Spark gap/surge voltage protection for coupling earthing systems

The FS-V 20 device is a discharge gap with parallel-connected surge voltage protector. It is used to couple different earthing systems. It is connected directly to the equipotential bonding rail concerned.

Application: Coupling earthing systems in data technology sector (functional and operational earthing)

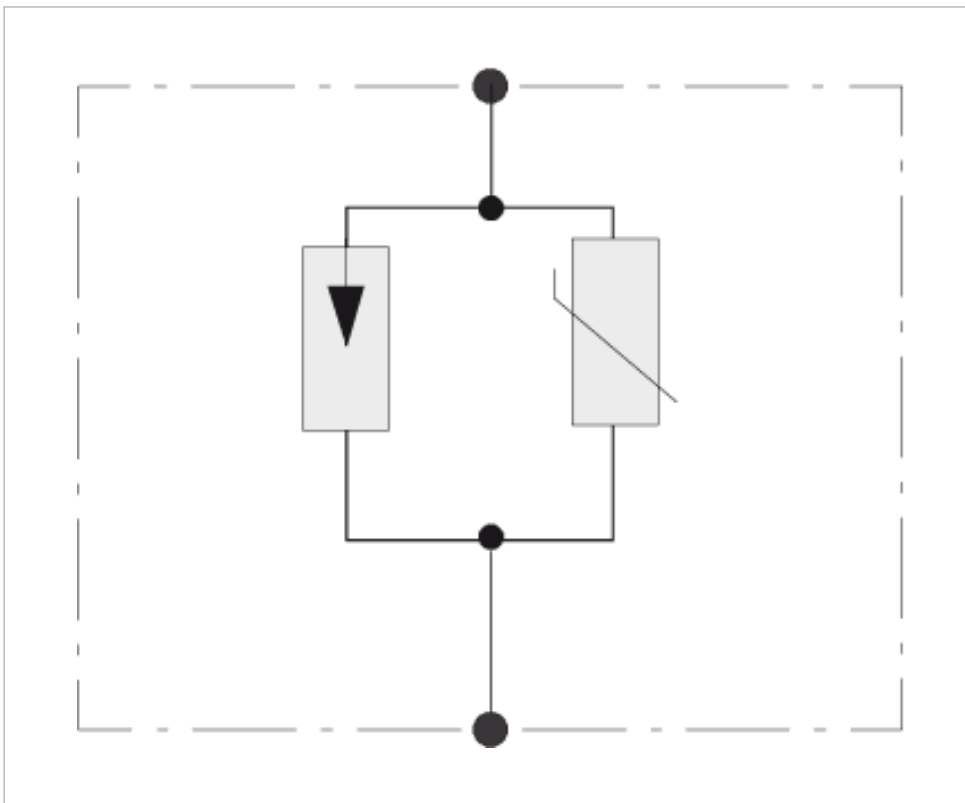

Type	Dimensions mm	Maximum continuous voltage V	Lightning impulse current (10/350) kA	Nominal discharge surge current (8/20) kA	Voltage protection level kV	Protection type	Pack Units	Weight kg/100 pc.	Art.-No.
