for Audio and Video, XLR. A version without plug connector is available for construction-side equipment (VGA, DSub9, DVI, XLR).

Practical details

Whether you are routing preterminated cables or standard installation cables, we have the right connection solution for every standard connection type. Choose between a straight and a slanting cable exit. The locking fastening on four sides makes both horizontal and vertical device installation possible.

The Modul 45 range can also display its benefits in terms of functions and ease of mounting in concealed and cavity wall applications. Using optimised additional components, the system can be adapted to any environment, thus achieving space-saving device installations of between $\frac{1}{2}$ and 3 module widths.

Depending on the version, the Modal net system can be installed on the surface of the wall or in a - concealed fashion in cavity walls.

The modular structure of the system allows flexible device installation starting with the basic configuration for 4 Modul 45 accessories, which can be combined with the expansion module for two Modul 45 accessories according to requirements.

Concealed and cavity wall installation with Modul 45®

Planning aids, Modul 45 concealed and surface-mounted adapter systems

Lots of options for concealed and cavity wall solutions

OBO offers two systems for device installation in the concealed and cavity wall areas, which allow the installation of Modul 45 accessories. The systems are matched and designed to the various installation requirements and practices. Be it individual device installations, a switch/socket combination or the installation of a multiple socket, the right installation material is available for any requirements.

Standard device installation for Modul 45

The system components are designed for the installation of individual installation accessories. With device combinations, the individual accessories are mounted in a combination spacing of 71 mm. Besides the standard accessory sockets, two support plates with screw fastening or fastening claws and the appropriate cover frames are available in the widths ½ module and 1/1 module. Additional cover frames in 2 x 1/1 and 3 x 1/1 module width for the combination of multiple standard accessory sockets round off the offer.

Device installation system for Modul 45

The components of the device installation system are designed for the installation of multiple sockets and for device combination in one accessory socket. They consist of system accessory sockets and support plates in the module widths 1½x, 2x and 3x. Lockable cover frames for the width ½ module, 1/1 module, 1½ modules, 2 modules and 3 modules allow any combination of different Modul 45 components.

Modal net – surface-mounted and cavity wall installation with Modul 45®

Modular structure and versatile use

The Modal net surface-mounted and cavity wall installation system has a compact design and offers the maximum of flexibility for electrical installations. The housing grows, and the modular system structure means that any number of device installations can be installed in a single housing. The basic configuration, consisting of two single housings (right and left side), offers space for four Modul 45 accessories. This basic configuration can be expanded as required using the expansion modules. The required expansion modules are simply placed between the individual houses of the basic configuration and locked into place.

Surface installation

The housing is simply mounted on the wall at the required location. The cables are usually infed via line routing ducts, which run directly into the housing.

Cavity wall installation

For cavity wall installation, the appropriate installation material, consisting of the cavity wall support and panel frame, is also required. The cavity wall support is placed in the wall opening and is used to accept the Modal net housing. For a tidy wall, the appropriate screen frame is locked on after installation. Cavity wall installations starting with a double version (basic configuration) up to a 6x version are possible.

Planning aids, Modul 45 concealed and surface-mounted adapter systems

Mounting aid for Modul 45® systems, concealed installation

Planning aids, Modul 45 concealed and surface-mounted adapter systems

Accessory mounting box installation

Concealed devices and connection sockets can easily be plastered into masonry of all kinds.

Combination of concealed sockets

The accessory sockets and the device connection boxes can be interconnected using their tunnel supports. The combination spacing is 71 mm.

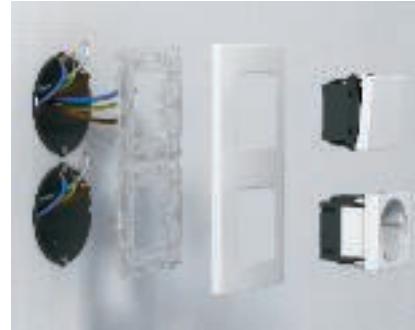

Device connection sockets

Device connection sockets have a total compartment volume for the installation of an installation device and also space for at least three connection terminals.

Signal cover

Before plastering, place the signal cover on the device or connection sockets. They prevent soiling of the socket interior and simplify finding the sockets again after plastering.

Standard device installation for Modul 45 in concealed sockets

Ready-placed device and connection sockets for standard installations with 71 mm combination spacing can now be equipped with Modul 45 devices.

System device installation for Modul 45 in concealed sockets

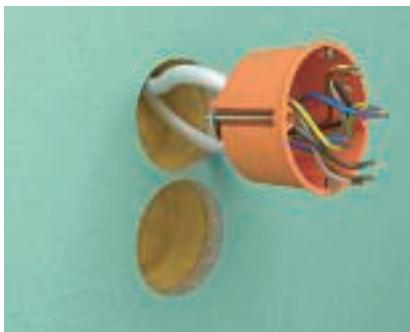

Ready-placed accessory sockets for Modul 45 system device installation can now be equipped with Modul 45 devices.

Mounting aid for Modul 45® systems, cavity wall installation

Preparation of mounting hole

Draw on the centre of the hole and cut out a drill hole of 68 mm using a circular band saw. With combination mounting, maintain the standard hole spacing of 71 mm and create a second hole vertically or horizontally to the first one.

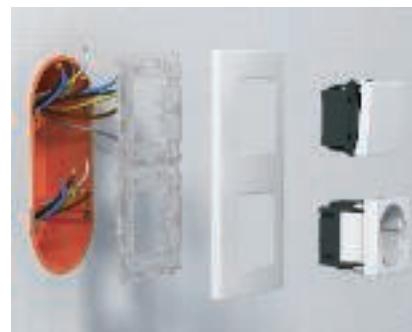

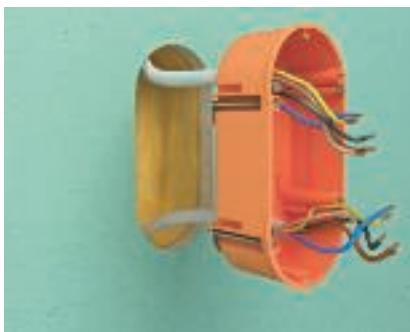

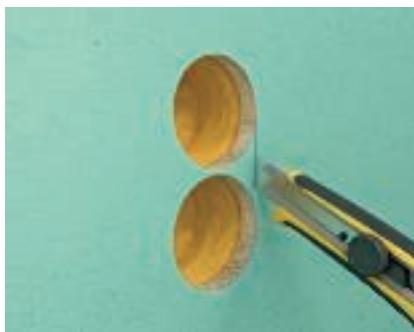

Installation of accessory socket

Cables and/or pipes are inserted in advance and are automatically clamped tight. Then place the accessory sockets in the drill hole.

Fastening the cavity wall sockets

The accessory sockets are fixed in the drill hole using a screwdriver and fastening screw. The small holding plates on the rear side of the boxes provide the necessary hold.

Preparation of mounting hole of multiple accessory sockets

When using a double accessory socket or system accessory socket, two holes are drilled in advance with the prescribed hole spacing and a diameter of 68 mm. The rest is cut out with a knife.

Mounting of multiple accessory sockets

Cables and/or pipes are inserted in advance and are automatically clamped tight. Then place the accessory sockets in the drill hole.

System device installation for Modul 45 in cavity wall sockets

Ready-placed accessory sockets for Modul 45 system device installation can now be equipped with Modul 45 devices.

Standard device installation for Modul 45 in cavity wall sockets

Ready-placed device and connection sockets for standard installations with 71 mm combination spacing can now be equipped with Modul 45 devices.

Mounting aid for Modul 45® systems, Modal net, surface-mounted installation

Planning aids, Modul 45 concealed and surface-mounted adapter systems

Create a cable gland

Cut out the necessary cable glands and duct connection on the side of the housing base.

Housing configuration

Create the necessary housing size from the basic configuration and additional expansion modules. The housing bases are interconnected and locked in.

Housing mounting

Using the fastening holes in the rear wall, fasten the prepared housing base to the wall.

Cable strain relief device

Pull the installation cables through the cable gland and relieve the strain on the housing base.

Device installation

Modul 45 accessories can be locked into the cover frame and the connection work carried out.

Mounting of cover frame

Place the pre-installed cover frame on the housing base and lock it in place.

Surface installation

Surface-mounted installation is complete. Changes and extensions to the installation are very easy on account of the modular system structure.

Mounting aid for Modul 45® systems, Modal net, cavity wall installation

Housing configuration

Create the necessary housing size from the basic configuration and additional expansion modules. The housing bases are interconnected and locked in.

Create a cable gland

Cut out the necessary cable glands in the rear panel area.

Mounting of cavity wall support

Insert the cavity wall support in the prepared mounting opening.

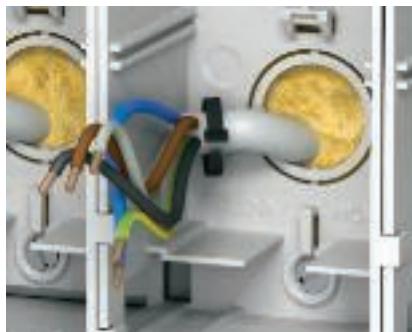

Mounting of cavity wall support

Place the supplied clamping pieces in the pre-specified seat at the side and screw them tight.

Housing mounting

Insert the prepared housing base into the cavity wall support and connect the rear panel with the supplied fastening screws.

Cable strain relief device

Pull the installation cables through the cable gland and relieve the strain on the housing base.

Device installation

Modul 45 accessories can be locked into the cover frame and the connection work carried out.

Mounting of cover frame

Place the pre-installed cover frame on the housing base and lock it in place.

Cavity wall installation

Place the screen frame on the cavity wall support and lock it in place. Cavity wall installation is complete.

Planning aids, Modul 45® systems, device installation solutions for Rapid 80 and ISS

Device installation in Rapid 80 and ISS with Modul 45® 50

Mounting aid, device installation in Rapid 80 and ISS 52

The perfect combination: Modul 45® device installation in cable routing systems with 80 mm installation opening

Planning aids, Rapid 80 device installation solutions

Device installation systems allow mounting of Modul 45® devices in Rapid 80 device installation ducts and ISS service pole systems with an 80 mm mounting opening.

and, depending on requirements, can be fastened on all four sides of the service unit or mounting support. Advantage: With installations at a later date, the labelling remains at the installation location. There is no need for lengthy allocation during assembly.

System structure

The flexible system offers standardised installation of Modul 45® devices. All the system components are equipped with self-locking fastening elements, allowing the installation engineer to install devices quickly and safely. To meet all the different installation requirements, we can offer multiple sizes of service units and mounting supports with the matching cover frames for horizontal and vertical installation.

New options for device labelling

If device labelling is required, then the cover frames with a labelling panel are used. The labelling panel is locked directly onto the service unit or the mounting support

Advantages at a glance

- New design
- Single, double and triple
- Continuous locking fastening for rapid installation
- Labelling panel on the service unit
- Vertical or horizontal installation possible
- Additional colour: RAL 7021

Mounting aids for Rapid 80 with Modul 45

Device installation - device mounting
The device is inserted and engaged in the service unit before accessories are connected.

Device installation - cable connection
The cable can be connected. There are recesses on both sides for standard connection cables, through which the cable can be fixed.

Through wiring in 71GD8
For simple, safe pass-through wiring, up to two 3-pin screwless terminals of Type "61 325" can be optionally inserted in a service unit.

Device installation - engagement of fastening straps
For secure, permanent fixing, the locking fastenings of the service unit are aligned using a screwdriver.

Device installation - mounting labelling panel
The labelling panel can be mounted on any side of the service unit.

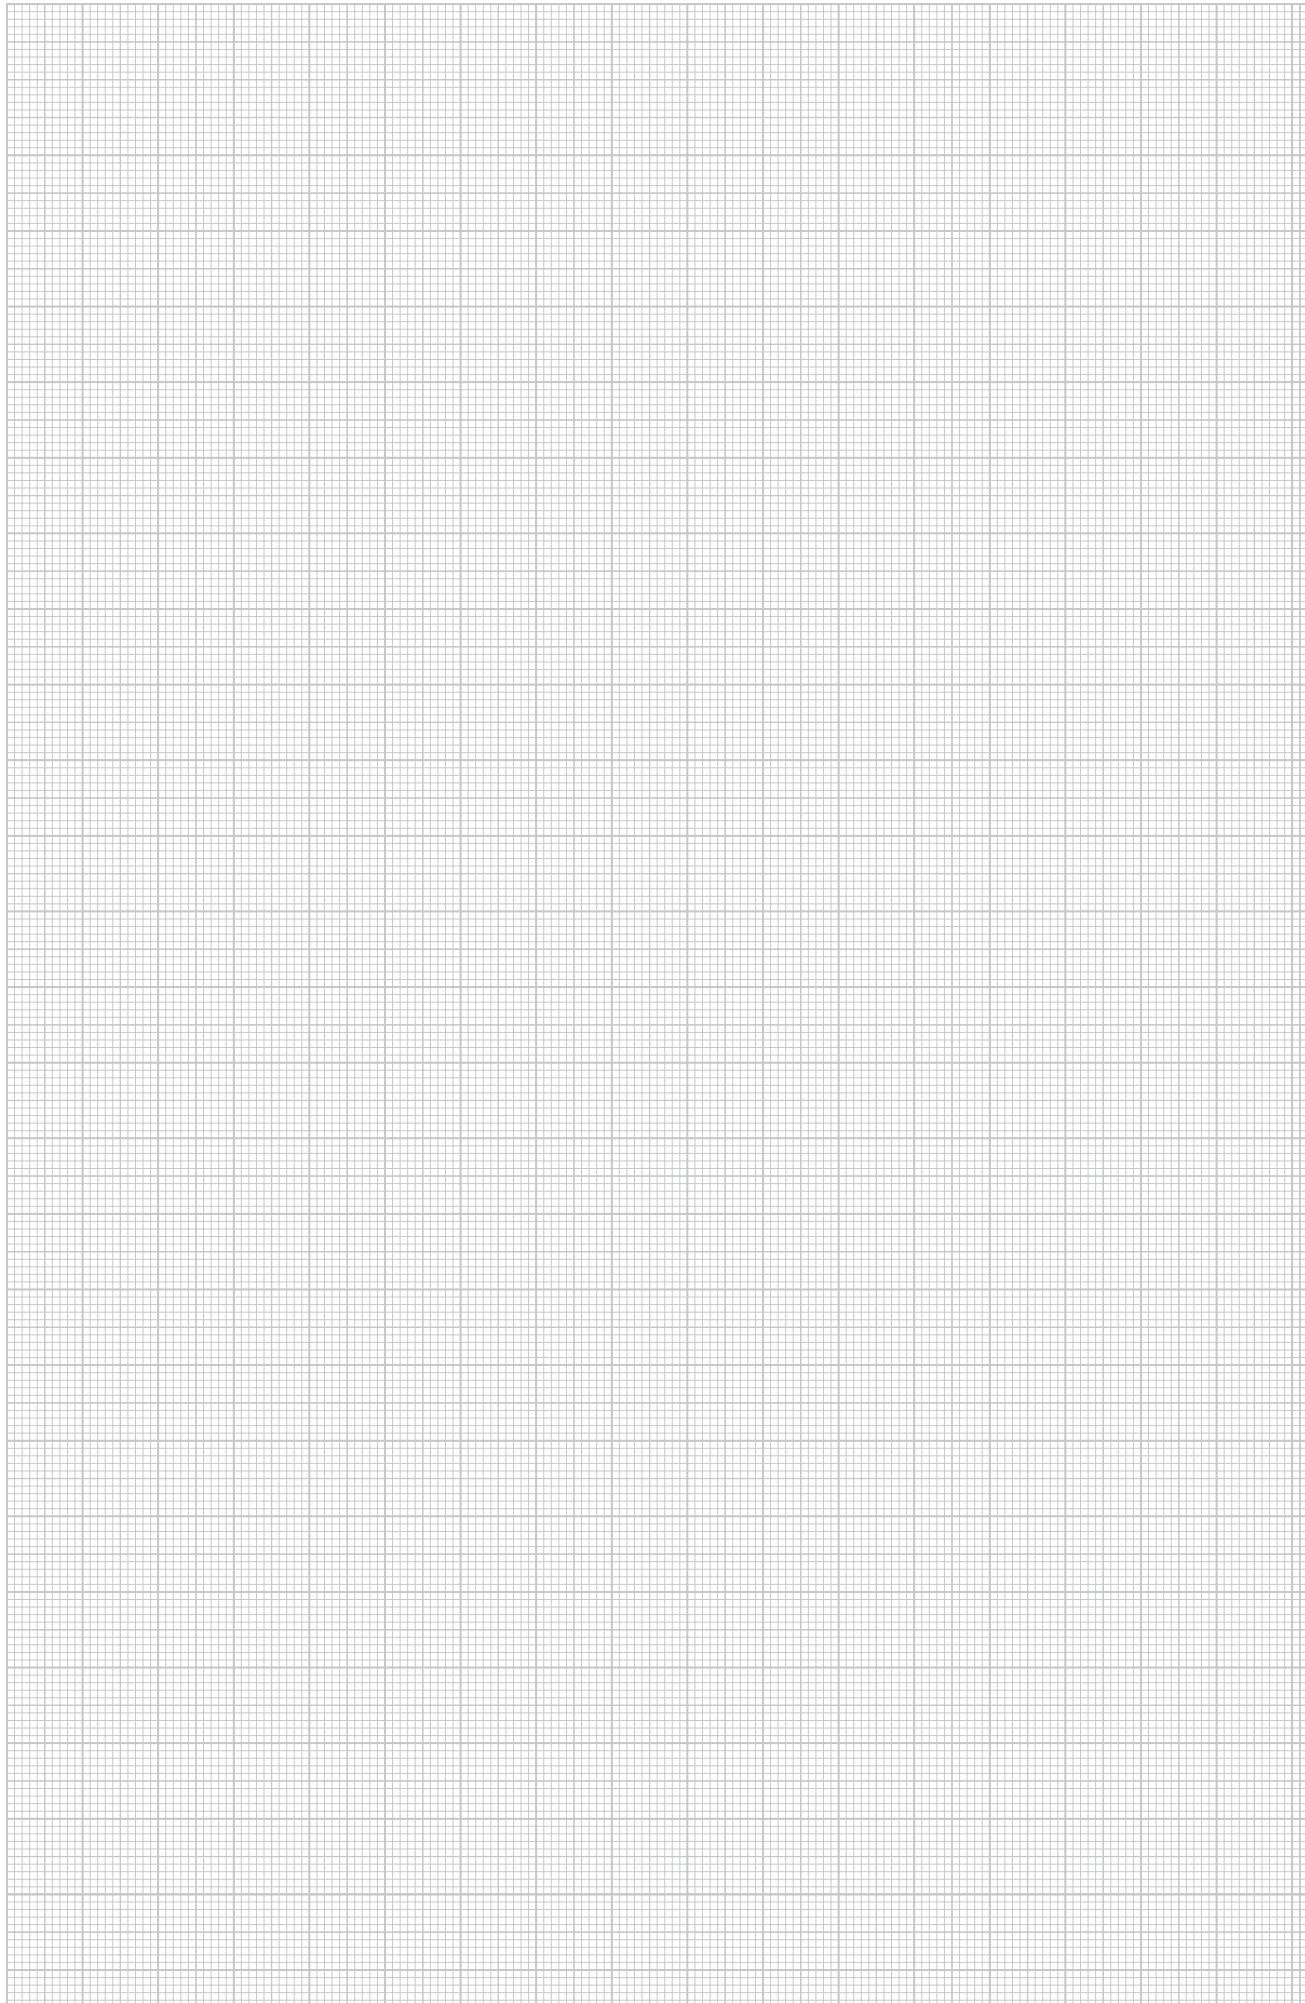

Device installation - mounting the cover frame
Attach the cover frame to the service unit and engage it.

Device installation in Rapid 80
Device installation is complete when the duct covers have been positioned.

Device installation in ISS
The same mounting steps should be applied for service poles as for duct installation.

Deskbox DB: good and flexible

Planning aids, Deskbox and workplace system

Flexible table mounting with fastening clamp

High-quality aluminium, slim design and variable installation options

Versatile

The Deskbox DB can score both in the standard and special designs through its appearance and versatility. The box, made of high-quality aluminium, can be positioned anywhere on the workplace, thus offering a range of design options.

Standard versions

OBO can offer various pre-terminated and ready-for-connection versions of the Deskbox for standard workplace requirements – including network connection cables.

Surface variants

The Deskbox DB is supplied as standard with the surface anodised silver. Other anodised surfaces are possible for larger orders.

Fixed table mounting with stainless steel fastening stand

Individual versions

Alternatively, the train profile can be equipped according to your requirements, and a comprehensive range of installation units and accessories are available for this. These range from country-specific sockets, through data technology and protection modules, right up to multimedia connections. The individual Deskbox is then supplied as a tested and ready-to-connect unit with a network connection cable.

Please note that the equipment components cannot be ordered individually.

You can find the configuration form on the following pages or at www.obo.de.

Mounting aids for DB Deskbox

Planning aids, Deskbox and workplace system

Preparation of fastening clamps

The appropriate fastening clamps are placed on the tabletop and screwed down.

Dismantling of the design panel

The first step for the cable connection of the data technology components is the removal of the design cover.

Dismantling of the housing cover

Open the housing cover located under the design cover.

Data technology connection

Simply connect the data technology couplings using standard universal cables.

Mounting of the housing cover

When the connection work has been completed, the housing cover is reattached and screwed down tight.

Cable connection, energy technology

The energy technology of the Deskbox is always equipped ready for connection and tested according to VDE directives. There is no need to remove the device cover on the energy side.

Preparation of Deskbox fastening

The fastening elements of the fastening clamps are inserted into the housing profile from the side. A Flexkanal holder can also be mounted as an option.

Fixing of the Deskbox fastening

The aligned fastening elements are fixed using a screw.

Mounting of the Deskbox on the fastening clamp

Simply insert the premounted Deskbox into the fastening clamps from above.

Mounting of the design panel

When the mounting work has been completed, reattach and engage the design panel.

Flexkanal fastening on Deskbox

The supply lines can be bundled using a Flexkanal and can be fastened on the pre-mounted Flexkanal holder.

Deskbox mounting with fastening clamp

The Deskbox with fastening clamps is ready-mounted and ready for use.

Preparation for fastening stand mounting

Drill holes (\varnothing 16 mm) in the tabletop are required to mount the fastening stands.

Mounting of the fastening stands

The fastening stands are inserted into the mounting drill hole and screwed tight.

Note: Can be used in tabletops of up to 50 mm thickness.

Mounting of the Deskbox on the fastening stand

Push the Deskbox onto the fastening stands from the side. The design panel must be removed in advance.

Deskbox mounting with fastening stand

The Deskbox with fastening stands is ready mounted and ready for use.

Preparation for fastening set, table mounting

Drill holes (\varnothing 10 mm) in the tabletop are required to mount the fastening set.

Pre-mounting of the fastening set, table mounting

The fastening elements are inserted into the mounting drill hole.

Note: The supplied fastening screws (M4 x 40 mm) can be used for tabletops of up to a maximum thickness of 32 mm.

Mounting of the Deskbox on the fastening set, table mounting

Push the Deskbox onto the fastening element from the side. The design panel must be removed in advance.

Finished mounting of the fastening set, table mounting

After the Deskbox has been positioned, the fastening element is screwed down tight.

Deskbox mounting with fastening set, table mounting

The Deskbox is ready-mounted and ready for use directly on the tabletop.

Mounting of the fastening set, under-table mounting

The fastening elements are fastened to the tabletop using the wood screws contained in the scope of delivery.

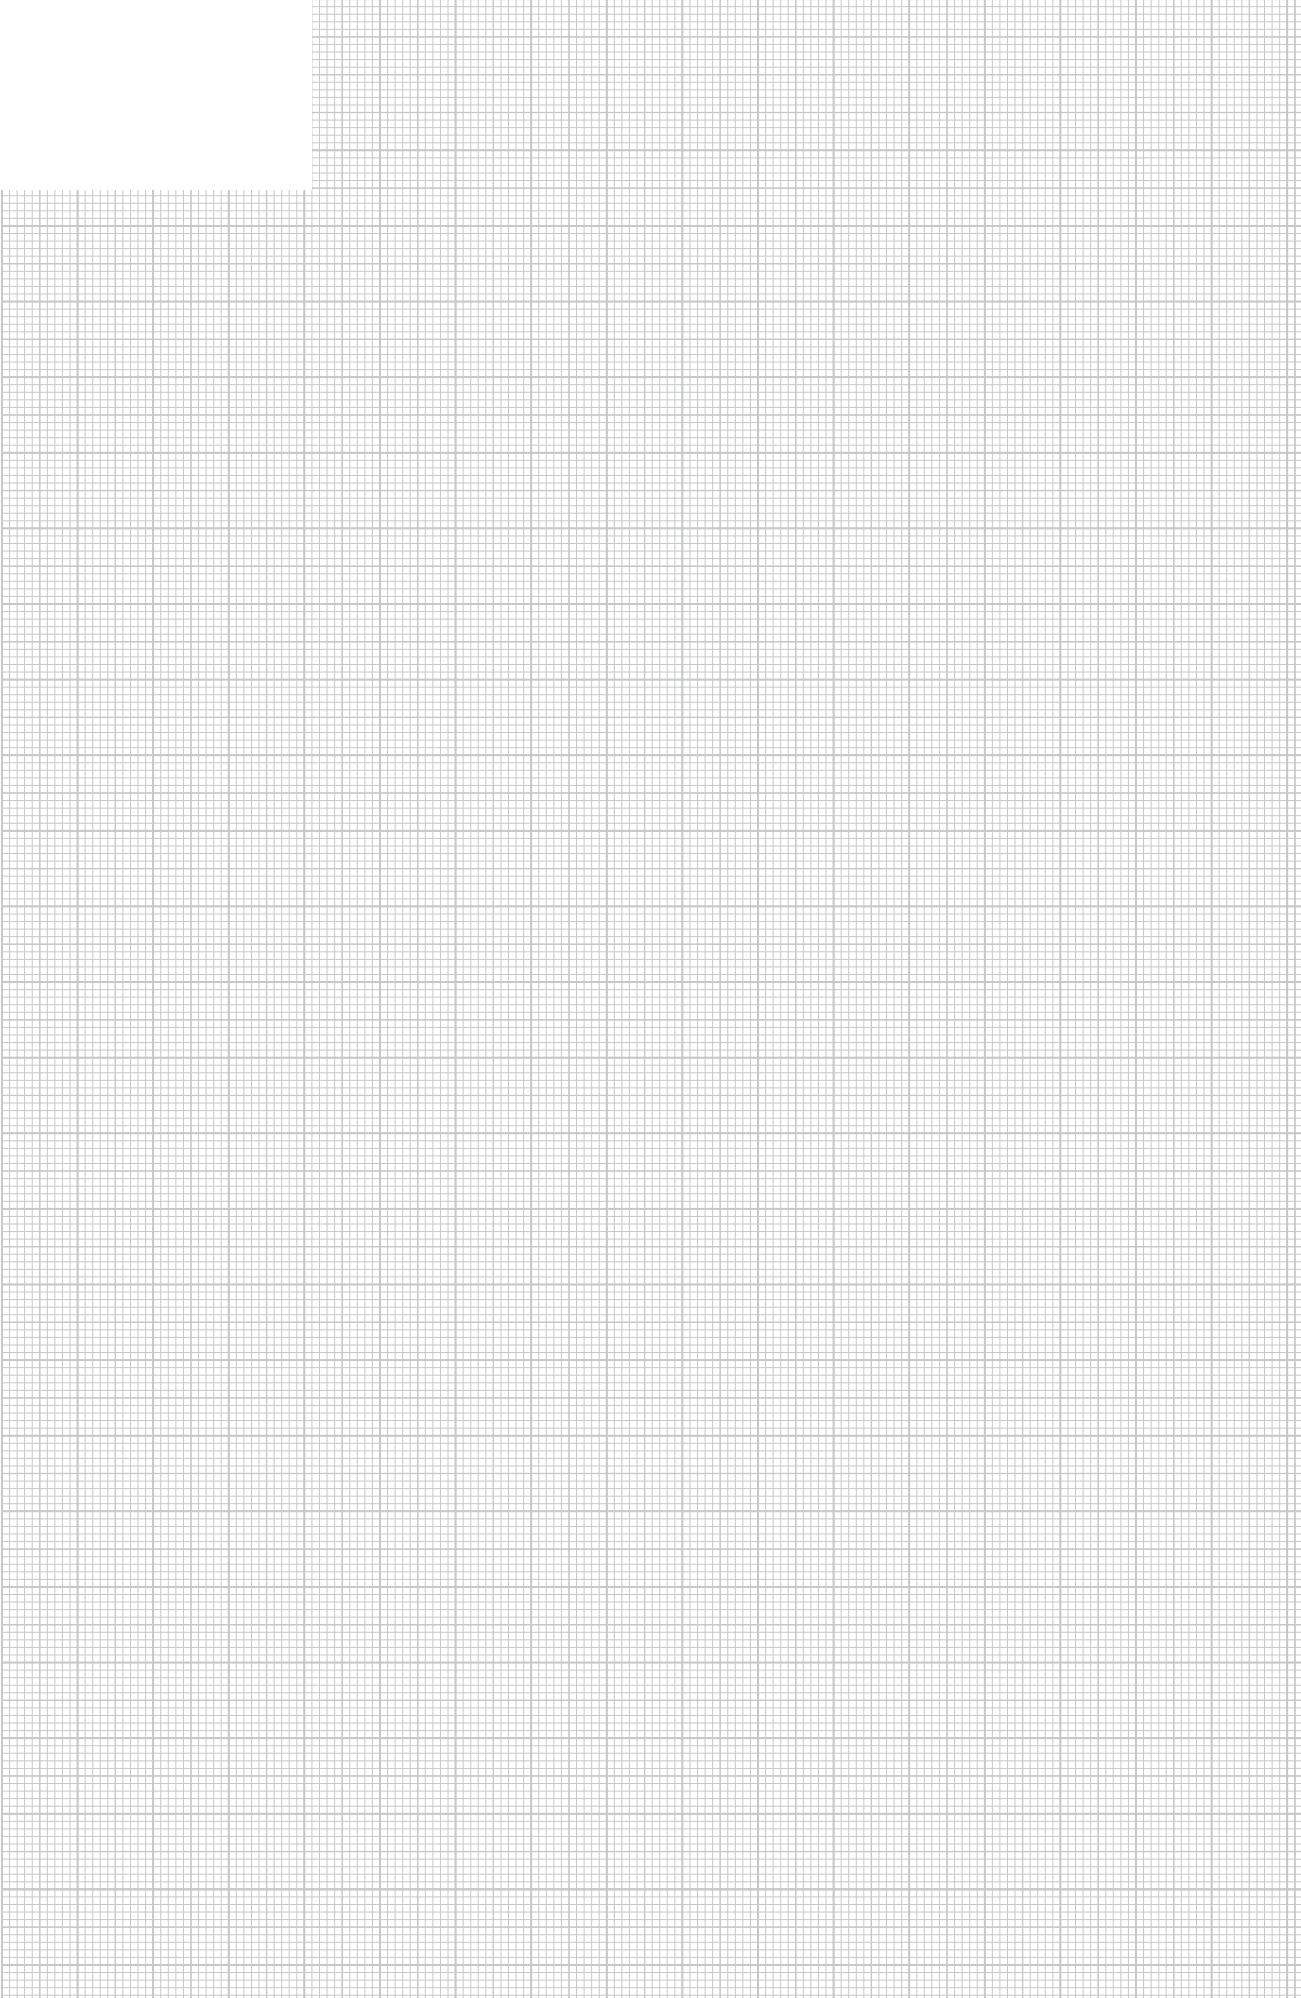

Mounting of the Deskbox on the fastening set, under-table mounting

Push the Deskbox onto the fastening element from the side. The design panel must be removed in advance.

Deskbox mounting of the fastening set, under-table mounting

The Deskbox is ready-mounted and ready for use under the tabletop.

Gone in a flash. The lowerable Deskbox DBV

DBV, anodised silver surface

Planning aids, Deskbox and workplace system

Let power and data simply vanish into the recess. If necessary, the Deskbox DBV can simply be pulled out - the appropriate plug connections are then easy to reach.

Standard versions

OBO can offer various pre-terminated and ready-for-connection versions of the DBV Deskbox for standard workplace requirements – including network connection cables.

Surfaces

The Deskbox DBV is supplied as standard with the surface anodised silver. The following variants are available on request:

- Coloured as old brass
- Chrome-plated
- Black anodised

Sunken DBV

Cover variants

The standard cover is painted and painted silver or is made of solid stainless steel. On request, you can also obtain it in

- Plastic, painted black
- Steel, chrome-plated
- Coloured as old brass

Individual versions

Alternatively, the DBV Deskbox can be equipped according to your requirements, and a comprehensive range of installation units and accessories are available for this. These range from country-specific sockets, through data technology and protection modules, right up to multimedia connections. The individual Deskbox is then supplied as a tested and ready-to-connect unit with a network connection cable. Please note that the equipment components cannot be ordered individually. You can find the configuration form on the following pages or at www.obo.de.

Mounting aids for DBV Deskbox

Preparation for Deskbox mounting

A mounting opening of Ø 102 mm is required for installation.. A suitable circular band saw is available as an accessory for the installation of the Deskbox.

Note: Can be used in tabletops of up to 50 mm thickness.

Inserting the Deskbox

Insert the Deskbox without fastening ring into the mounting opening.

Fastening the Deskbox

Place the fastening ring on the Deskbox from below and screw it down.

Fixing the Deskbox

The Deskbox is fixed using wood screws to ensure secure mounting.

Completion of Deskbox mounting

The Deskbox is mounted and, when closed, is almost flush with the tabletop.

Application information for Deskbox DBV

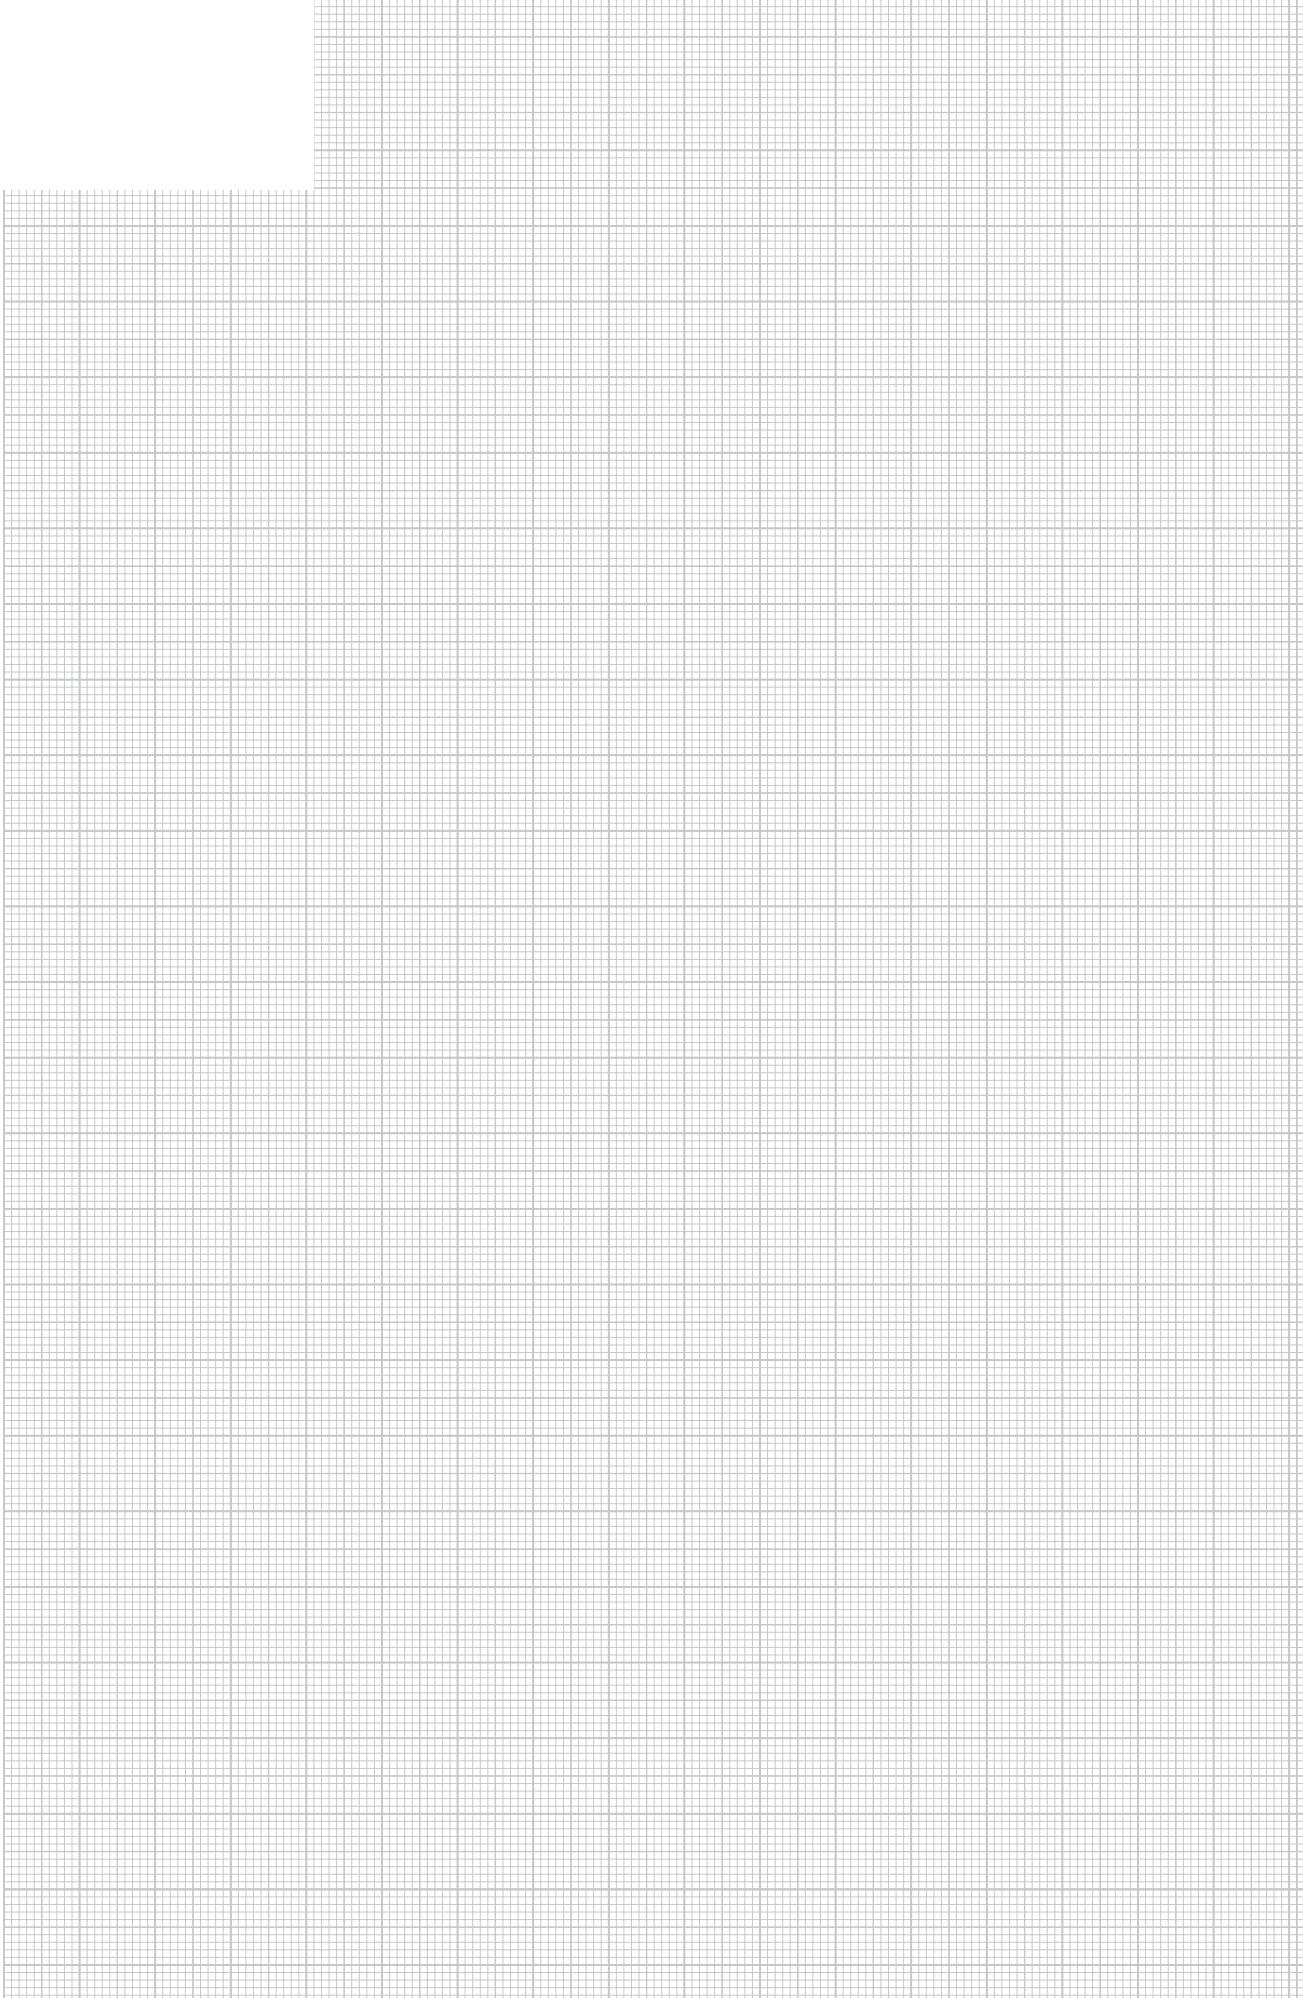

The use of angular connectors means that the Deskbox DBV can be lowered without any trouble. Straight connectors can only be used when the Deskbox is extended.

Cable outlet of the DBV Deskbox

When the Deskbox is lowered, the cable is outlet through the integrated folding function of the cover.

A great package. The foldable Deskbox DBK

Fixed stainless steel table installation, foldable

Planning aids, Deskbox and workplace system

Workplaces, conference tables - the range of applications of the foldable Deskbox DBK is huge. No matter whether for laptops, beamers or PCs: connection is as easy as you'd expect. Open the flap, insert the connector, close the flap. The integrated brush bar allows tidy running out of the cables.

Device installation widths

The Deskbox DBK is available in three widths. This results in the following device installation widths for equipment:

- 150 mm
- 200 mm
- 300 mm

Surface variants

The Deskbox DBK is supplied as standard with the surface brushed stainless steel. The following variants are available on request:

- Painted black
- Painted in special colours

Standard versions

OBO can offer various pre-terminated and ready-for-connection versions of the DBK Deskbox for standard workplace requirements. The network connection cable is preinstalled.

Individual versions

Alternatively, the DBK Deskbox can be equipped according to your requirements, and a comprehensive range of installation units and accessories are available for this. These range from country-specific sockets, through data technology and protection modules, right up to multimedia connections. The individual Deskbox is then supplied as a tested and ready-to-connect unit with a network connection cable.

Please note that the equipment components cannot be ordered individually.

You can find the configuration form on the following pages or at www.obo.de.

Planning aids, Deskbox and workplace system

Deskbox DBK, ordering procedure

卷之三

Select housing colour (please check)

Mounting aids for DBK Deskbox

Preparation for Deskbox mounting

A rectangular mounting opening is required for Deskbox installation. The appropriate installation dimensions can be found in the mounting instructions.

Inserting the Deskbox

Insert the Deskbox into the mounting opening from the top.

Preparing Deskbox fastening

The fastening hole strips located on the Deskbox are bent over the fixing rail contained in the scope of delivery.

Fastening the Deskbox

The Deskbox is fastened to the tabletop with four wood screws. Ensure that the screws are always screwed in directly next to the fixing rails.

Data technology connection

Simply connect the data technology couplings using standard universal cables. There is no need to screw on the Deskbox.

Adjustment of cover resistance

The resistance or movement of the cover is adjusted using two adjusting screws on the lower side of the Deskbox.

Completion of Deskbox mounting

The Deskbox is mounted and, when closed, is almost flush with the tabletop.

Application information for Deskbox DBK

The Deskbox DBK can also easily be closed using the connected connectors.

Cable outlet of the DBK Deskbox

When the Deskbox is closed, the cable is outlet through an integrated brush bar.

How can you plan and locate workstations freely and without restrictions? Discover a new freedom with IAS®.

Planning aids, workplace systems, IAS® system

IAS makes workstations independent	76
Economic in first fitting	78
Consolidation Points as a new interface to the building	79
Intelligent down to the last detail	80

IAS® makes workstations independent

Planning aids, IAS system

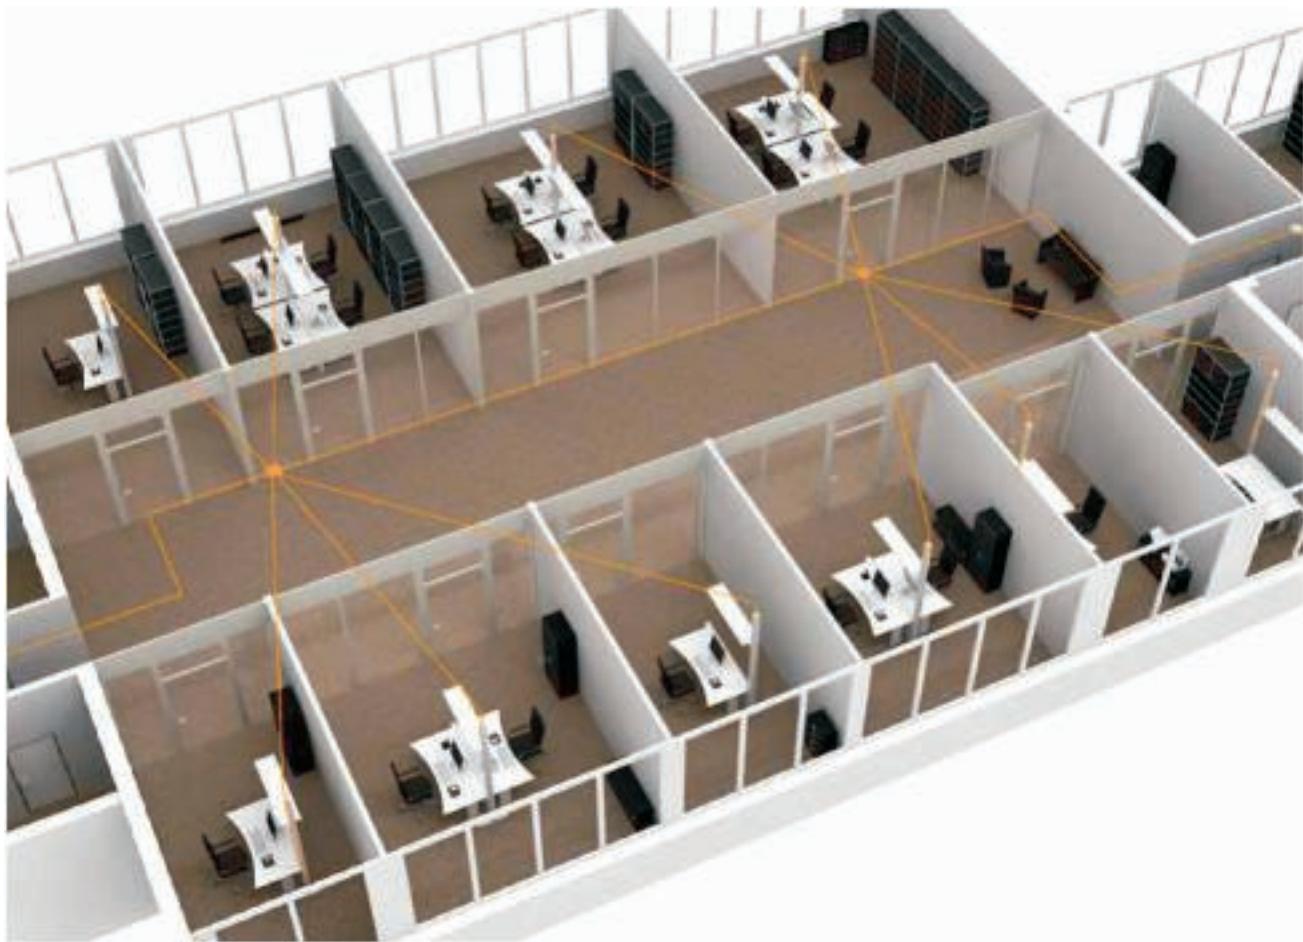

OBO has redefined the interface – and created a unique symbiosis of buildings and workstations.

Fixed installations are reduced to a minimum and the costs lowered considerably. IAS unifies light, power and air-conditioning into a complete, long-lasting system – the intelligent workstation system from OBO.

Planning aids, IAS system

Economic in first fitting. Flexible and low costs on changes of use

Building use with individual offices

Planning aids, IAS system

Reduction of the technical building infrastructure to a minimum

In recent years, the requirements placed on commercial buildings have grown enormously. In particular, with regard to workstations, there is a demand for flexibility and reversibility. Even during planning, actions must be taken for the future in order to permit later adaptations and possible unknown changes.

Out of the wall

IAS can turn single-room offices into functioning open plan offices with ease – and vice-versa. As the fixed cabling in the building is reduced to a minimum, the changes take place almost solely at the workstation, and not in the building itself.

Consolidation Points as a new interface to the building

Building use as an open plan office

Intelligent, forward-thinking building technology planning, together with workstation planning, creates IAS connection points all over the building - so called Consolidation Points (CP). They minimise the fixed cabling in the building, providing, together with the IAS modules, the highest level of flexibility. And there are no new costs for building technology during restructuring measures. The spheres of activity of the Consolidation Points are almost unlimited. With just a few interfaces, it is possible to interconnect the workstations on whole floors.

Planning aids, IAS system

Intelligent down to the last detail

System components

1	Light and cooling (optional)
2	Basic profile, height-variable
3	Optional sight protection
4	Body in two widths (160, 180 mm) and variable heights

Intelligent down to the last detail

Flexible

PC, telephone, printer, fax machine, light, air-conditioning ... The requirements for workstations are as varied and individual as the person working at them. One table module – a host of options: IAS is prepared for any challenge.

Universal

At first, there is not a lot to be seen on the table module – and that is how it should be. Only when the easy-to-open sliding doors are opened, do they reveal the universal application options of IAS. Pre-installed and freely routable sockets are possible to the same extent. Rechargeable batteries and power units are given their rightful place here. And the mess of cables belongs to the past.

Individual

Individual requirements, such as cable exits on desks and sockets, can be set up individually for each user using the modular profile system. Besides safety and efficiency, design is also important. PC compartments and cover profiles help to round things off.

All RAL colours are available on request.

Planning aids, IAS system

The robust design and simple handling mean that energy distributors are essential wherever power and compressed air are required. The energy distributors can be suspended from the ceiling using a knotted chain and are thus always in the right location. The concentration of the energy sources directly at the workplace means that there are no interfering cables and hoses. This reduces the risk of accidents, and rationalisation at the workplace is improved consider-

ably.

Planning aid, industrial and special connector systems

Power supply units VH and VHF 84

Mounting aids, power supply units VH and VHF 85

Power supply units VH and VHF

All good things come from above Power supply units for power and compressed air

Often, supplying power to workstations in production and workshops is a difficult matter. The required power sources, such as heavy current and compressed air, come from central supply points, are run to the individual workstations and must then often be re-bundled. These supply lines are often easily missed and pose an additional risk at the workstation. Besides posing the risk of tripping, carelessly routed compressed air hoses or power cable extensions often cause transport problems and are sources of risk not to be underestimated, especially when rapid working routes are required.

OBO Bettermann can provide assistance here: With the space-saving type VH and VHF power supply units, problematic extension cables and hoses are a thing of the past. The solution is literally in the air and close at hand! The required compact, box-like distributors can be suspended from the ceiling using a knotted chain and thus freely positioned in the room. Thus OBO power supply units offer safe, rational working at the workstation.

VH power supply unit

Under normal working conditions, the VH distributor is used for machining and mounting areas or in

car workshops.

To meet the necessary requirements, besides the freely equipable power supply units for four or eight devices, there is also a range of pre-equipped and pre-wired units available.

VHF power supply unit

In work areas such as bakeries, industrial kitchens, abattoirs or laboratories, power supplies will be subjected to special requirements. This is a job for the VHF distributor. It allows a wide range of solutions, which are suitable for damp and wet areas up to a protection rating of IP44.

The right accessories for every application

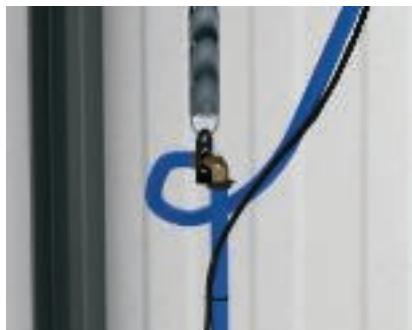

A comprehensive range of accessories complete the VH and VHF power supply units. It allows the installation of Modul 45 accessories, standard switching and connection devices, extension sockets with 38 x 38 mm fastening system, CEE connection units, protection units and much more. This means that there are no limits to the range of applications for power supply units. Heavy current, compressed air, data technology and even country-specific installation solutions are available wherever they are required.

Mounting aid for power supply units VH and VHF

Installation with knotted chain

Mounting with a knotted chain is a rigid installation and does not require any additional cable reserves. Shorten the knotted chain to the required length and fasten it using the pre-mounted eyelet on the housing cover.

Installation with tension spring

With additional installations with a tension spring, always ensure flexible cable routing. The tension spring is usually used with compressed air for VH units and inserted directly in the fastening seat.

Compressed air connection

The compressed air connection is designed for compressed air hoses 13 x 3.5 mm. The hose connection is fixed and locked using a hose clip.

Cable entry

Cables are inserted using the pre-punched openings in the housing cover. Correct strain relief is achieved using the cable terminals integrated in the housing.

VH device installation – Modul 45

The Modul 45 devices are inserted and locked into the appropriate cover plate. After connecting the cable, place the cover plate on the housing and fix it using two screws.

VH device installation – support ring (EKR)

After cable connection, accessories with a support ring are screwed directly into the housing. The cover plate is fastened by mounting the central plate.

VH / VHF device installation – expansion devices

Fasten extension accessories for the 38 x 38 mm fastening system to the appropriate cover plate using the enclosed screws. After connecting the cable, place the cover plate on the housing and fix it using fastening screws.

VH / VHF device installation – CEE

The connection of cables to a CEE connection unit must be carried out using a pre-mounted cover plate. During device mounting, the cover plate is fastened using four fastening screws.

VHF device installation – IP44 socket

The IP44 socket is inserted and locked into the appropriate cover plate. After connecting the cable, place the cover plate on the housing and fix it using screws.

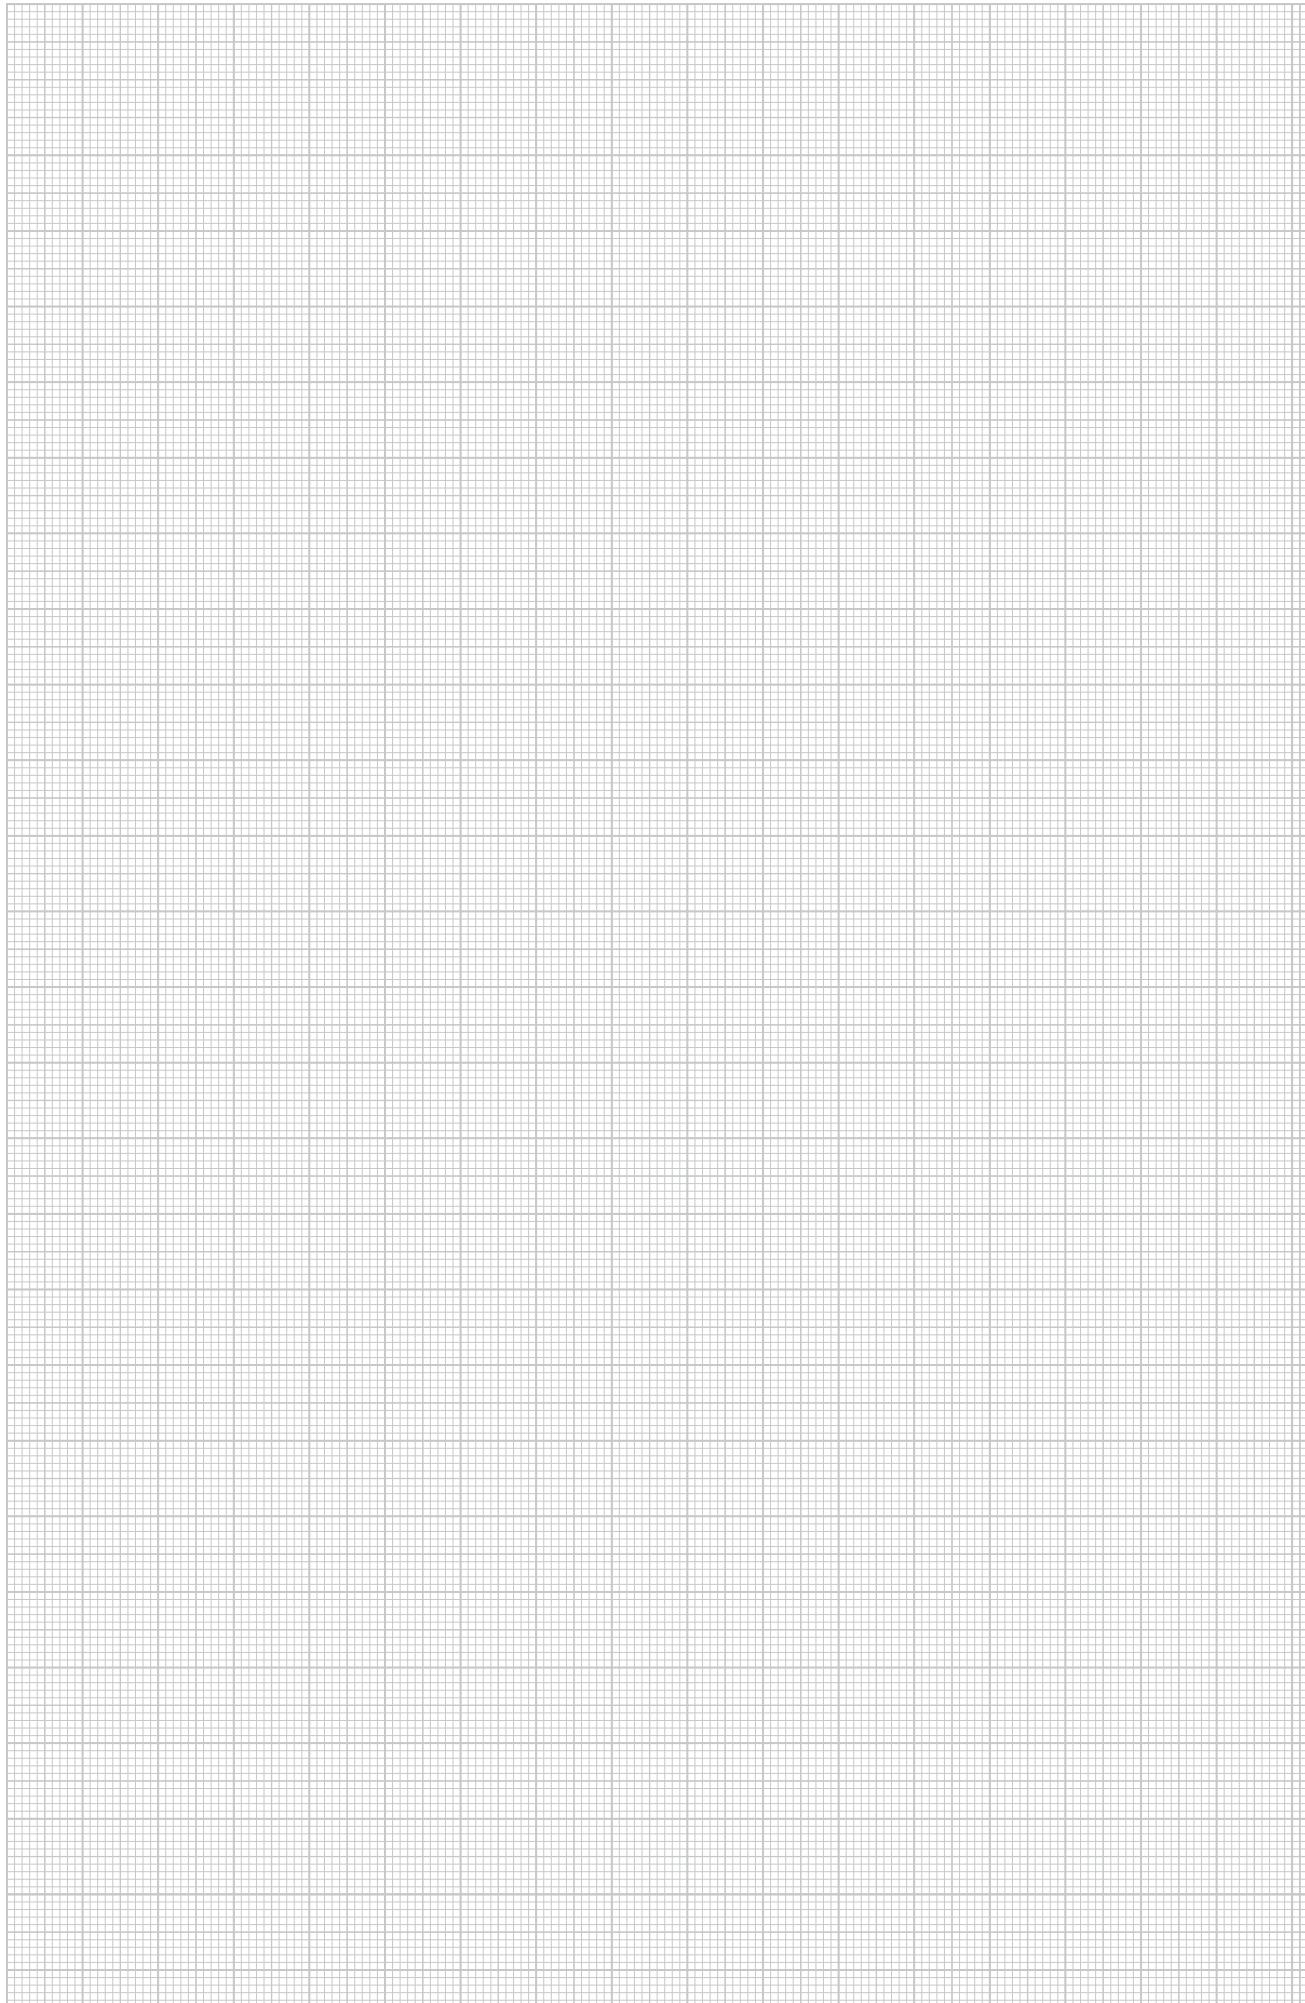

VHF device installation – power supply unit
In the first step, the appropriate support is pre-mounted using a PE terminal strip or N and PE terminal strip in the upper half of the housing. For this, the inner part of the fastening tracks must be completely removed.

VHF device installation – power supply unit
In the second step, the support bracket for the power supply unit is mounted in the lower half of the housing. Then the devices are connected and installed.

VHF device installation – power supply unit
In the third step, the transparent cover is placed on the cover plate and fastened with four screws. After that, mount the cover plate onto the equipped housing side using four screws.

WS-K SWGR0.5	Black-grey	10	1.800	6117 62 9
WS-K AL0.5	Aluminium painted	10	1.800	6117 63 1

/pc.

Changeover switch for lighting with LED element, 1-pin, 16 A, 250 V~, with screwless terminals.

Note: The LED element is not contained in the scope of delivery.

Changeover switch, 1 module

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
WS-B RW1	Pure white	10	2.600	6117 64 0
WS-B SWGR1	Black-grey	10	2.600	6117 64 2
WS-B AL1	Aluminium painted	10	2.600	6117 64 1

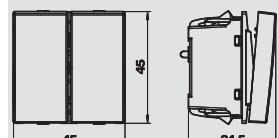

/pc.

Changeover switch 1-pin, 16 A, 250 V~, with screwless terminals.

Series switch, 1 module

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SE-B RW1	Pure white	10	1.800	6117 61 5
SE-B SWGR1	Black-grey	10	1.800	6117 61 4
SE-B AL1	Aluminium painted	10	1.800	6117 61 6

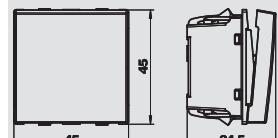

/pc.

Serial switch, 16 A, 250 V~, with screwless terminals.

Cross switch, 1 module

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
KS-B RW1	Pure white	10	1.900	6117 63 7
KS-B SWGR1	Black-grey	10	1.900	6117 63 9
KS-B AL1	Aluminium painted	10	1.900	6117 63 8

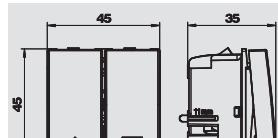

/pc.

Cross switch, 16 A, 250 V~, with screwless terminals.

Roller blind switch, 1 module

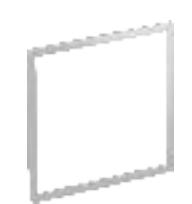

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
RS-BS1 RW1	Pure white	10	3.700	6117 65 4
RS-BS1 SWGR1	Black-grey	10	3.700	6117 65 5
RS-BS1 AL1	Aluminium painted	10	3.700	6117 65 5

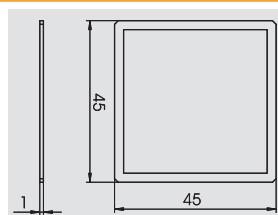

/pc.

Roller blind switch with electrical and mechanical lock, 1-pin, 16 A, 250 V~, with screwless terminals.

Adapter for switch installation rotated through 90°

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
AD-90G M45	1	0.400	6258 14 1

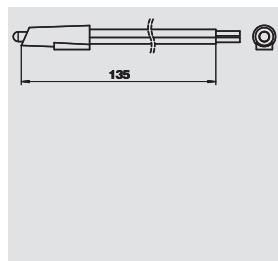

/pc.

The adapter allows switch installation rotated through 90° in, for example, installation columns with a 45 mm track or Rapid 45. Suitable for all switches and buttons in one module width (45 x 45 mm).

LED element

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
BE-LED B1RO	Red	10	1.100	6117 75 7
BE-LED B1GN	Green	10	1.100	6117 75 8

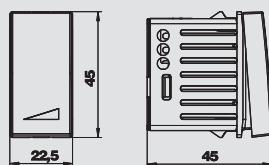

/pc.

LED element, 230 V~, 1.2 mA.

The LED illumination elements are only for switches/buttons with orientation illumination.

Electronic switching devices, Modul 45®

Touch dimmer, 1/2 module, for ohmic and inductive loads

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
TD-AN21 RW0.5	Pure white	1	2.300	6117 54 0
TD-AN21 SWGR0.5	Black-grey	1	2.300	6117 54 2
TD-AN21 AL0.5	Aluminium painted	1	2.300	6117 54 4

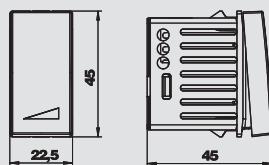

/pc.

Touch dimmer with memory for ohmic and inductive loads.

Technical data:

Phase section dimmer Load code R; L
Power supply 230 V, 50 Hz, 2-wire connection
Switching power: filament lamps 230 V: 25–210 W
Switching power, coiled transformers: 25–180 VA

Touch dimmer, 1/2 module, for electronic transformers and ohmic loads

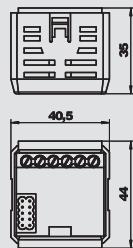

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
TD-AB21 RW0.5	Pure white	1	2.300	6117 54 8
TD-AB21 SWGR0.5	Black-grey	1	2.300	6117 55 0
TD-AB21 AL0.5	Aluminium painted	1	2.300	6117 55 2

/pc.

Touch dimmer with memory for electronic transformers and ohmic loads. Technical data:

Phase section dimmer load code R; C
Power supply 230 V, 50 Hz, 2-wire connection
Switching power: filament lamps 230 V: 25–210 W
Switching power, electronic transformers: 25–180 VA.

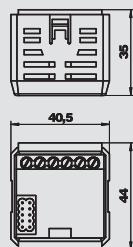

Relay insert, 1 module, changeover

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
RE-UW 1	1	4.640	6117 66 2

/pc.

Relay insert with changeover contact with extension input, 10 A, 230 VAC, suitable for room thermostat RTR-A, timer ZU-A and motion detector BM-A180 tops.

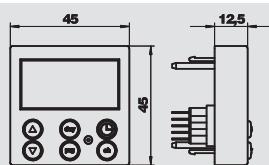

Relay insert, 1 module, 2-channel

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
RE-U2K 1	1	4.640	6117 66 5

/pc.

Relay insert with 2 NO contacts with extension input, 4 A, 230 VAC, suitable for timer ZU-A and roller blind timer RZU-A tops.

Top for relay insert, timer

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
ZU-A RW1	Pure white	1	2.660	6117 35 2
ZU-A SWGR1	Black-grey	1	2.660	6117 35 6
ZU-A AL1	Aluminium painted	1	2.660	6117 35 4

/pc.

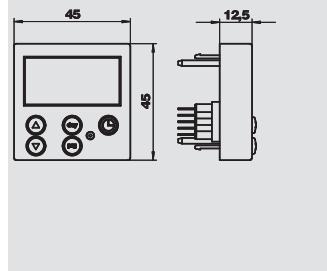

Timer top, 24 switching times programmable for individual weekdays or blocks of days (Mon.–Fri., Sat.+Sun.) programmable, suitable for 1-channel relay insert RE-UW and 2-channel RE-U2K.

Electronic switching devices, Modul 45®

Top for relay insert, roller blind timer

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
RZU-A RW1	Pure white	1	2.570	6117 36 4
RZU-A SWGR1	Black-grey	1	2.570	6117 36 8
RZU-A AL 1	Aluminium painted	1	2.570	6117 36 6

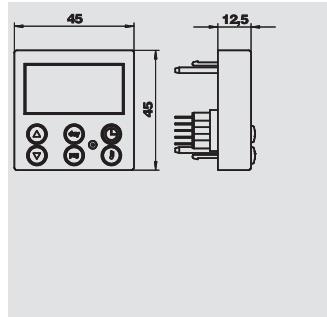

/pc.

Roller blind timer top, 24 switching times programmable for individual weekdays or blocks of days (Mon.-Fri., Sat.+Sun.) programmable, suitable for 2-channel relay insert RE-U2K.

Top for relay insert, room thermostat

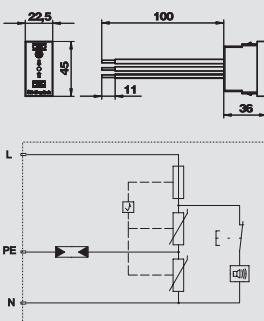

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
RTR-A RW1	Pure white	1	2.660	6117 35 8
RTR-A SWGR1	Black-grey	1	2.660	6117 36 2
RTR-A AL1	Aluminium painted	1	2.660	6117 36 0

/pc.

Room temperature controller top, two settable temperatures between 7 and 30 °C, frost protection temperature fixed 7 °C, 24 switching times for reduced temperature/presence for individual weekdays or blocks of days (Mon.-Fri., Sat.+Sun.) programmable, suitable for relay insert RE-UW.

Surge protection device, 1/2 module, visual signalling

Type	Colour	Signalling on device	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
ÜSS 45-O-RW	Pure white	Visual	1	2.410	6117 47 3
ÜSS 45-O-ALU	Aluminium painted	Visual	1	2.410	6117 47 5

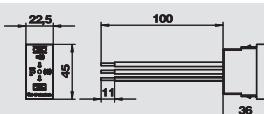

/pc.

For stationary installation in Rapid 45 trunking, device installation trunking and underfloor systems.

- Version -O with visual function display
- Quick and easy mounting
- Small width of 22.5 mm

Application: The correct installation of the surge protection device, which is performed by the electrical installer, secures individual sockets, but can also be used for protecting socket combinations.

Surge protection device type 3 (class D) to VDE 0675, Parts 6–11 (DIN EN 61643-11).

Surge protection device, 1/2 module, acoustic signalling

Type	Colour	Signalling on device	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
ÜSS 45-A-RW	Pure white	Audible	1	2.800	6117 46 5
ÜSS 45-A-ALU	Aluminium painted	Audible	1	2.800	6117 46 7

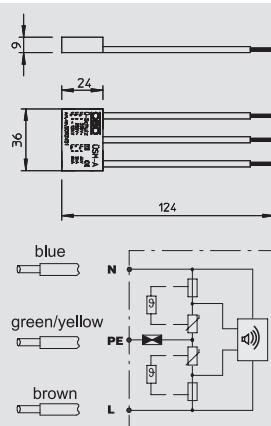

/pc.

For stationary installation in Rapid-45 ducts, device installation ducts and underfloor systems.

- Version -A with acoustic function display (signal tone can be switched off)
- Quick and simple installation
- Installation width only 22.5 mm

Application: the installation of the surge protection device, which is performed by the electrical installer, secures individual sockets, but can also be used for protecting socket combinations.

Surge protection device Type 3 (Class D) to VDE 0675 Parts 6–11 (DIN EN 61643-11)

Surge protection device, acoustic signalling

Type	Signalling on device	Version	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
ÜSM-A	Audible	Acoustic function display	1	1.500	5092 45 1

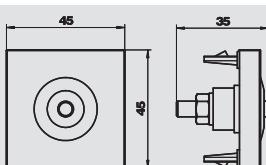

/pc.

Surge protection module type 3 (class D) to DIN EN 61643-11 (VDE 0675 Parts 6–11), fine protection device, for 230/400 V supplies.

For use on power sockets.

- With acoustic defect signal
- With low construction height
- Y circuit

Application: Universally applicable for all installation systems.

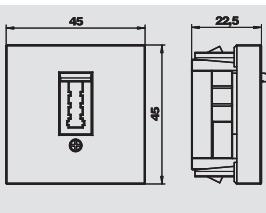

Equipotential bonding socket, 1 module, straight outlet

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
PAD-LQ6 RW1	Pure white	1	5.400	6119 99 8
PAD-LQ6 SWGR1	Black-grey	1	5.400	6119 99 7
PAD-LQ6 AL1	Aluminium painted	1	5.400	6119 99 9

/pc.

Equipotential bonding socket to DIN 42 801, rear-sided connection with M6 screw bolts.

TAE telephone connection socket, 1 module, F version

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
TAE-6F RW1	Pure white	10	2.000	6117 42 8
TAE-6F AL1	Aluminium painted	10	2.000	6117 43 0

/pc.

Telephone connection box TAE 6 F.

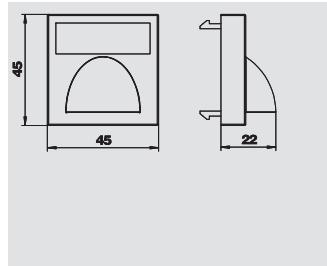

Connection devices and covers, Modul 45®

Cable outlet, 1 module

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
KA-ZKB RW1	Pure white	8	0.890	6117 98 5
KA-ZKB SWGR1	Black-grey	8	0.890	6117 98 6
KA-ZKB AL1	Aluminium painted	8	0.890	6117 98 7

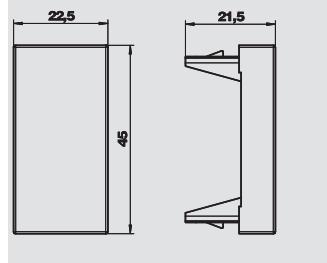

/pc.

Cable outlet with strain relief via cable tie fastening.

Blanking cover, 1/2 module

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
ADP-B RW0.5	Pure white	10	0.400	6117 41 4
ADP-B SWGR0.5	Black-grey	10	0.400	6117 41 5
ADP-B AL0.5	Aluminium painted	10	0.400	6117 41 6

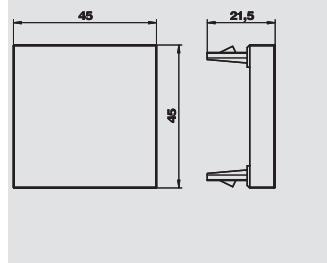

/pc.

Blanking cover for closing off empty spaces for half a device (1/2 module).

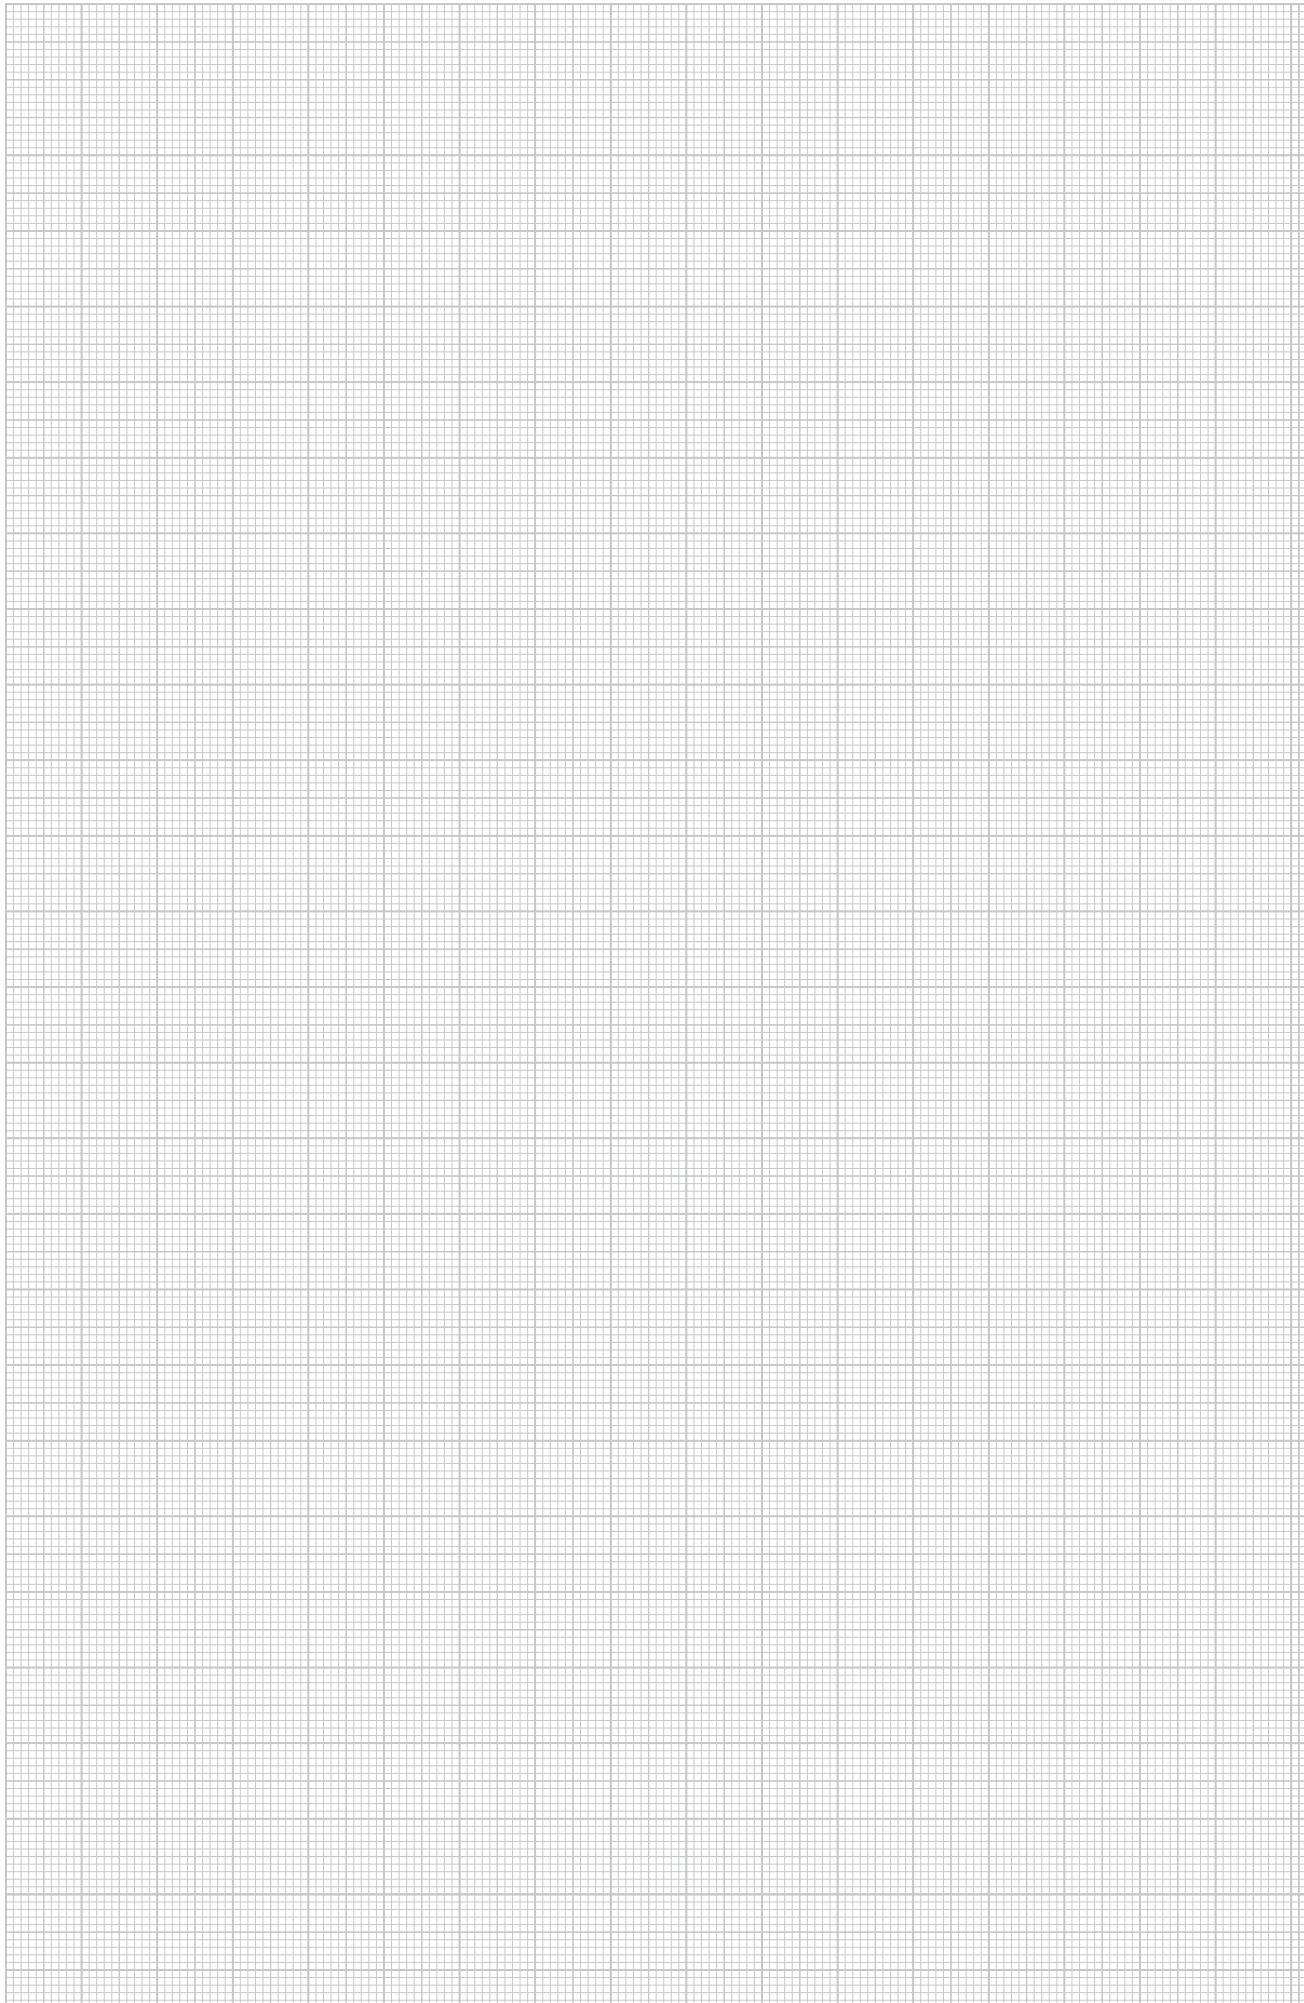

Blanking cover, 1 module

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
ADP-B RW1	Pure white	10	0.800	6117 40 6
ADP-B SWGR1	Black-grey	10	0.800	6117 40 7
ADP-B AL1	Aluminium painted	10	0.800	6117 40 8

/pc.

Blanking cover for closing off empty spaces for a device (one module).

Data technology connection solution, Modul 45®

Data technology support, 1 module, straight outlet, Type RM

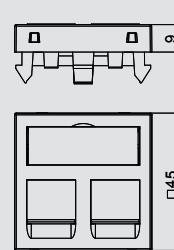

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
DTG-2RM RW1	Pure white	1	1.100	6119 29 2
DTG-2RM SWGR1	Black-grey	1	1.100	6119 29 4
DTG-2RM AL1	Aluminium painted	1	1.100	6119 29 6

PC Polycarbonate

Data technology support with straight outlet and locking slider to accept two data technology connection modules with RJ45 socket. The locking fastening is suitable for horizontal and vertical installation in the system environment. Type RM has a special module seat and is designed for indirect fastening of the data connection modules in the mounting opening.

The Type RM data technology support is suitable for accepting the following data connection modules: OBO: Types ASM-C5, ASM-C5 G, ASM-C6 and ASM-C6 G; R&M: Cat.5 and Cat.6 modules without support plate.

Data technology support, 1 module, slanting outlet, Type RM

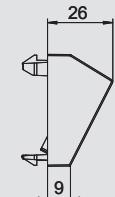

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
DTS-2RM RW1	Pure white	1	1.500	6119 29 8
DTS-2RM SWGR1	Black-grey	1	1.500	6119 30 0
DTS-2RM AL1	Aluminium painted	1	1.500	6119 30 2

PC Polycarbonate

Data technology support with slanting outlet and locking slider to accept two data technology connection modules with RJ45 socket. The locking fastening is suitable for horizontal and vertical installation in the system environment. Type RM has a special module seat and is designed for indirect fastening of the data connection modules in the mounting opening.

The Type RM data technology support is suitable for accepting the following data connection modules: OBO: Types ASM-C5, ASM-C5 G, ASM-C6 and ASM-C6 G; R&M: Cat.5 and Cat.6 modules without support plate.

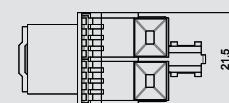

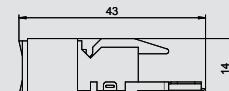

RJ45 data connection module, Cat. 5e, unshielded

Type	Pack. pcs	Weight kg/100 pcs.	Item No.
ASM-C5	1	1.120	6117 33 7

/pc.

Connection module Cat. 5e unshielded, with a RJ 45 slot. Including a dust cover, a cable tie and mounting instructions. Suitable for installation in data technology supports of type DTG-2RM and DTS-2RM.

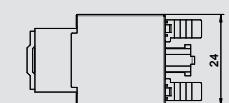

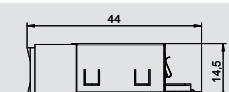

RJ45 data connection module, Cat. 5e, shielded

Type	Pack. pcs	Weight kg/100 pcs.	Item No.
ASM-C5 G	1	1.920	6117 32 5

/pc.

Connection module Cat 5e shielded, with a RJ 45 slot. Including an EMC screen hood, a dust cover, a cable tie and mounting instructions. Suitable for installation in data technology supports of type DTG-2RM and DTS-2RM.

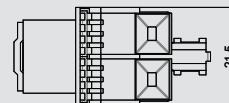

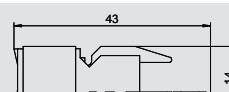

RJ45 data connection module, Cat. 6, unshielded

Type	Pack. pcs	Weight kg/100 pcs.	Item No.
ASM-C6	1	1.060	6117 34 1

/pc.

Connection module Cat. 6 unshielded, with a RJ 45 slot. Including a dust cover, a cable tie and mounting instructions. Suitable for installation in data technology supports of type DTG-2RM and DTS-2RM.

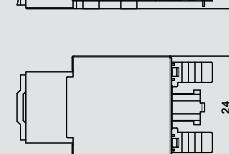

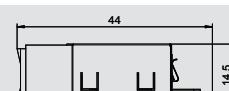

RJ45 data connection module, Cat. 6, shielded

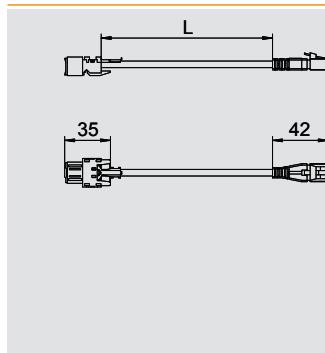

Type	Pack. pcs	Weight kg/100 pcs.	Item No.
ASM-C6 G	1	1.850	6117 32 9

/pc.

Connection module Cat 6 shielded, with a RJ 45 slot. Including an EMC screen hood, a dust cover, a cable tie and mounting instructions. Suitable for installation in data technology supports of type DTG-2RM and DTS-2RM.

Data technology connection solution, Modul 45®

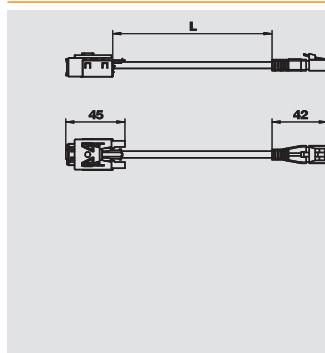

CP universal cable RJ45, Cat. 6, unshielded

Type	Cable length mm	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
CPK-C6 U/UTP3	3000	Grey	10	11.800	6118 01 2

PC Polycarbonate /pc.

Data technology support with straight outlet and locking slider to accept two data technology connection modules with RJ45 socket. The locking fastening is suitable for horizontal and vertical installation in the system environment. Type C has a mounting opening of 19.30 x 14.80 mm and is designed for direct fastening of the data connection modules in the mounting opening.

The Type C data technology support is suitable for accepting the following data connection modules: BTR (Keystone design): Cat.6A module, E-DAT module and UAE module; Corning: Modules with Keystone seat; Dätwyler: KS-T, MS-K and KU-T; EKU: E-Stone; Harting: Prelink Keystone Cat.6; Leoni Kerpen: MegaLine Keystone Cat.6A; OBO: Type ASM-C6A and ASM-C6A G; R&M: Cat.6A with Keystone fastening; Rutenbeck: UM and UMflex; SETEC: UKJ and XKJ; Telegärtner: AMJ and UMJ.

Data technology support, 1 module, slanting outlet, Type C

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.

PC Polycarbonate /pc.

Data technology support with slanting outlet and locking slider to accept two data technology connection modules with RJ45 socket. The locking fastening is suitable for horizontal and vertical installation in the system environment. Type C has a mounting opening of 19.30 x 14.80 mm and is designed for direct fastening of the data connection modules in the mounting opening.

The Type C data technology support is suitable for accepting the following data connection modules: BTR (Keystone design): Cat.6A module, E-DAT module and UAE module; Corning: Modules with Keystone seat; Dätwyler: KS-T, MS-K and KU-T; EKU: E-Stone; Harting: Prelink Keystone Cat.6; Leoni Kerpen: MegaLine Keystone Cat.6A; OBO: Type ASM-C6A and ASM-C6A G; R&M: Cat.6A with Keystone fastening; Rutenbeck: UM and UMflex; SETEC: UKJ and XKJ; Telegärtner: AMJ and UMJ.

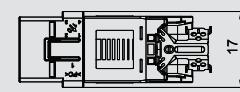

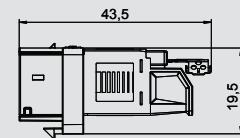

Data technology connection solution, Modul 45®

RJ45 data connection module, Cat. 6A (ISO), unshielded

Type		Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
ASM-C6A		1	1.050	6117 34 8

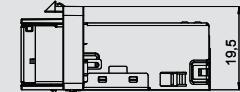

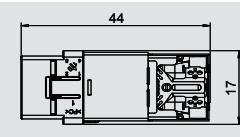

Connection module Cat. 6A (ISO) unshielded, with a RJ 45 slot. Including a dust cover, a cable tie, a Keystone fastening frame and mounting instructions. Suitable for installation in the data technology supports of type DTG-2C and DTS-2C, support plate of type MTM 2C and MTM 3C, mounting plate of type MPR2 2C, mounting supports of type MTGE2 2C, MTGE2 15 2C and MTGE2 F 2C.

RJ45 data connection module, Cat. 6A (ISO), shielded

Type		Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
ASM-C6A G		1	1.630	6117 34 6

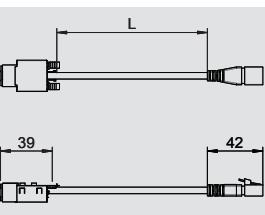

Connection module Cat 6A (ISO) shielded, with a RJ 45 slot. Including an EMC screen hood, a dust cover, a cable tie, a Keystone fastening frame and mounting instructions. Suitable for installation in the data technology supports of type DTG-2C and DTS-2C, support plate of type MTM 2C and MTM 3C, mounting plate of type MPR2 2C, mounting supports of type MTGE2 2C, MTGE2 15 2C and MTGE2 F 2C.

CP universal cable RJ45, Cat. 6A (ISO), unshielded

Type	Cable length mm	Colour	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
CPK-C6A U/UTP3	3000	Grey	10	11.800	6118 02 8
CPK-C6A U/UTP5	5000	Grey	10	17.000	6118 03 0

PC Polycarbonate

Data technology support with straight outlet and locking slider to accept two data technology connection modules with RJ45 socket. The locking fastening is suitable for horizontal and vertical installation in the system environment. Type RM has a special module seat and is designed for indirect fastening of the data connection modules in the mounting opening.

The Type RM data technology support is suitable for accepting the following data connection modules: OBO: Types ASM-C5, ASM-C5 G, ASM-C6 and ASM-C6 G; R&M: Cat.5 and Cat.6 modules without support plate.

Universal data technology support for Modul 45®

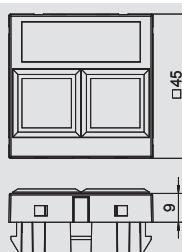

Data technology support, 1 module, slanting outlet, Type RM

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
DTS-2RM RW1	Pure white	1	1.500	6119 29 8
DTS-2RM SWGR1	Black-grey	1	1.500	6119 30 0
DTS-2RM AL1	Aluminium painted	1	1.500	6119 30 2

PC Polycarbonate

Data technology support with slanting outlet and locking slider to accept two data technology connection modules with RJ45 socket. The locking fastening is suitable for horizontal and vertical installation in the system environment. Type RM has a special module seat and is designed for indirect fastening of the data connection modules in the mounting opening.

The Type RM data technology support is suitable for accepting the following data connection modules: OBO: Types ASM-C5, ASM-C5 G, ASM-C6 and ASM-C6 G; R&M: Cat.5 and Cat.6 modules without support plate.

Data technology support, 1 module, straight outlet, Type LE

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
DTG-02LE RW1	Pure white	1	0.900	6119 30 4
DTG-02LE SWGR1	Black-grey	1	0.900	6119 30 6
DTG-02LE AL1	Aluminium painted	1	0.900	6119 30 8

PC Polycarbonate

Data technology support with straight outlet and without a locking slider to accept two data technology connection modules with RJ45 socket. The locking fastening is suitable for horizontal and vertical installation in the system environment. Type LE has a special module seat and is designed for indirect fastening of the data connection modules in the mounting opening.

The Type LE data technology support is suitable for accepting the following data connection modules: LexCom/Schneider: LexCom 125, LexCom 250 and LexCom 500.

PC Polycarbonate

Front locking cover frame for Modul 45 devices, triple, with labelling panel for horizontal device installation, for locking in service unit 71GD9-2 or in mounting support 71MT3 45-2.

Device installation, devices with 50 mm central plate in Rapid 80 and ISS

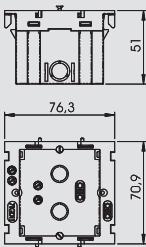

Service unit, single			Pack. pcs	Weight kg/100 pcs.	Item No.
Type	Colour				
71GD6	Iron grey		5	5.600	6288 61 0

PA Polyamide /pc.

Front-locking accessory mounting box for switch systems, with folding, and also removable, base for time-saving cable connection, with feed openings for cable diameters of up to 14 mm.

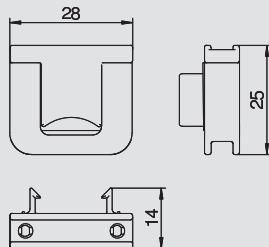

Service unit, single, with large installation opening

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
71GD11	—	1	4.600	6288 53 2

PA Polyamide /pc.

Service unit to accept standard switching and connection devices in support ring and support clamp versions of all manufacturers. An extra-large installation opening means that the socket is also suitable for the acceptance of ELKO devices as well as larger versions of data technology connection sockets. With the data technology application, it is possible to do without the protective housing if necessary.

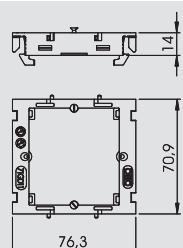

Strain relief for service unit

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
7ZE	—	50	0.650	6288 79 0

PA Polyamide /pc.

Strain relief with locking clips, suitable for the accessory mounting boxes 7GD... and 71GD.... Cable clamping range to 14 mm.

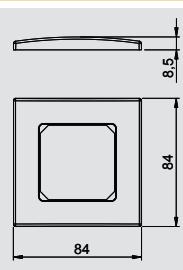

Mounting support, single, for data technology and ELKO devices

Type	Pack. pcs	Weight kg/100 pcs.	Item No.
71MTD	10	1.640	6288 57 7

PA Polyamide /pc.

Mounting support for the installation of data technology devices in device installation ducts of the Rapid 80 series and ISS service poles with 76.5 mm system opening.

Cover frame AR50, single

Type	Colour	Pack. pcs	Weight kg/100 pcs.	Item No.
AR50-F1 RW	Pure white	1	1.620	6119 39 2
AR50-F1 SWGR	Black-grey	1	1.620	6119 39 4
AR50-F1 AL	Aluminium painted	1	1.620	6119 39 6

PC Polycarbonate

Front locking cover frame for devices with 50 mm central plate, single, without labelling panel for horizontal and vertical device installation, for mounting on service unit 71GD6, 71GD11 or in mounting support 71MTD.

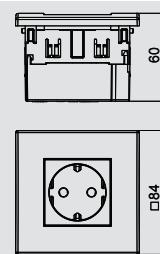

Complete units, for Rapid 80 and ISS

Socket unit AR45, single

Type	Colour	Pack.	Weight	Item No.

Fastening clamp for Deskbox DB

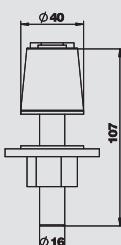

Type	Colour	Version	Pack.	Weight	Item No.
			pcs	kg/100 pcs.	
DBZ-BZ40	Black	Clamping range 8 to 40 mm	1	18.000	6116 97 6
DBZ-BZ75	Black	Clamping range 40 to 75 mm	1	20.000	6116 97 9

/pc.

Fastening clamp for mounting a Deskbox Type DB... on the tabletop.

Note: For housing widths of 200 mm or more, two fastening clamps are required to mount a Deskbox.

Stainless steel fastening stand for Deskbox DB

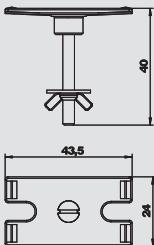

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
DBZ-BFE	1	34.000	6116 98 2

/pc.

Stainless steel fastening stand for fixed mounting of a Deskbox type DB... on a tabletop. It is mounted using a drill hole ($\varnothing 16$ mm) in the tabletop.

Note: Can be used in tabletops of up to 50 mm thickness.

Fastening set for table mounting, for Deskbox DB

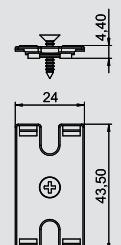

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
DBZ-BST	1	2.300	6116 98 5

/pc.

Fastening set for fixed mounting of Deskbox type DB... on the tabletop. It is mounted using a drill hole ($\varnothing 10$ mm) in the tabletop.

Note: The included fastening screws (M4 x 40 mm) can be used for tabletops of up to a maximum thickness of 32 mm.

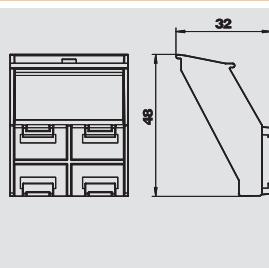

Fastening set for under-table mounting, for Deskbox DB

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
DBZ-BSUT	1	100.000	6116 98 6

/pc.

Fastening set for fixed mounting of Deskbox type DB... under the tabletop. It is mounted on the tabletop using two wood screws.

Flexkanal holder for Deskbox DB

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
DBZ-FLKB	Black	1	1.100	6116 99 1

/pc.

Flexkanal holder for Deskbox, type DB..., for secure connection of a Flexkanal to the Deskbox.

Note: Can only be used for mounting on the tabletop using fastening clamps.

Individual configuration of Deskbox DB

A ready-for-connection Deskbox is equipped and delivered according to your specifications. The installation solutions for individual equipment shown in the following section are available.

DB - device installation solutions for customer-specific Deskbox

- Selection of country-specific sockets
- Selection of protection elements
- Selection of data technology connections
- Selection of multimedia connections
- Selection switching devices and accessories

You can find detailed instructions and a configuration aid in the planning section.

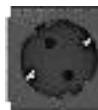

DB - device installation solutions for customer-specific Deskbox

Selection of country-specific sockets

Socket 0°, protective contact

Type	Colour	Version	Dimension mm

DBK - ready-for-connection Deskbox, foldable

Deskbox DBK, 3 sockets

Type	Version	Pack. pcs	Weight kg/100 pcs.	Item No.
DBK-3A3 D3S	Housing made of brushed stainless steel	1	133.860	6116 82 0

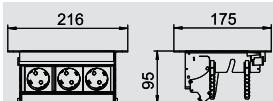

V2A Stainless steel, grade 304 /pc.

Foldable Deskbox with connection cable for fixed installation in a tabletop, housing made of brushed stainless steel with brush bar as cable outlet. It is mounted using a 185 x 157 mm installation opening in the tabletop.

Equipment:

- Three black protection contact sockets in 60° connection direction, incl. 3.0 m power cable with angular connector CEE 7/7.

Note: Can be used in tabletops of between 19 and 35 mm thickness.

Deskbox DBK, 4 sockets

Type	Version	Pack. pcs	Weight kg/100 pcs.	Item No.
DBK-4A3 D4S	Housing made of brushed stainless steel	1	163.860	6116 82 8

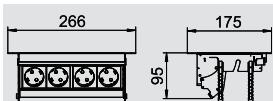

V2A Stainless steel, grade 304 /pc.

Foldable Deskbox with connection cable for fixed installation in a tabletop, housing made of brushed stainless steel with brush bar as cable outlet. It is mounted using a 235 x 157 mm installation opening in the tabletop.

Equipment:

- Four black protection contact sockets in 60° connection direction, incl. 3.0 m power cable with angular connector CEE 7/7.

Note: Can be used in tabletops of between 19 and 50 mm thickness.

Deskbox DBK, 2 sockets, 2x RJ45 Cat. 6

Type	Version	Pack. pcs	Weight kg/100 pcs.	Item No.
DBK-3A3 D2S2K	Housing made of brushed stainless steel	1	133.860	6116 82 4

V2A Stainless steel, grade 304 /pc.

Foldable Deskbox with connection cable for fixed installation in a tabletop, housing made of brushed stainless steel with brush bar as cable outlet. It is mounted using a 185 x 157 mm installation opening in the tabletop.

Equipment:

- Two black protection contact sockets in 60° connection direction, incl. 3.0 m power cable with angular connector CEE 7/7.
- Two data technology couplings RJ45 to RJ45, 1:1 switched, Cat. 6 shielded.

Note: Can be used in tabletops of between 19 and 35 mm thickness.

Deskbox DBK, 3 sockets, 2x RJ45 Cat. 6

/pc.

Foldable Deskbox with connection cable for fixed installation in a tabletop, housing made of brushed stainless steel with brush bar as cable outlet. It is mounted using a 335 x 157 mm installation opening in the tabletop.

Equipment:

- Three black protection contact sockets in 60° connection direction, incl. 3.0 m power cable with angular connector CEE 7/7.
- One VGA 15-pin HDD socket, incl. 3.0 m connection cable with connector.
- One audio jack socket 3.5 mm, incl. 3.0 m connection cable with connector.
- Two data technology couplings RJ45 to RJ45, 1:1 switched, Cat. 6 shielded.

Note: Can be used in tabletops of between 19 and 50 mm thickness.

Individual configuration of Deskbox DBK

A ready-for-connection Deskbox is equipped and delivered according to your specifications. The installation solutions for individual equipment shown in the following section are available.

DB - device installation solutions for customer-specific Deskbox

- Selection of country-specific sockets
- Selection of protection elements
- Selection of data technology connections
- Selection of multimedia connections
- Selection switching devices and accessories

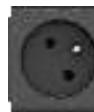

You can find detailed instructions and a configuration aid in the planning section.

Selection of country-specific sockets

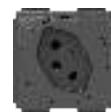

Socket 60°, protective contact

Type	Colour	Version	Dimension mm
EBG-D6 SW	Black	Single, 60°	50 x 50
EBG-D6 RO	Red	Single, 60°	50 x 50

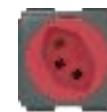

Socket 60°, with earthing pin

Type	Colour	Version	Dimension mm
EBG-F6 SW	Black	Single, 60°	50 x 50

DVI-A connection as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-DVI-A S ST3	Black	With DVI connector	3	50 x 50
EBG-DVI-A S LA	Black	With soldered connection	—	50 x 50

HDMI connection as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-HDMI S ST3	Black	With HDMI connector	3	50 x 50
EBG-HDMI S BT0.2	Black	With HDMI socket	0.2	50 x 50

Audio connection, 2x jack, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-12KLS ST3	Black	With mini jack connector	3	50 x 50
EBG-12KLS LA	Black	With soldered connection	—	50 x 50

DBK - device installation solutions for customer-specific Deskbox

Selection of multimedia connections

Audio connection, 1x jack, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-1KLS ST3	Black	With mini jack connector	3	50 x 50
EBG-1KLS LA	Black	With soldered connection	—	50 x 50

Video connection, 1x cinch, 1x MiniDIN, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-VHSSVHS SST3	Black	Cable with connector	3	50 x 50
EBG-VHS SVHS SLA	Black	With soldered connection	—	50 x 50

Video connection, 1x cinch, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-VHS ST3	Black	Cable with cinch connector	3	50 x 50
EBG-VHS SLA	Black	With soldered connection	—	50 x 50

Video connection, 1x MiniDIN, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-SVHS SST3	Black	With Mini-DIN connector	3	50 x 50
EBG-SVHS SLA	Black	With soldered connection	—	50 x 50

Connection combination, 1x cinch, 1x jack, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-VHS 1KL SST3	Black	With connector	3	50 x 50
EBG-VHS 1KL SLA	Black	With soldered connection	—	50 x 50

Component video connection, 3x cinch, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-CVS 3RCA ST3	Black	Cinch connector	3	50 x 50
EBG-CVS 3RCA LA	Black	With soldered connection	—	50 x 50

Serial connection as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-SER9S BU3	Black	With D-Sub9 socket	3	50 x 50
EBG-SER9S LA	Black	With soldered connection	—	50 x 50

USB connection, Type A, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-USB2AS ST3	Black	USB 2.0 with Type A connector	3	50 x 50
EBG-USB3AS ST3	Black	USB 3.0 with Type A connector	—	50 x 50

2x USB connection, Type A, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-2USB2AS ST3	Black	USB 2.0 with Type A connector	3	50 x 50
EBG-2USB3AS ST3	Black	USB 3.0 with Type A connector	3	50 x 50

3x USB connection, Type A, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-3USB2AS ST3	Black	USB 2.0 with Type A connector	3	50 x 50
EBG-3USB3AS ST3	Black	USB 3.0 with Type A connector	3	50 x 50

Antenna connection, TV/radio, as slanting outlet

Type	Colour	Version	Connection cable length m	Dimension mm
EBG-TV R SST2.5	Black	With connector/socket	2.5	50 x 50

DBK - device installation solutions for customer-specific Deskbox

Selection switching devices and accessories

Flexkanal and installation accessories

Flexkanal

Type	Length mm	Colour	Pack. m	Weight kg/100 m	Item No.
FLK-2K LGR	1000	Light grey	1	28.760	6154 92 2
FLK-2K SWGR	1000	Black-grey	1	28.760	6154 93 0

/m

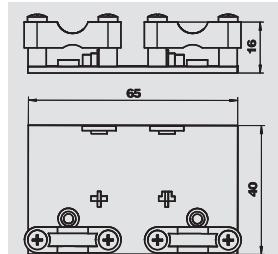

The Flexkanal runs your cables ordered and protected to the desk. It connects the Deskbox with the dado duct or with the floor connection box. When extended, the Flexkanal is 1,000 mm long, 60 mm wide and 20 mm high.

The trunking consists of two chambers, capacity per chamber:
two cables of 8.5 mm diameter or three cables of 7.5 mm diameter or
four cables of 7.0 mm diameter or five cables of 6.0 mm diameter.

Holder with strain relief for Flexkanal

Type	Colour	Pack. pcs	Weight kg/100 pcs	Item No.
FLK-HL ZL	Anthracite grey	1	1.030	6154 96 1

/pc.

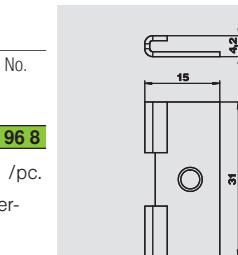

The holder possesses two integrated strain reliefs and can be screwed on. A Flexkanal can be mounted directly on the holder.

Fastening clamp for Flexkanal

Type	Pack. pcs	Weight kg/100 pcs	Item No.
FLK-BEF	1	0.150	6154 96 8

Al Aluminium

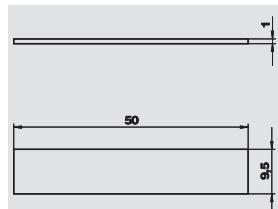

/pc.

The Flexkanal is suspended from the fastening clamp. The holder is fastened using a counter-sunk union.

Adhesive tapes for Flexkanal

Type	Length mm	Pack. pcs	Weight kg/100 pcs	Item No.
FLK-KL	50	1	0.100	6154 97 1

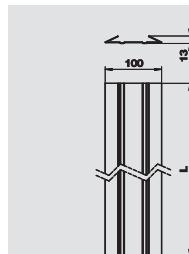

/pc.

Adhesive tape for fastening the Flexkanal.

Floor rail for Flexkanal

Type	Length mm	Colour	Pack. pcs	Weight kg/100 pcs	Item No.
FLK-BS1	1000	Anthracite grey	1	24.800	6154 98 0
FLK-BS2	2000	Anthracite grey	1	49.500	6154 98 3

/pc.

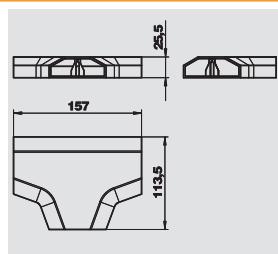

The Flexkanal is pushed directly into the floor rail. The ramp on both sides reduces the risk of stumbling.

Width: 100 mm

T branch for Flexkanal

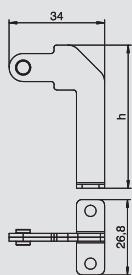

Type	Colour	Pack. pcs	Weight kg/100 pcs	Item No.
FLK-TAZ	Anthracite grey	1	8.680	6154 96 5

/pc.

T branch for supply of working places with the Flexkanal.

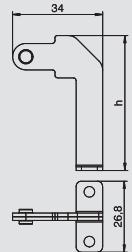

Fastening bracket for Flexkanal in GES service outlet with 5 mm floor covering recess

Type	Material symbol	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
FKH GES5	St	1	1.800	7407 86 0

St Steel FS Strip-galvanised /pc.

Fastening bracket to connect a Flexkanal to a GES service outlet with 5 mm floor covering recess.

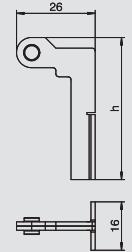

Fastening bracket for Flexkanal in GES service outlets with 10 mm floor covering recess

Type	Material symbol	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
FKH GES10	St	1	2.000	7407 86 2

St Steel FS Strip-galvanised /pc.

Fastening bracket to connect a Flexkanal to a GES service outlet with 10 mm floor covering recess.

Fastening bracket for Flexkanal in GESRM2 service outlets

Type	Material symbol	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
FKH GESRM	St	1	1.500	7407 86 4

St Steel FS Strip-galvanised /pc.

Fastening bracket to connect a Flexkanal to the service outlet GESRM2.

VH power supply units, IP20

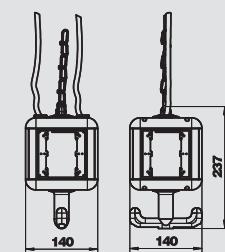

VH-4 power supply unit, empty housing

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4 LG	Graphite black	1	61.700	6109 80 0

PA Polyamide

Empty housing with suspension lug and grip hook, for the installation of four electrical resources, with included partition. Without cover plates

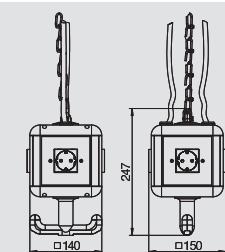

VH-4 power supply unit, 4x protective contact socket

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4 4SD	Graphite black	1	95.000	6109 80 2

PA Polyamide

Housing equipped and pre-wired with suspension lug, grip hook and four cover plates.

Equipped as follows: 4 x single protective contact sockets 16 A/250 V with increased touch protection, pre-wired for two AC currents, connection via 2 x 3-pin terminals, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

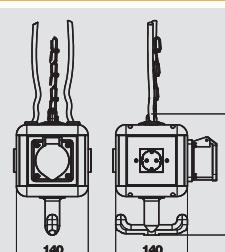

VH-4 power supply unit, 3x protective contact socket, 1x CEE 16 A

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4 3SD1C16	Graphite black	1	115.700	6109 80 4

PA Polyamide

Housing equipped and pre-wired with suspension lug, grip hook and four cover plates.

Equipped as follows: 3 x single protective contact sockets 16 A/250 V with increased touch protection, pre-wired for an AC current, connection via 1 x 3-pin terminal, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

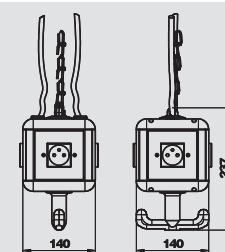

VH-4 power supply unit, 4x earthing pin socket

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4 4SF	Graphite black	1	95.000	6109 80 6

PA Polyamide

Housing equipped and pre-wired with suspension lug, grip hook and four cover plates.

Equipped as follows: 4 x single sockets with earthing pin 16 A/250 V with increased touch protection, pre-wired for two AC currents, connection via 2 x 3-pin terminals, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

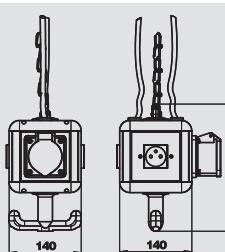

VH-4 power supply unit, 3x earthing pin socket, 1x CEE 16 A

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4 3SF1C16	Graphite black	1	115.700	6109 80 8

PA Polyamide

Housing equipped and pre-wired with suspension lug, grip hook and four cover plates.

Equipped as follows: 3 x single sockets with earthing pin 16 A/250 V with increased touch protection, pre-wired for an AC current, connection via 1 x 3-pin terminal, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

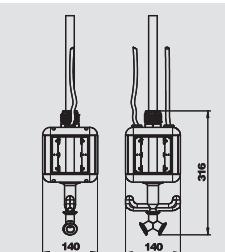

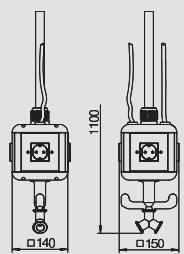

VH-4 power supply unit, empty housing, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4L LG	Graphite black	1	343.800	6109 81 0

PA Polyamide

Empty housing with 1 m pipe 1/2" and connection for compressed air hose 13 x 3.5 mm and 2-way distributor 1/2". With suspension lug and grip hook, for the installation of four electrical resources, with included partition. Without cover plates.

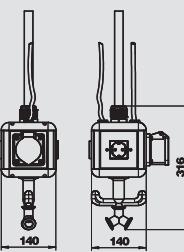

VH-4 power supply unit, 4x protective contact socket, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4L 4SD	Graphite black	1	428.600	6109 81 2

PA Polyamide /pc.

Housing equipped and pre-wired, with 1 m pipe 1/2" and connection for compressed air hose 13 x 3.5 mm and 2-way distributor 1/2", with suspension lug, grip hook and four cover plates.

Equipped as follows: 4 x single protective contact sockets 16 A/250 V with increased touch protection, pre-wired for two AC currents, connection via 2 x 3-pin terminals, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

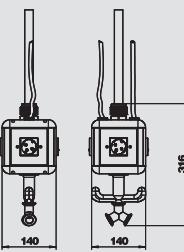

VH-4 power supply unit, 3x protective contact socket, 1x CEE 16 A, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4L 3SD1C16	Graphite black	1	440.000	6109 81 4

PA Polyamide /pc.

Housing equipped and pre-wired, with 1 m pipe 1/2" and connection for compressed air hose 13 x 3.5 mm and 2-way distributor 1/2", with suspension lug, grip hook and four cover plates.

Equipped as follows: 3 x single protective contact sockets 16 A/250 V with increased touch protection, pre-wired for an AC current, connection via 1 x 3-pin terminal, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

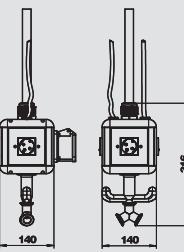

VH-4 power supply unit, 4x earthing pin socket, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4L 4SF	Graphite black	1	428.600	6109 81 6

PA Polyamide /pc.

Housing equipped and pre-wired, with 1 m pipe 1/2" and connection for compressed air hose 13 x 3.5 mm and 2-way distributor 1/2", with suspension lug, grip hook and four cover plates.

Equipped as follows: 4 x single sockets with earthing pin 16 A/250 V with increased touch protection, pre-wired for two AC currents, connection via 2 x 3-pin terminals, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

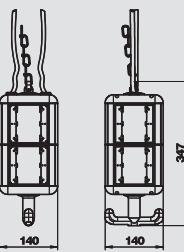

VH-4 power supply unit, 3x earthing pin socket, 1x CEE 16 A, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4L 3SF1C16	Graphite black	1	440.000	6109 81 8

PA Polyamide /pc.

Housing equipped and pre-wired, with 1 m pipe 1/2" and connection for compressed air hose 13 x 3.5 mm and 2-way distributor 1/2", with suspension lug, grip hook and four cover plates.

Equipped as follows: 3 x single sockets with earthing pin 16 A/250 V with increased touch protection, pre-wired for an AC current, connection via 1 x 3-pin terminal, 1 x CEE socket 16 A/415 V, with partition for circuit separation.

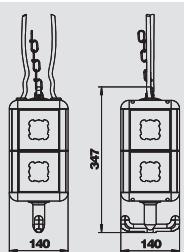

VH-8 power supply unit, empty housing

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-8 LG	Graphite black	1	88.200	6109 82 1

PA Polyamide /pc.

Empty housing with suspension lug and grip hook, for the installation of eight electrical resources, with included partition. Without cover plates.

VH-8 power supply unit, empty housing, with cover plates

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-8 LG8P2	Graphite black	1	123.400	6109 82 0

PA Polyamide /pc.

Empty housing with suspension lug and grip hook, for the installation of eight electrical resources, with included partition. With eight cover plates for accessories with concealed support ring or support bracket.

VH power supply units, IP20

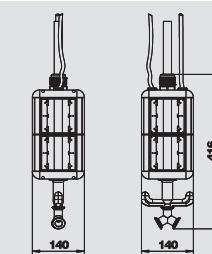

VH-8 power supply unit, empty housing, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-8L LG	Graphite black	1	300.000	6109 82 5

PA Polyamide /pc.

Empty housing with 1 m pipe 1/2" and connection for compressed air hose 13 x 3.5 mm and 2-way distributor 1/2". With suspension lug and grip hook, for the installation of electrical resources, with included partition. Without cover plates.

Tension spring VH

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
VH-F80	1	34.710	6109 83 1

St Steel /pc.

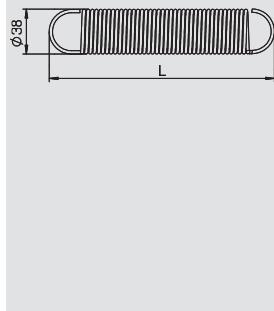

Tension spring for VH-4 and VH-8 with German eyelet.

Fmax.= 80 N

L0 = 200 mm

Ln = 500 mm (for Fmax.)

Material: Sprung steel ø 2.8 mm

Knotted chain

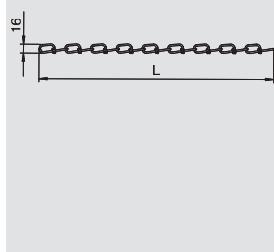

Type	Designation	Pack.	Weight	Item No.
		m	kg/100 m	
VH-K800	sold by the metre	1	20.000	6109 87 0

St Steel /m

Knotted chain made of pre-copper-plated steel, nickel-plated, according to DIN 5686.

Max. tensile force: 800 N.

Note: Specify the required chain length during ordering.

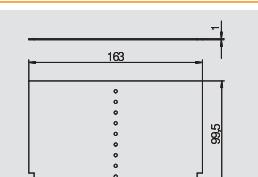

Partition VH-4

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-4 TW	Graphite black	1	2.350	6109 83 2

PVC Polyvinylchloride /pc.

Additional partition wall for reciprocal insulation of three different power circuits and types. Version for VH-4.

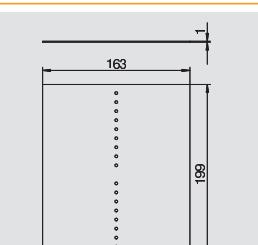

Partition VH-8

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-8 TW	Graphite black	1	4.890	6109 86 2

PVC Polyvinylchloride /pc.

Additional partition wall for reciprocal insulation of three different power circuits and types. Version for VH-8.

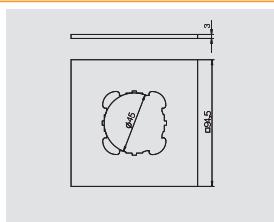

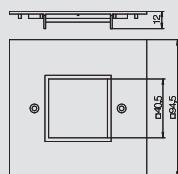

Cover plate VH, for EK and EKR devices

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-P2	Rape yellow	1	2.300	6109 83 4

PA Polyamide /pc.

Cover plate with opening Ø 45 mm for the installation of a device with concealed support ring or support clamp.

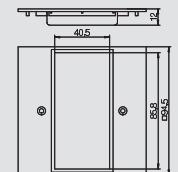

Cover plate VH, for Modul 45 devices, single

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-P4	Rape yellow	1	2.030	6109 84 0
PA	Polyamide		/pc.	

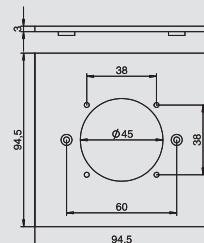

Cover plate to install a single Modul 45 socket.

Cover plate VH, for Modul 45 devices, double

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-P5	Rape yellow	1	1.830	6109 83 6
PA	Polyamide		/pc.	

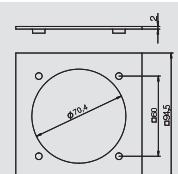

Cover plate to install a double Modul 45 socket.

Cover plate VH, for devices with 38 x 38 mm fastening system

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-P7	Rape yellow	1	1.890	6109 83 9
PA	Polyamide		/pc.	

Cover plate with opening for the installation of a socket with 38 x 38 mm fastening system.

Cover plate VH, for CEE connection unit

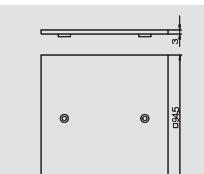

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-P3	Rape yellow	1	1.870	6109 83 8
PA	Polyamide		/pc.	

Cover plate with a Ø 70 mm opening for the installation of a CEE socket 16/32 A with 60 mm fastening track, including four fastening screws.

Information on equipment:

Max. 2 CEE sockets 16/32 A in a power supply unit VH-4

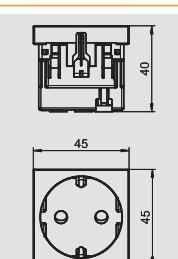

Max. 4 CEE sockets 16/32 A in a power supply unit VH-8

VH cover plate as blanking cover

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VH-P1	Rape yellow	1	3.000	6109 84 2
PA	Polyamide		/pc.	

Cover plate as blanking cover.

Socket 0°, protective contact, single

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SKS-D0 RW1	Pure white	20	3.800	6117 00 1
PC	Polycarbonate		/pc.	

Power socket single 0°, with increased touch protection with screwless terminals, 2-pin, 16 A, 250 V~, with connection terminals to IEC 60884-1.

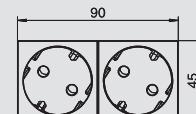

VH power supply units, IP20

Socket 33°, protective contact, double

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SKS-D3 RW2	Pure white	10	7.500	6117 05 2
PC	Polycarbonate		/pc.	

Power socket double 33°, with increased touch protection with screwless terminals, 2-pin, 16 A, 250 V~, with connection terminals to IEC 60884-1.

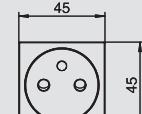

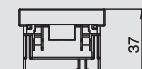

Socket 0°, with earthing pin, single

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SKS-F0 RW1	Pure white	20	3.800	6117 10 2
PC	Polycarbonate		/pc.	

Socket with earthing pin single 0°, with increased touch protection with screwless terminals, 2-pin, 16 A, 250 V~, with connection terminals to IEC 60884-1.

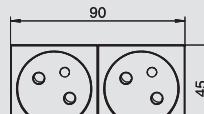

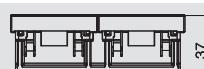

Socket 33°, with earthing pin, double

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SKS-F3 RW2	Pure white	10	7.500	6117 15 1
PC	Polycarbonate		/pc.	

Socket with earthing pin double 33°, with increased touch protection with screwless terminals, 2-pin, 16 A, 250 V~, with connection terminals to IEC 60884-1.

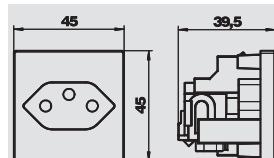

Socket 0°, Switzerland, single

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SKS-CH0 RW1	Pure white	1	3.400	6117 20 0
PC	Polycarbonate		/pc.	

Socket, single 0°, to Swiss standard (SEV), with screwless terminals, 2-pin, 16 A, 250 V~, type 13, with connection terminals to IEC 60884-1.

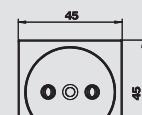

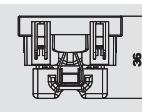

Socket 0°, Denmark, single

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SKS-DK0 RW1	Pure white	20	3.050	6117 20 2
PC	Polycarbonate		/pc.	

Socket, single 0°, to Danish standard, with increased touch protection, with screw terminals, 2-pin, 16 A, 250 V~, with connection terminals to IEC 60884-1.

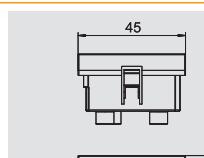

Socket 0°, British Standard, single

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
SKS-BSL0 RW1	Pure white	10	3.810	6117 20 6
PC	Polycarbonate		/pc.	

Socket, single 0°, according to British Standard, with increased touch protection, with screw terminals, 2-pin, 13 A 250 V~.

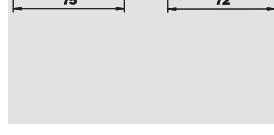

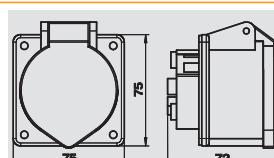

CEE connection unit, 16 A

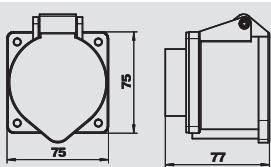

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
CEE-16A	1	19.100	6109 87 4
PC		/pc.	

CEE socket with 60 mm fastening track, 3-pin + N + PE, 400 V, 16 A, 6 h.

VH power supply units, IP20

Type	Pack.	Weight	Item No.
CEE-32A	1	20.400	6109 87 6

CEE socket with 60 mm fastening track, 3-pin + N + PE, 400 V, 32 A, 6 h.

VHF power supply units, IP44

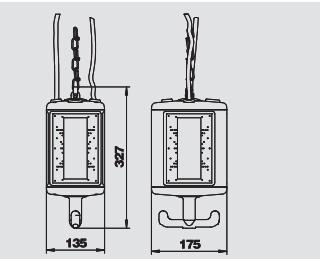

VH-8 power supply unit, empty housing

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-8 LG	Graphite black	1	105.000	6109 82 2

PA Polyamide

Empty housing with suspension lug and grip hook, for the installation of electrical resources, with included partition. Without cover plates to supply workplaces in wet areas. Protection rating: IP 44.

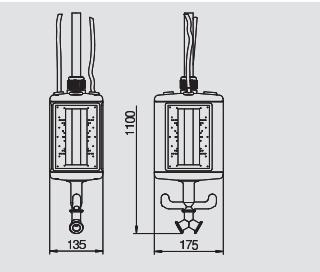

VH-8 power supply unit, empty housing, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-8L LG	Graphite black	1	400.000	6109 82 7

PA Polyamide

Empty housing with 1 m pipe 1/2" and connection for compressed air hose 13 x 3.5 mm and 2-way distributor 1/2". With suspension lug and grip hook, for the installation of electrical resources, with included partition. Without cover plates to supply workplaces in wet areas. Protection rating: IP 44.

Tension spring VHF

Type		Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-F100		1	34.710	6109 83 0

St Steel

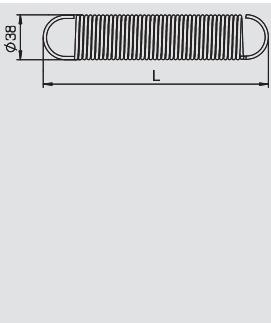

Tension spring for VHF-8 with German eyelet.

Fmax.= 100 N

L0 = 200 mm

Ln = 500 mm (for Fmax.)

Material: Sprung steel ø 3.2 mm

Knotted chain

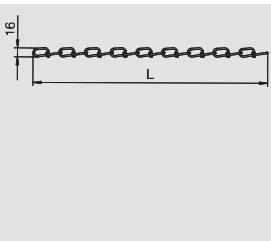

Type	Designation	Pack.	Weight	Item No.
		m	kg/100 m	
VH-K800	sold by the metre	1	20.000	6109 87 0

St Steel

Knotted chain made of pre-copper-plated steel, nickel-plated, according to DIN 5686.

Max. tensile force: 800 N.

Note: Specify the required chain length during ordering.

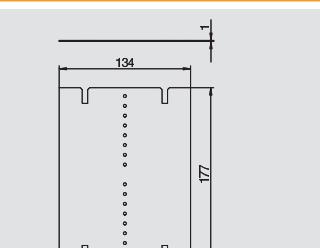

Partition VHF, without compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-TW	Graphite black	1	3.520	6109 86 0

PVC Polyvinylchloride

Additional partition wall for reciprocal insulation of three different power circuits and types.

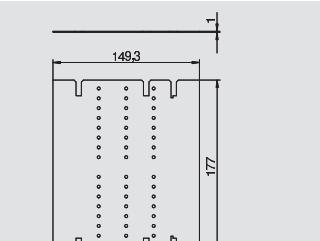

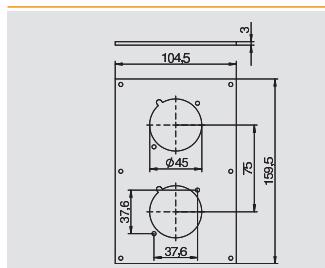

Partition VHF, with compressed air connection

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-TW L	Graphite black	1	3.900	6109 86 1

PVC Polyvinylchloride

Additional partition wall for reciprocal insulation of three different power circuits and types.

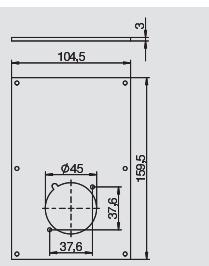

Cover plate VHF, for 2 installation sockets, Type S901F

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P10	Rape yellow	1	6.380	6109 86 3
PVC	Polyvinylchloride		/pc.	

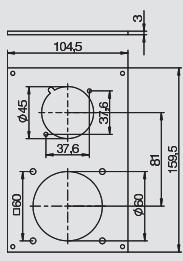

Cover plate with two Ø 45 mm openings for the installation of 2x power sockets with hinged cover (type S901F).

Cover plate VHF, for installation socket, Type S901F

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P9	Rape yellow	1	6.350	6109 86 6
PVC	Polyvinylchloride		/pc.	

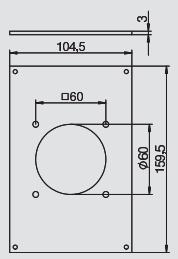

Cover plate with a Ø 45 mm opening for the installation of 1x power socket with hinged cover (type S901F).

Cover plate VHF, for installation socket, Type S901F and CEE connection unit

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P11	Rape yellow	1	6.230	6109 86 4
PVC	Polyvinylchloride		/pc.	

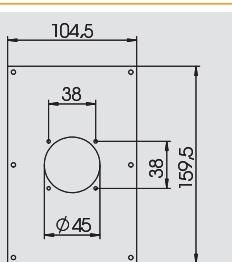

Cover plate with a Ø 45 mm opening for the installation of a power socket with hinged cover (type S901F) and a Ø 70 mm opening for the installation of a CEE socket 16/32A with 60 mm fastening track.

Cover plate VHF, for CEE connection unit

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P3	Rape yellow	1	7.000	6109 86 5
PVC	Polyvinylchloride		/pc.	

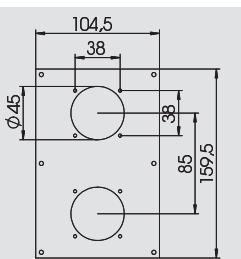

Cover plate with a Ø 70 mm opening for the installation of 1x CEE socket 16/32 A with 60 mm fastening track.

Cover plate VHF, for one device with 38 x 38 mm fastening system

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P7	Rape yellow	1	6.600	6109 87 8
PVC	Polyvinylchloride		/pc.	

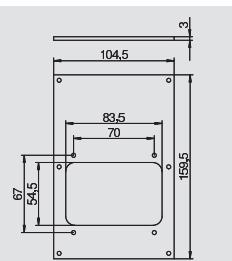

Cover plate with opening for the installation of a socket with 38 x 38 mm fastening system.

Cover plate VHF, for 2 devices with 38 x 38 mm fastening system

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P8	Rape yellow	1	5.900	6109 87 9
PVC	Polyvinylchloride		/pc.	

Cover plate with opening for the installation of two sockets with 38 x 38 mm fastening system.

Cover plate VHF for protective equipment installation

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P6	Rape yellow	1	5.350	6109 86 7
PVC	Polyvinylchloride		/pc.	

Cover plate with cut out for the installation of a cover above protection unit (type VHF-AE4TE). Maximum equipment corresponds to four units.

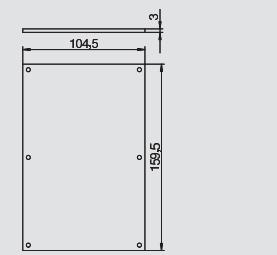

VHF power supply units, IP44

Cover plate VHF as blanking cover

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
VHF-P1	Rape yellow	1	7.000	6109 86 8
PVC	Polyvinylchloride			/pc.

Cover plate as blanking cover.

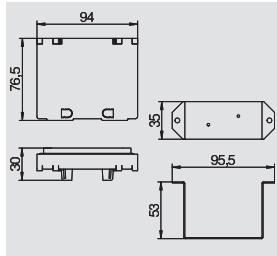

VHF protective unit construction, cover and support clamp

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
VHF-AE4TE	1	12.800	6109 85 0

Cover and support clamp for the installation of protective equipment such as miniature circuit-breakers or FI protection switches to max. four units.

Note: Use only in conjunction with the supports VHF-T1 or VHF-T2.

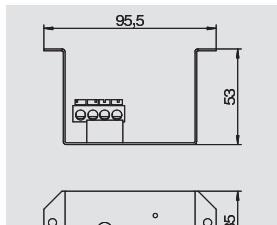

VHF protective unit construction, support with PE terminal strip

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
VHF-T1	1	6.730	6109 85 2

St Steel

Support with PE terminal strip for installation of FI protection switches, consisting of:

- Base element with hat rail 35 mm and PE terminal strip 4 x 10 mm²
- Fastening material

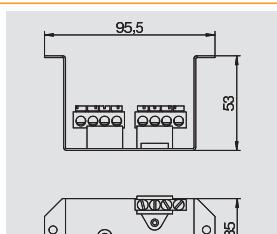

VHF protective unit construction, support with N + PE terminal strip

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
VHF-T2	1	8.380	6109 85 4

St Steel

Support with N and PE terminal strip for installation of miniature circuit-breakers, consisting of:

- Base element with hat rail 35 mm, N terminal strip 4 x 10 mm² and PE terminal strip 4 x 10 mm²
- Fastening material

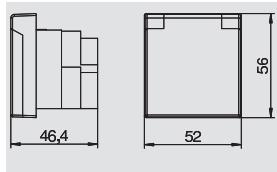

Installation socket 45°, protective contact, with hinged cover, Type S901F

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
S901F	Graphite black	1	7.500	6109 87 2

/pc.

Single 45° power socket with hinged cover, for locking into the mounting opening of the cover plate. Protection rating: IP 44.

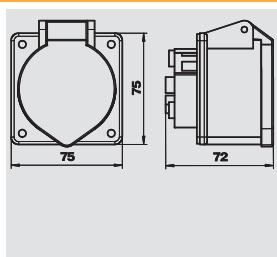

CEE connection unit, 16 A

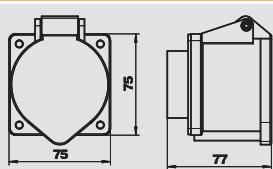

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
CEE-16A	1	19.100	6109 87 4

/pc.

CEE socket with 60 mm fastening track, 3-pin + N + PE, 400 V, 16 A, 6 h.

VHF power supply units, IP44

Type	Pack.	Weight	Item No.
CEE-32A	1	kg/100 pcs. 20.400	6109 87 6 /pc.

CEE socket with 60 mm fastening track, 3-pin + N + PE, 400 V, 32 A, 6 h.

Blanking plate for closing off a mounting opening on a Consolidation Point housing.

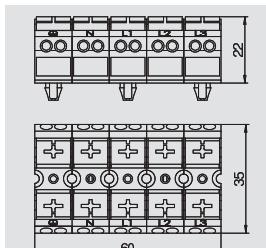

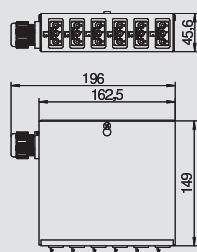

Terminal strip

Type	Colour	Pack.	Weight	Item No.
		pcs	kg/100 pcs.	
CP45-KL	Black	1	2.000	6108 04 3

Screwless terminal strip with locking foot, 5-pin for a cable cross-section of 0.5–4 mm².

UVS energy distributor, with 5-pin fixed connection, 6x 3-pin output sockets in black

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.	
UVS-6S2	1	77.000	6108 00 0

St Steel

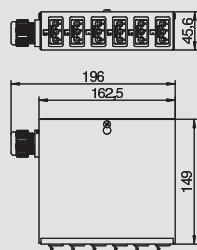

/pc.

Energy distributor for heavy current technology with fixed connection, equipped and pre-wired.

Input: One 3-phase circuit via a screwless terminal block, 5-pin, for cable cross-sections of 0.5–4 mm².

Output: Six self-locking connectors, 3-pin, in black, 16 A, type GST18i (socket part: 2 x L1, 2 x L2, 2 x L3).

Internal wiring: PVC non-sheathed cable H07V-U2.5.

UVS energy distributor, with 5-pin fixed connection, 6x 3-pin output sockets in white

Type	Pack.	Weight	Item No.
	pcs	kg/100 pcs.

Alphabetical table of contents

2

- 2-channel radio transmitter, EnOcean, 169, 177, 185
- 2x BNC connection, 1 module, slanting outlet, as 1:1, 135 coupling
- 2x BNC connection, 1 module, straight outlet, as 1:1, 135 coupling
- 2x data technology connection GG45, Nexans, 167
- 2x data technology connection GG45, Nexans, as, 175, 183 slanting outlet
- 2x data technology connection RJ45, 1:1 coupling,, 175, 183 as slanting outlet
- 2x data technology connection RJ45, Nexans, 167
- 2x data technology connection RJ45, Nexans, as, 175, 183 slanting outlet
- 2x data technology connection RJ45, R&M, as, 175, 182 slanting outlet
- 2x telephone connection RJ11, as slanting outlet, 175, 183
- 2x USB connection, Type A, as slanting outlet, 176, 184

3

- 3-wire connection cable, halogen-free, cross-section, 210-210 2.5 mm², black
- 3-wire connection cable, halogen-free, cross-section, 210-210 2.5 mm², white
- 3-wire connection cable, PVC, cross-section 1.5 mm², 209-209 black
- 3-wire connection cable, PVC, cross-section 1.5 mm², 209-209 white
- 3-wire connection cable, PVC, cross-section 2.5 mm², 209-209 black
- 3-wire connection cable, PVC, cross-section 2.5 mm², 210-210 white
- 3x USB connection, Type A, as slanting outlet, 176, 184

4

- 4-channel radio transmitter, EnOcean, 169, 177, 185

A

- Adapter for switch installation rotated through 90°, 108
- Adhesive tapes for Flexkanal, 186
- Antenna connection coupling, 1/2 modules, SAT, 135
- Antenna connection, TV/radio, 168
- Antenna connection, TV/radio, as slanting outlet, 176, 184
- Antenna socket, 1 module, TV/radio, pass-through, 136 socket
- Antenna socket, 1 module, TV/radio, single socket, 136
- Antenna socket, 1 module, TV/radio/SAT, single, 136 socket
- Audio cinch connection, 1 module, slanting outlet, as, 132 1:1 coupling
- Audio cinch connection, 1 module, slanting outlet, as, 132 soldered connection
- Audio cinch connection, 1 module, straight outlet, as, 132 1:1 coupling
- Audio cinch connection, 1 module, straight outlet, as, 132 soldered connection
- Audio connection, 1x jack, 168
- Audio connection, 1x jack, as slanting outlet, 176, 184
- Audio connection, 2x cinch, 168
- Audio connection, 2x cinch, as slanting outlet, 176, 183
- Audio connection, 2x jack, 168
- Audio connection, 2x jack, as slanting outlet, 176, 183
- Audio/video cinch connection, 1 module, slanting, 134 outlet, as 1:1 coupling
- Audio/video cinch connection, 1 module, slanting, 134 outlet, as soldered connection
- Audio/video cinch connection, 1 module, straight, 134 outlet, as 1:1 coupling
- Audio/video cinch connection, 1 module, straight, 133 outlet, as soldered connection

B

- Blanking cover, 1 module, 112
- Blanking cover, 1/2 module, 112

B

- BNC connection, 1 module, slanting outlet, as 1:1, 134 coupling
- BNC connection, 1 module, straight outlet, as 1:1, 134 coupling

C

- Cable outlet, 1 module, 112
- Cavity wall accessory socket, 1.5x, 142
- Cavity wall accessory socket, double, 143
- Cavity wall accessory socket, single, 140
- Cavity wall accessory socket, triple, 144
- Cavity wall accessory/connection socket, single, 140
- Cavity wall double accessory socket, 2x single, 140
- CEE connection unit, 16 A, 196, 200
- CEE connection unit, 32 A, 197, 201
- Changeover switch, 1 module, 106, 108
- Changeover switch, 1/2 module, 106-107
- Changeover switch, 1/2 module, can be lit with LED, 106, 108 element
- Changeover switch, 1/2 module, with labelling panel, 106-107
- Circuit-breaker, 166, 174, 182
- Circular band saw for Deskbox DBV, 171
- Complete unit, 4x 33° protective contact socket, for, 102 conventional cable connection
- Complete unit, 4x 33° protective contact socket, with, 102 pluggable cable connection GST18
- Complete unit, single, as expansion module, 2, 147 protective contact sockets with control light
- Complete unit, triple, 2x2 earthing pin sockets, 1x, 148 data technology support
- Complete unit, triple, 2x2 protective contact sockets, 147 with control light, 1x data technology support
- Component video connection, 1 module, slanting, 133 outlet, as 1:1 coupling
- Component video connection, 1 module, slanting, 133 outlet, as soldered connection
- Component video connection, 1 module, straight, 133 outlet, as 1:1 coupling
- Component video connection, 1 module, straight, 133 outlet, as soldered connection
- Component video connection, 3x cinch, 168
- Component video connection, 3x cinch, as slanting, 176, 184 outlet
- Concealed accessory socket Modul 45, single, 140
- Concealed accessory socket, 1.5x, 142
- Concealed accessory socket, double, 143
- Concealed accessory socket, triple, 144
- Concealed device/connection socket, single, 140
- Connection adapter, GST18i, straight, 101
- Connection adapter, socket, Modul 45connect®, 101
- Connection adapter, straight, connector part, 100
- Connection adapter, straight, socket part, 101
- Connection adapter, U-shaped, connector part, 101
- Connection combination, 1x cinch, 1x jack, 168
- Connection combination, 1x cinch, 1x jack, as, 176, 184 slanting outlet
- Connection combination, 1x VGA, 1x jack, 168
- Connector part 3-pin, spring power connection, 207
- Connector part, 3-pin, screw connection, 207
- Connector part, 5-pin, screw connection, 208
- Cover frame AR45, double, 153
- Cover frame AR45, double, with labelling panel for, 153 horizontal device installation
- Cover frame AR45, double, with labelling panel for, 153 vertical device installation
- Cover frame AR45, single, 152
- Cover frame AR45, single, with labelling panel for, 152 horizontal device installation
- Cover frame AR45, single, with labelling panel for, 152 vertical device installation
- Cover frame AR45, triple, 154
- Cover frame AR45, triple, with labelling panel for, 154 horizontal device installation

C

- Cover frame AR50, single, 155
- Cover frame, 1.5x, for 1.5-module devices, 143
- Cover frame, 1.5x, for 1/2-module devices, 142
- Cover frame, 1.5x, for 1-module devices, 142
- Cover frame, 2x single, 141
- Cover frame, 2x single, with separating retainer, 147
- Cover frame, 3x single, 141
- Cover frame, double, 143
- Cover frame, double, for protective equipment, 147
- installation
- Cover frame, double, with seat for one glow lamp, 146
- element
- Cover frame, single, 141
- Cover frame, single, for 1/2-module devices, 141
- Cover frame, triple, 144
- Cover plate VH, for CEE connection unit, 195
- Cover plate VH, for devices with 38 x 38 mm, 195
- fastening system
- Cover plate VH, for EK and EKR devices, 194
- Cover plate VH, for Modul 45 devices, double, 195
- Cover plate VH, for Modul 45 devices, single, 195
- Cover plate VHF as blanking cover, 200
- Cover plate VHF for protective equipment installation, 199
- Cover plate VHF, for 2 devices with 38 x 38 mm, 199
- fastening system
- Cover plate VHF, for 2 installation sockets, Type, 199
- S901F
- Cover plate VHF, for CEE connection unit, 199
- Cover plate VHF, for installation socket, Type S901F, 199
- Cover plate VHF, for installation socket, Type S901F, 199
- and CEE connection unit
- Cover plate VHF, for one device with 38 x 38 mm, 199
- fastening system
- CP empty housing, 204
- CP support plate, as blanking cover, 204
- CP support plate, as cable outlet, 204
- CP support plate, for Modul 45® devices, double, 204
- CP universal cable RJ45, Cat. 6, shielded, 117
- CP universal cable RJ45, Cat. 6, unshielded, 117
- CP universal cable RJ45, Cat. 6A (ISO), shielded, 118
- CP universal cable RJ45, Cat. 6A (ISO), unshielded, 118
- Cross switch, 1 module, 108

 Socket 0°, with earthing pin, triple, 93
 Socket 30°, British Standard, 165, 181
 Socket 30°, British Standard, with 3.15 A fuse, 165, 181
 Socket 30°, British Standard, with 5 A fuse, 165, 181
 Socket 33°, protective contact, double, 92, 100, 196
 Socket 33°, protective contact, single, 92
 Socket 33°, protective contact, triple, 93, 100
 Socket 33°, with earthing pin, double, 94, 100, 196
 Socket 33°, with earthing pin, encoded version,, 95
 double
 Socket 33°, with earthing pin, encoded version,, 94
 single
 Socket 33°, with earthing pin, encoded version, triple, 95
 Socket 33°, with earthing pin, single, 93
 Socket 33°, with earthing pin, triple, 94, 100
 Socket 60°, Australia, 166, 173, 181
 Socket 60°, China, 166, 174, 181
 Socket 60°, Denmark, 173, 181
 Socket 60°, Denmark, IT-encoded, 173, 181
 Socket 60°, protective contact, 165, 173, 181
 Socket 60°, Switzerland, 10 A, 165, 173, 181
 Socket 60°, Switzerland, 16 A, 165, 173, 181
 Socket 60°, USA, 166, 174, 182
 Socket 60°, with earthing pin, 165, 173, 181
 Socket 90°, British Standard, 173
 Socket 90°, British Standard, with 3.15 A fuse, 173
 Socket 90°, British Standard, with 5 A fuse, 173
 Socket section 3-pin, screw connection, 207
 Socket section 3-pin, spring power connection, 207
 Socket section 5-pin, screw connection, 208
 Socket unit AR45, double, 156
 Socket unit AR45, double, with labelling panel for, 156
 horizontal device installation
 Socket unit AR45, single, 156
 Socket unit AR45, single, with labelling panel for, 156
 horizontal device installation
 Socket unit AR45, triple, 157
 Socket unit AR45, triple, with labelling panel for, 157
 horizontal device installation
 Socket unit CEE, single, 16 A, 157
 Socket unit CEE, single, 32 A, 157
 Stainless steel fastening stand for Deskbox DB, 163
 Strain relief, 96, 101
 Strain relief for service unit, 152-155
 Support for cavity wall installation 2x double, 145
 Support for cavity wall installation 3x double, 145
 Support for cavity wall installation 4x double, 146
 Support for cavity wall installation 5x double, 146
 Support for cavity wall installation 6x double, 146
 Support plate, 1.5x, 142
 Support plate, double, 143
 Support plate, triple, 144
 Support plate, with fastening claw, single, 141
 Support plate, without fastening claw, single, 141

S

Surface-mounted housing, basic configuration, 2x, 145
 double
 Surface-mounted housing, expansion module, double, 145
 Surface-mounted housing, expansion module, double,, 145
 with seat for one glow lamp element
 Surge protection device, 1/2 module, acoustic, 111
 signalling
 Surge protection device, 1/2 module, visual signalling, 111
 Surge protection device, acoustic signalling, 111
 Surge protection module, 96, 101
 Surge protection module with support for Modul, 102
 45connect
 Switch, 169, 177, 185
 Switch, slanting outlet, 177

T

T branch for Flexkanal, 186
 TAE telephone connection socket, 1 module, F, 111
 version
 Telephone connection RJ11, 167
 Telephone connection RJ11, as slanting outlet, 175, 183
 Tension spring VH, 194
 Tension spring VHF, 198
 Terminal strip, 204
 Top for relay insert, 180° motion detector, 110
 Top for relay insert, roller blind timer, 109
 Top for relay insert, room thermostat, 110
 Top for relay insert, timer, 109
 Touch dimmer, 1/2 module, for electronic, 109
 transformers and ohmic loads
 Touch dimmer, 1/2 module, for ohmic and inductive, 109
 loads

U

USB 2.0 connection, 1 module, slanting outlet, as, 129
 screw connection
 USB 2.0 connection, 1 module, slanting outlet, with, 130
 connection cable
 USB 2.0 connection, 1 module, straight outlet, as, 129
 screw connection
 USB 2.0 connection, 1 module, straight outlet, with, 129
 connection cable
 USB 3.0 connection, 1 module, slanting outlet, as, 130
 screw connection
 USB 3.0 connection, 1 module, slanting outlet, with, 130
 connection cable
 USB 3.0 connection, 1 module, straight outlet, as, 130
 screw connection
 USB 3.0 connection, 1 module, straight outlet, with, 130
 connection cable
 USB charger, USB Type A, double, 166, 174, 182
 USB connection, Type A, 168
 USB connection, Type A, as slanting outlet, 176, 184
 UVS energy distributor, with 3-pin plug connection, 6x, 206
 3-pin output sockets in black
 UVS energy distributor, with 3-pin plug connection, 6x, 206
 3-pin output sockets in white
 UVS energy distributor, with 5-pin fixed connection, 6x, 205
 3-pin output sockets in black
 UVS energy distributor, with 5-pin fixed connection, 6x, 205
 3-pin output sockets in white
 UVS energy distributor, with 5-pin fixed connection, 6x, 205
 3-pin output sockets in black
 UVS energy distributor, with 5-pin plug connection, 6x, 206
 3-pin output sockets in black and white
 UVS energy distributor, with 5-pin plug connection, 6x, 205
 3-pin output sockets in white
 UVS energy distributor, with 5-pin plug connection, 6x, 205
 3-pin output sockets in black
 UVS energy distributor, with 5-pin plug connection, 6x, 206
 3-pin output sockets in black and white
 UVS energy distributor, with 5-pin plug connection, 6x, 205
 3-pin output sockets in white

V

VGA connection, 167
 VGA connection as slanting outlet, 175, 183

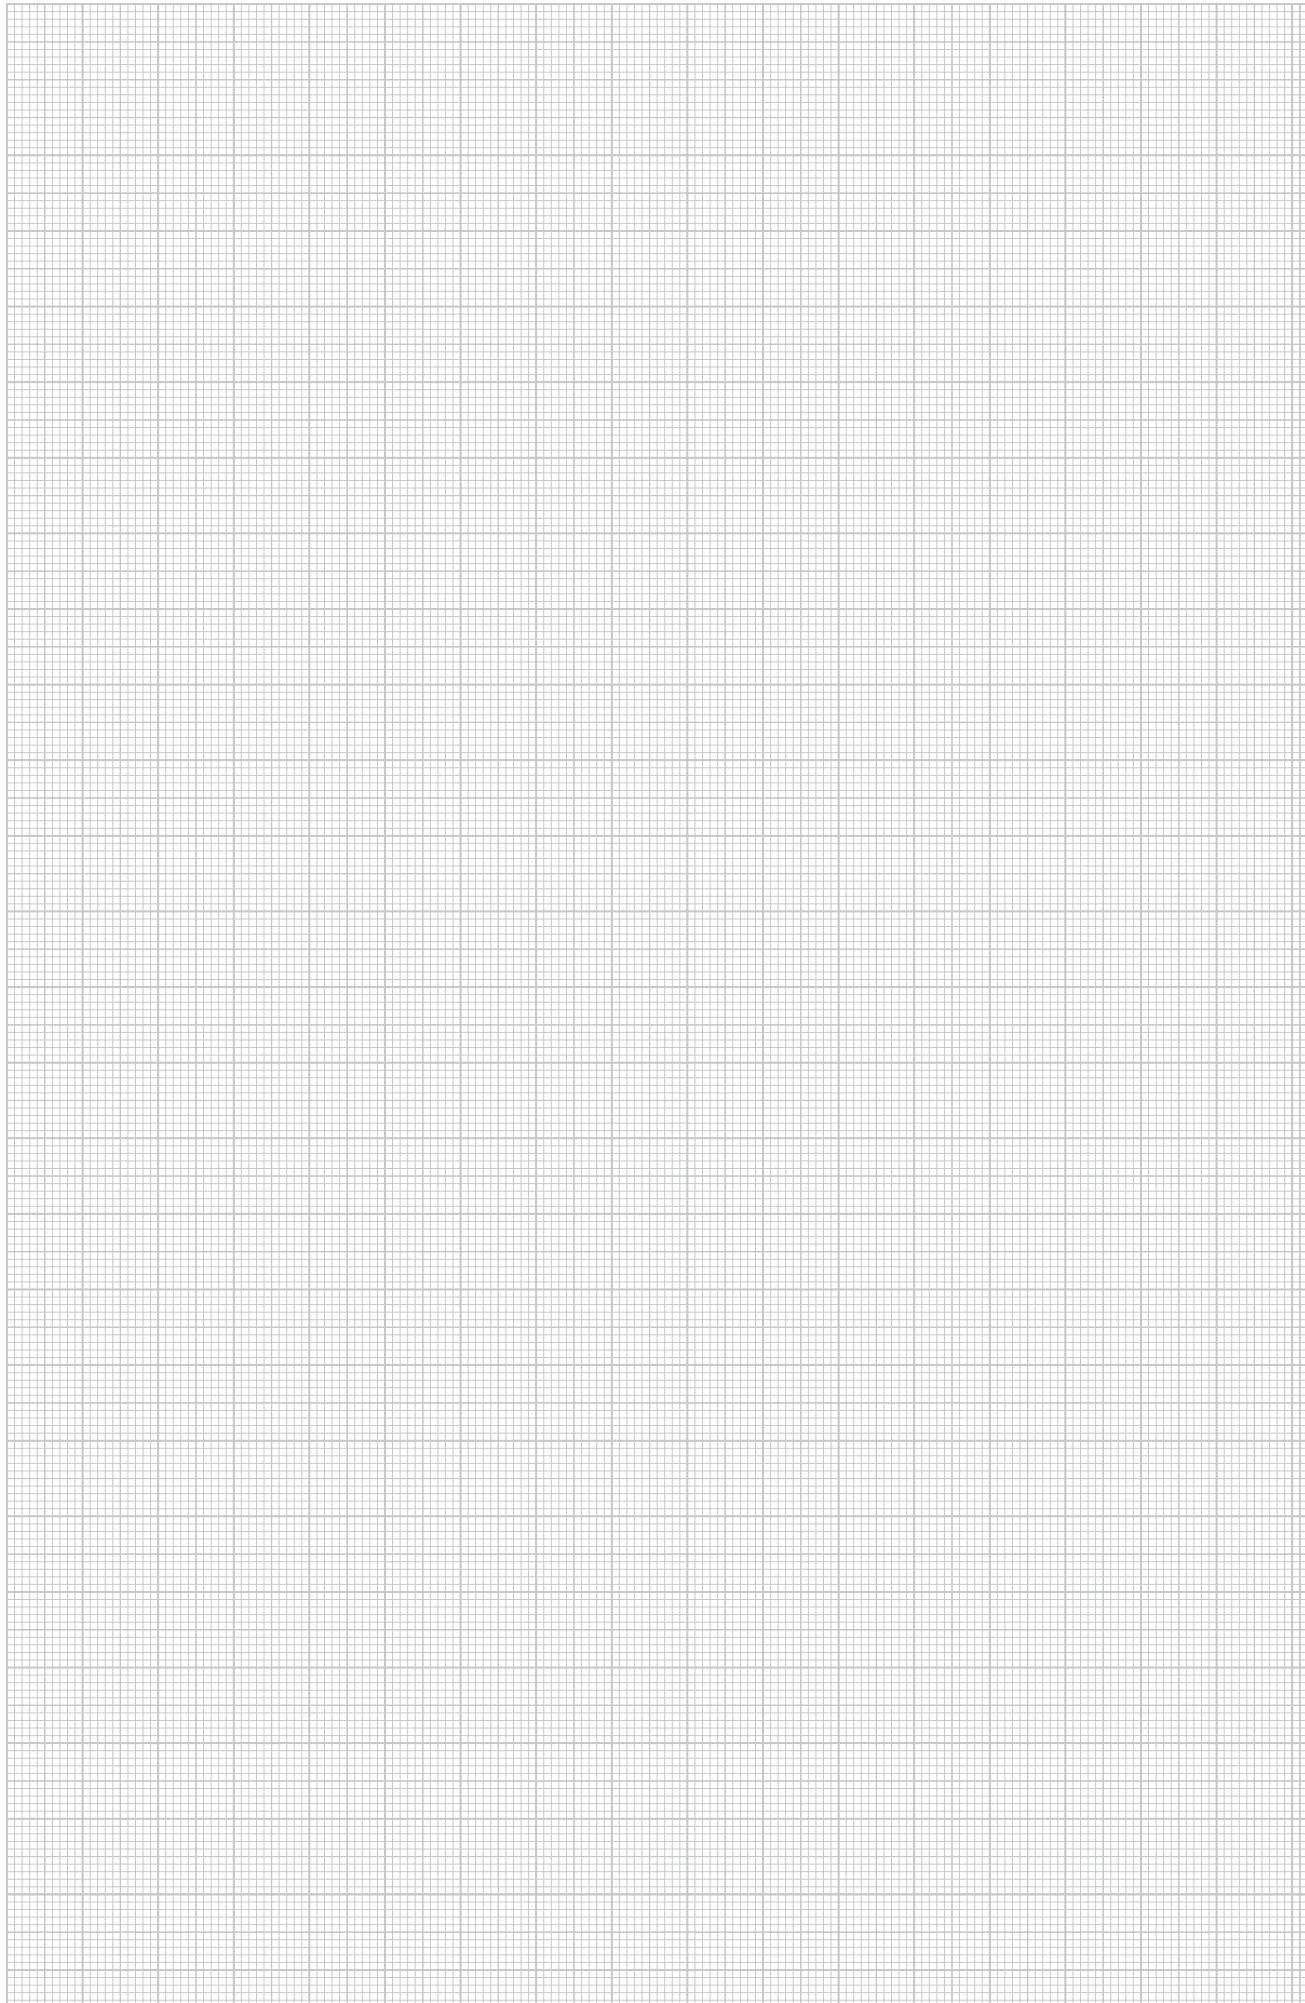

Alphabetical table of contents

V

VGA connection, 1 module, slanting outlet, as screw, 126
connection
VGA connection, 1 module, slanting outlet, with, 126
connection cable
VGA connection, 1 module, straight outlet, as screw, 126
connection
VGA connection, 1 module, straight outlet, with, 126
connection cable
VH cover plate as blanking cover, 195
VH-4 power supply unit, 3x earthing pin socket, 1x, 192
CEE 16 A
VH-4 power supply unit, 3x earthing pin socket, 1x, 193
CEE 16 A, with compressed air connection
VH-4 power supply unit, 3x protective contact socket,, 192
1x CEE 16 A
VH-4 power supply unit, 3x protective contact socket,, 193
1x CEE 16 A, with compressed air connection
VH-4 power supply unit, 4x earthing pin socket, 192
VH-4 power supply unit, 4x earthing pin socket, with, 193
compressed air connection
VH-4 power supply unit, 4x protective contact socket, 192
VH-4 power supply unit, 4x protective contact socket,, 193
with compressed air connection
VH-4 power supply unit, empty housing, 192
VH-4 power supply unit, empty housing, with, 192
compressed air connection
VH-8 power supply unit, empty housing, 193, 198
VH-8 power supply unit, empty housing, with, 194, 198
compressed air connection
VH-8 power supply unit, empty housing, with cover, 193
plates
VHF protective unit construction, cover and support, 200
clamp
VHF protective unit construction, support with N + PE, 200
terminal strip
VHF protective unit construction, support with PE, 200
terminal strip
Video cinch connection, 1 module, slanting outlet, as, 132
1:1 coupling
Video cinch connection, 1 module, slanting outlet, as, 131
soldered connection
Video cinch connection, 1 module, straight outlet, as, 131
1:1 coupling
Video cinch connection, 1 module, straight outlet, as, 131
soldered connection
Video connection, 1x cinch, 168
Video connection, 1x cinch, 1x MiniDIN, 168
Video connection, 1x cinch, 1x MiniDIN, as slanting, 176, 184
outlet
Video connection, 1x cinch, as slanting outlet, 176, 184
Video connection, 1x MiniDIN, 168
Video connection, 1x MiniDIN, as slanting outlet, 176, 184

X

XLR connection, 1 module, straight outlet, 3-pin, 135
connector, as soldered connection
XLR connection, 1 module, straight outlet, 3-pin, 135
socket, as soldered connection

Terms and conditions of sale and delivery
of OBO BETTERMANN GmbH & Co. KG, OBO BETTERMANN Projekt und Systemtechnik GmbH
and OBO Befestigungselemente GmbH, Menden.

1. All our supplies and services shall be governed exclusively by the following terms and conditions, including our additional terms and conditions for cable tray business transactions. Any terms and conditions of business and purchasing of the customer shall be valid only if we have acknowledged them in writing. Our quotations are without engagement; they are mere invitations to submit contract offers. Any and all transactions and agreements, including those entered into by our employees and agents shall only be binding upon our written confirmation or invoicing. The foregoing provision shall also apply to any modifications of the agreed formal requirements.

2. The documents and data pertaining to the quotation, such as illustrations, brochures, drawings, dimensions, loading capacity values and weight details are approximate only, unless they are expressly stipulated to be binding.

Samples are non-binding samples for inspection. Any purchase according to sample will be subject to customary deviations and deviations resulting from normal production processes. The properties of the sample shall be no guaranteed quality of the purchase object unless expressly stated otherwise in the confirmation of order. Samples must be returned to us at the latest within four weeks in perfect condition. If they are not returned within this period in proper condition, we shall be entitled to charge the purchase price for the sample in accordance with our current price list. All information on our products, in particular the illustrations, drawings, weight, dimension and performance data included in our quotations and printed matter shall be regarded as approximate average values and shall not represent any quality guarantee.

With regard to products made according to customer drawings, samples and other instructions of the customer, we will not provide any warranty nor assume any liability for the due and proper functioning of the product or for any other defects if and to the extent they are based upon the customer's specifications. The customer shall indemnify us from any third party claims, including claims for product liability as may be asserted against us for damages resulting from the products unless we have caused such damages by intent or gross negligence. The customer shall warrant that the manufacture and supply of products made in accordance with his instructions will not infringe any proprietary rights of third parties. Should any proprietary rights be asserted against us, we shall be entitled, without any legal review of the third party claims, to withdraw from the contract after hearing the customer, unless the third party withdraws the claims asserted against us under its proprietary rights within eight days by written declaration. The customer shall compensate us for any damage sustained as a result of the assertion of proprietary rights. In case of withdrawal, the work we have carried out so far shall be remunerated. Further rights under the statutory provisions shall not be affected thereby.

Any moulds, tools and design data produced by us for the execution of the order shall be our exclusive property. Unless expressly agreed otherwise, the customer shall not have any claims thereto, even if he has contributed to the costs of producing any such moulds, tools and design data.

3. The packing, shipping route and means of transportation shall be left to our discretion in the absence of any other agreements. They shall be charged at their cost price. We will take back undamaged cases, when being returned carriage paid, at 2/3 of the amount invoiced. The one-way or pool pallets used for transport shall be either exchanged upon taking delivery or returned. The smallest packing units stocked and listed may not be broken up for rationalisation reasons. In case of orders for different quantities, the nearest packing unit will be supplied.

We reserve the right to deviate from the agreed delivery quantity, in particular in the case of custom-made products, to a customary extent or in conformity with national or international standards. In case of a demand for adhering to a precise quantity, an express reference is necessary and subject to confirmation.

Master and call orders shall oblige the customer to accept the total quantity on which the master/call order is based. Where no particular call orders are specified in the contract, the total quantity of the master call order must be called within twelve months. If the customer fails to adhere to call deadlines, we shall be entitled to deliver and charge the total quantity in full after four weeks from written notice with reference to the consequences of any failure to call. Our rights arising from any default of the customer shall not be affected thereby.

4. Unless otherwise agreed, our prices are quoted ex works and do not include packing and insurance. The value added tax at the rate applicable on the date of dispatch will be added to our prices. The purchaser shall ensure the correctness of his VAT identification number, which he must notify to us immediately without being asked. He shall undertake to inform both us and the competent domestic tax authority without delay of any change in his name, address and VAT identification number.

Delivery shall be franco domicile within Germany, i.e. carriage and packing prepaid, if the net order value is in excess of € 1,200. For small orders below € 100 (net excluding value added tax), we shall invoice a lower quantity surcharge of € 10 (net) per order. Upon transfer of our supplies and services to a carrier or forwarding agent, at the latest upon their leaving our warehouse or supply plant, the risk shall pass to the recipient, even in case of delivery free place of destination.

5. Delivery periods and delivery deadlines shall be approximate only unless we have expressly stated in writing that they are binding. Delivery periods shall commence upon receipt of our confirmation of order, but not before clarification of all execution details, ex place of delivery. The customer shall only be entitled to withdraw from the contract after having granted a reasonable extension of time. We reserve the right to make partial deliveries. Claims for damages and reimbursement of expenses - for any reason whatsoever - shall be subject to the provisions set out in article 10.

In the event of any circumstances that are beyond our control within the scope of normal operating risks and obstruct or make impracticable any delivery, we shall be entitled to suspend delivery by the duration of such obstruction plus a reasonable start-up period or to withdraw from the contract for the part not yet fulfilled. The purchaser can demand a statement from us as to whether we wish to deliver within a reasonable period or withdraw. If we fail to make such a statement, the purchaser may withdraw. Our notice to the purchaser shall be deemed to be sufficient evidence that we have been prevented from delivering.

Delivery time is extended in case of such events as labour disputes, strikes and lockouts, orders from the authorities, difficulties with the procurement of materials, spoiled work or post-processing, shutdowns and staff shortage as well as shortage of means of transport, and general occurrence of unforeseen events beyond our scope of influence, by the length of duration of these events.

6. Payments shall be made upon receipt of invoice less a 3% cash discount for payment within 10 days or net after 30 days from date of invoice. Erection work and all paid labour work must be paid within 10 days without deduction of any cash discount. In case of non-cash payments, the date of the credit note will be deemed to be the date of receipt of payment. Payments received shall always be credited first against costs, then against interest and then against the earliest liability. Cheques and bills of exchange shall only be accepted as means of payment.

Any payment by bill of exchange shall be subject to a prior separate and written agreement, whereby all bill costs shall be borne by the customer and no discount can be granted. The customer shall have no right to refuse performance and no right of retention - for any legal reason whatsoever - unless we have acknowledged his claim beforehand in writing or his claim has the force of law.

The customer shall only be entitled to set off claims which have the force of law, are undisputed or acknowledged by us in writing.

7. We shall retain title to the goods supplied by us until all our claims arising from our business transactions with the customer have been satisfied - current account clause - and all bills of exchange or cheques submitted for payment by the customer have been honoured.

Any treatment or processing of goods subject to our retention of title (reserved goods) shall be carried out for us as the manufacturer in accordance with § 950 BGB (German Civil Code) without any obligation on our part. If our reserved goods are to be regarded as the main item or the main item is owned by the customer, full title to the new item shall pass to us when it is created. In other cases, we shall acquire a co-ownership interest in the new item in the proportion of the sales value of our reserved goods to the other goods used for the new item at the time of processing, intermingling, joining or mixing. The customer shall take custody of our ownership or co-ownership interest free of charge; it shall be treated as reserved goods.

Before transfer of title, our goods shall be neither pledged nor assigned as collateral without our prior consent. In addition, any third party rights or pledges shall be notified to us immediately and we shall be given all details and provided all documents necessary for intervention; otherwise the customer must bear our loss. In the latter case, our total claims against the customer shall also be immediately payable.

The customer shall be entitled to sell or to use our reserved goods in the ordinary course of business subject to the condition that the relevant claims are transferred in accordance with article 8 below. This right shall lapse upon the customer's failure to promptly meet his payment obligations towards us or in the event of any cheque or bill protests or his suspension of payments. In such cases, we shall be entitled to take back the goods provisionally at the customer's expense and to sell them at our duly exercised discretion after a corresponding reminder has been sent

to the customer. We will then pass the due amount to the customer's credit.

8. If our goods are sold before payment of our claim, the customer shall be obliged to retain our title against his purchaser until the goods have been paid for in full by the purchaser. The claim arising against the purchaser from such resale as well as any other ancillary rights or security interests of the customer resulting from the sale and any claims for compensation in case of damage to or destruction of our reserved property, including the relevant insurance sum shall hereby be assigned to us. We hereby accept this assignment. Where our co-ownership interest is sold, the relevant claims shall be assigned in the amount corresponding to the value of our interest.

The customer shall, at our request, inform us of his purchasers, notify them of the assignment made and provide us with any and all documents required to assert our rights.

As long as the customer meets his contractual obligations without delay, he shall be authorised to collect the claims assigned. He shall keep the amounts collected on our behalf separately and remit them to us immediately as soon and as far as our claims become due. The authorisation shall lapse in case of any cheque or bill protest of the customer or his definite suspension of payments. The customer shall bear the costs incurred for any action taken against third parties and shall advance them upon request.

If the security provided to us by the retention of title and the anticipatory assignment should exceed the claims to be secured by more than 20%, we shall, at the customer's request, release paid supplies of our choice. Upon payment of all our claims by the customer, assigned claims shall pass to the customer.

9. Any complaints for obvious defects regarding the quantity or quality of our supplies and services that are identifiable upon careful inspection shall without delay, but at the latest within the period of limitation of eight days from arrival of the goods at the address of the customer or the person appointed by him, be notified in writing to us, not to our representatives. Slight deviations in dimensions and designs within the scope of defined technical tolerances shall not give rise to any right of complaint. Any rejected goods may only be returned to us with our prior written authorisation.

In case of justified complaints within the prescribed period, we shall, at our option, take remedial action by way of subsequent performance, by rectifying the defect, supplying non-defective goods or providing a credit note for the lower value calculated.

We shall be entitled to refuse subsequent performance in accordance with the statutory provisions. If we refuse subsequent performance, if any subsequent performance remains unsuccessful or if the customer cannot be reasonably expected to accept any subsequent performance, the latter shall be entitled to withdraw from the contract in compliance with the provisions of the following sentences. The customer shall only be entitled to withdraw from the contract - where a withdrawal is not excluded by law - upon the unsuccessful expiry of a reasonable period for subsequent performance set by him, unless this period was not required under the statutory provisions (§§ 281 para. 2, 323 para. 2, 440, 441 para. 1 BGB (German Civil Code)).

In case of his withdrawal, the customer shall be liable for any deterioration, destruction or loss of use resulting from any negligence or intent on his part. Any claims for damages or reimbursement of expenses of the customer shall be subject to the provisions set out in article 10.

In the case of any fraudulent concealment of a defect or in the case of any provision of a quality guarantee for the goods sold at the time of the passing of risk within the meaning of § 444 BGB (German Civil Code) (seller's declaration that the object sold has a specific property at the time of the passing of risk and that the seller, regardless of any fault on his part, intends to be answerable for any and all consequences resulting from its absence), the customer's rights shall be exclusively governed by the statutory provisions.

We shall - in addition to the statutory grounds for refusal - also be entitled to refuse subsequent performance if and as long as the customer fails to send us, at our request, the rejected goods or a sample thereof; the customer shall have no right of withdrawal for any such refusal. We may further refuse any subsequent performance if the goods concerned have been altered or modified without our consent unless the customer can prove that the defect was not caused by such alteration or modification.

The limitation period for any claims arising from defects shall be one year; in the case of goods which have been used in accordance with their intended purpose for a building and have caused its defectiveness, the limitation period shall be two years. The provisions of §§ 478, 479 BGB (German Civil Code) on recourse in the chain of suppliers shall not be affected thereby.

10. In the case of a pre-contractual, contractual or non-contractual breach of duty, including unsatisfactory delivery, tortious conduct and producer's liability, we shall only be liable for compensatory damages and reimbursement of expenses - subject to further contractual or statutory liability requirements - in the case of intent, gross negligence or slightly negligent breach of a material contractual duty (contractual duty the infringement of which jeopardises the fulfilment of the object of the contract). However - except in the case of intent - our liability shall be limited to the typical contractual damage that was foreseeable at the time the contract was entered into.

The purchaser shall not be permitted to make a claim for expenses incurred in vain.

Except for any breach of material duties, our liability for slight negligence shall be excluded, but in any case be limited to the amount of the purchase price.

Any claim asserted by the customer or a third party for payment of a contractual penalty shall be excluded.

With regard to damages caused by delay, we shall only be liable for slight negligence up to the amount of 5% of the purchase price agreed with us.

The exclusions and limitations of liability set forth above shall not apply in the event that a guarantee is given with respect to the quality of the object sold within the meaning of § 444 BGB (German Civil Code) if a defect is fraudulently concealed or in the event of injury to life, physical injury or injury to health, or strict liability under the German Product Liability Act.

Any and all claims for damages against us, for any legal reason whatsoever, shall become statute-barred at the latest after one year from delivery of the goods to the customer, in the case of tortious liability from the time of knowledge, or grossly negligent ignorance, of the circumstances giving rise to the claim and the person liable to pay damages. This provision shall not apply in the case of liability for intent and in the event that a guarantee is given for the quality of the object sold, in the case of fraudulent concealment of a defect or in the event of injury to life, physical injury or injury to health, or strict liability under the German Product Liability Act. Any shorter limitation periods shall take precedence.

11. We shall be entitled to process and store any customer data obtained with regard to or in connection with the business relationship in accordance with the German Federal Data Protection Act, irrespective of whether such data is provided by the purchaser himself or by any third parties.

12. Place of performance for delivery and payment is Menden/Sauerland. The court of competent jurisdiction for any and all disputes, including disputes with regard to bills of exchange and cheques, is the Local Court (Amtsgericht) of Menden or, at our option, the District Court (Landgericht) of Amtsberg, irrespective of the value of the object in dispute. We shall, however, also be entitled to take legal proceedings against the customer at the place of his registered office.

German law shall be exclusively applicable. The application of international purchase laws is hereby excluded.

Should, for any reason whatsoever, individual provisions of our terms and conditions of sale and delivery be invalid, the validity and binding nature of the other provisions shall not be affected thereby. The customer agrees, that the invalid provision shall be replaced by a valid provision that comes as close as possible to the economic meaning of the invalid provision.

13. The prices of products made of brass and copper are subject to certain fluctuations that are based on the relevant DEL listings. The prices of our brass articles are based on a DEL listing of € 150 for Ms 58, those of our copper products on a DEL value for electrolyte copper of € 200.

In case of any increase or reduction in these prices by more than € 15, a five per cent surcharge or deduction shall be made for each 15 points. The calculation of any such surcharges or deductions shall be based on the DEL listing of the date of our receipt of the order.

Valid from January 2010
